SECOND NOTICE OF TECHNICAL CONFERENCE

(August 21, 2007)

As announced on August 8, 2007, the staff of the Federal Energy Regulatory Commission will hold a technical conference in the above-referenced proceeding on Wednesday, August 29, 2007, from 9:00 am to 1:00 pm at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

All parties and interested persons are invited to attend.

The conference will address the following issues raised with regard to Boralex's updated market power analysis:

1. What is the relevant geographic market for Boralex's market power analysis – the Northeast Power Coordinating Council's Maritimes Control Area (MCA) or the Northern Maine Independent System Administrator (NMISA) region?
2. Should Boralex be disallowed from deducting long-term firm non-requirements capacity in its market power analysis due to extraordinary circumstances (i.e., unique structural issues) in the relevant geographic market?
3. Should uncommitted capacity from Boralex's remote generation in the ISO-NE balancing authority area be considered in Boralex's market power analysis?
4. How should transmission import capacity into NMISA be allocated, and what impact will planned transmission additions have on import capabilities?
5. Why is the Boralex Sherman plant currently mothballed?

FERC conferences are accessible under section 508 of the Rehabilitation Act of 1973.
