

[February 2020 Highlights](#)

The FERC insight gives you a monthly snapshot of FERC news – you get the latest news from the monthly Commission meeting and schedules for upcoming conferences and Commissioners' speeches/presentations, as well as links to Commission orders, notices and new reports.

[OGC Reorganization to Speed Landowner Rehearings](#)

FERC Chairman Neil Chatterjee built on his September 2019 pledge to prioritize rehearing requests involving landowners when he announced the Office of General Counsel will reorganize to expeditiously process requests for rehearing of Natural Gas Act section 7 certificate orders filed by affected landowners.

[Cloud Services and Virtualization Inquiry](#)

FERC is seeking comments on the potential benefits and risks associated with the use of virtualization and cloud computing services in the operation of the nation's bulk electric system. The Notice of Inquiry asks whether the Commission's Critical Infrastructure Protection Reliability Standards allow for these technology advancements and balance the innovations with security requirements.
