

E. Interpretive or Informational

I-1

SIGN:

Pointe Nature Preserve
Caution Steep Slopes
Stay On the Trail Away
from the Bluffs,Warning
Absolutely No
Motorized Vehicles,
Keep Dogs on Leash

COMMENT:

Combination of informational signage (indicating a level of upkeep) and warning information increases effectiveness.

RECOMMENDATION:

None.

I-2

SIGN:

Portage Warning
Please Read
Following....

COMMENT:

High durability sign combines interpretive signage with warnings and maps. Informs user of whitewater classification and how to proceed.

RECOMMENDATION:

None.

SIGN:

Warning Please Read the Following...

COMMENT:

Combination of warning and interpretive information adds effectiveness. Map provides users with specific information on areas of particular concern or risk. Placement of trash receptacle near sign encourages viewer to approach and read information.

I-3

RECOMMENDATION:

None.

SIGN:

Various

COMMENT:

Bulletin board style interpretive sign areas provide places for seasonal or temporary warnings. Permanent safety signage should be used in cases of known hazards. Note overhanging board to shield signs from weather without limiting view of signs.

I-4

RECOMMENDATION:

None.

I-5

SIGN:
(Interpretive Sign)

COMMENT:
Color, content, placement and protection from sun and rain adds to effectiveness. Pamphlet holders can provide information and warnings increasing safety.

RECOMMENDATION:
Maintain supply of pamphlets.

I-6

SIGN:
Caution

COMMENT:
Combining safety message with information about the site will increase effectiveness. Placement at access point (dockage area) also increases effectiveness.

RECOMMENDATION:
None.

SIGN:

For Safe Boating...by
Bouys or Signs

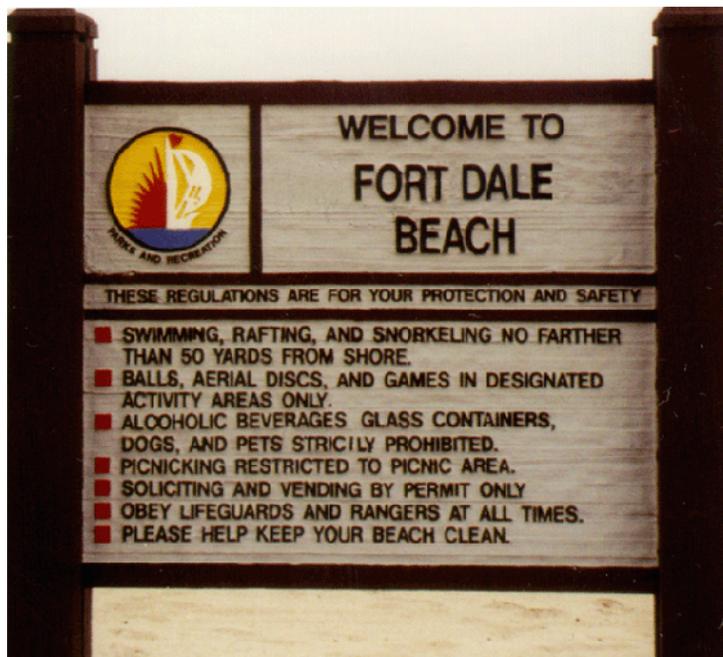

COMMENT:

Placement of safety message at access point (boat launch) increases effectiveness. Durable sign design with contrasting with background increases effectiveness.

RECOMMENDATION:

None.

I-7

SIGN:

Welcome to Fort Dale
Beach These Regulations
are for Your Protection and
Safety...

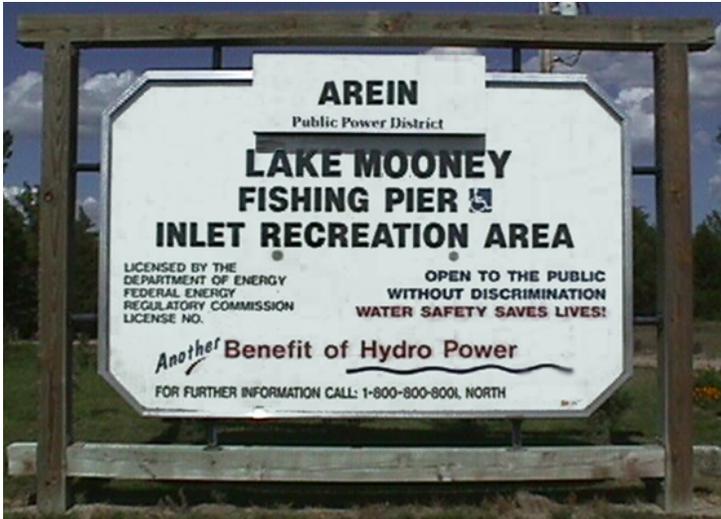

COMMENT:

Well maintained sign encourages visitor compliance with rules. Positive message and inclusion of party responsible for the site may increase compliance with stated rules. Partitioning of panels separates distinct components of the sign text.

RECOMMENDATION:

None.

I-8

SIGN:

Lake Mooney Fishing Pier.....

COMMENT:

Well built durable sign effectively provides information with less maintenance. Contact information and positive message encourages use of site.

RECOMMENDATION:

None.
