CHAPTER I--FEDERAL ENERGY REGULATORY COMMISSION, DEPARTMENT
OF ENERGY

Operating Revenues

200 Gathering revenues.

This account shall include revenues on the basis of tariff charges for the gathering or collection of crude oil, oil products and other commodities.

210 Trunk revenues.

This account shall include revenues on the basis of tariff charges for trunk line transportation of crude oil, oil products or other commodities.

220 Delivery revenues.

This account shall include revenues on the basis of tariff charges for receiving, delivering, unloading and loading fees at carrier terminal and delivery facilities.

230 Allowance oil revenue.

(a) This account shall include the current value of oil acquired through tariff allowances taken into inventory or retained in the line for operating oil supply, and the selling price of such oil sold not previously recorded in inventory or operating oil supply.

(b) Profits and losses on sales of allowance oil from inventory or operating supply shall be included in this account.

240 Storage and demurrage revenue.

This account shall include revenues on the basis of tariff charges for the storage of oil; also demurrage charges incident to failure of consignees to receive shipments promptly.

250 Rental revenue.

This account shall include the revenues from renting or subrenting property, the cost of which is included in the accounts for investment in carrier property.

260 Incidental revenue.

This account shall include revenues incidental to carrier operations and not includible in other revenue accounts.
