

122 FERC 61,241
UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Grand River Dam Authority

Project No. 2524-015

NOTICE OF INTENT NOT TO ACT ON REQUEST FOR RECONSIDERATION

(March 20, 2008)

On January 17, 2008, the Commission denied the Grand River Dam Authority's (GRDA) rehearing request seeking a refund of its administrative annual charges assessment for 1998 and 2001 for the Salina Pumped Storage Project No. 2524.¹

On February 19, 2008, GRDA filed a request for reconsideration, which continues to seek a partial refund of administrative annual charges paid for 2001.²

Notice is hereby given that the request for reconsideration raises no new relevant issues of law, policy, or fact, and the Commission has therefore decided to take no action on GRDA's request for reconsideration of the January 17, 2008 Order.³

By direction of the Commission.

(S E A L)

Kimberly D. Bose,
Secretary.

¹ 122 FERC ¶ 61,031 (2008).

² The January 17 Order also denied GRDA's request for a refund of the 1998 payment, but GRDA did not seek reconsideration of that portion of the order.

³ To the extent GRDA's pleading attempts to seek rehearing of the Commission's January 17 Order, it would be rejected. Because the Commission did not reverse the underlying decision in its January Order, rehearing of our January Order denying rehearing does not lie.
