Docket Nos. RM05-17-000 and RM05-25-000

Day 1 – Monday, October 15, 2007

8:30 – 8:45 a.m. **Welcome and Introductions**

In Order No. 890, the Federal Energy Regulatory Commission set forth nine principles to govern the addition of a transmission planning process to the open access transmission tariff of each transmission provider. In this introductory session, representatives of the Commission will welcome the participants; briefly discuss the reasons underlying the Commission's decision to require a second round of transmission planning technical conferences in the July 27 Order; and give an overview of the day's agenda.
