

Agenda for FERC's  
Hydro Licensing Status Workshop

The time frames provided in this agenda are estimates intended to assist people in planning. We will try our best to keep the workshop on schedule, but will not cut short discussions that are forward looking and beneficial to our goals and we will address all listed projects. Consequently, we ask for your patience if a discussion runs longer than expected. On the flip side, if we finish a discussion early, we will recess until the posted time to start the next discussion.

November 8, 2002, in the Commission Meeting Room

- I. Welcome and Opening Remarks **10:00 a.m.**
