AND ORDER ON LATE INTERVENTION

(August 8, 2008)

Take notice that as previously announced on August 1, 2008, the Federal Energy Regulatory Commission (Commission) will hold a technical conference in the above-captioned proceedings on Thursday, August 14, 2008. As stated in the August 1, 2008 Notice, the purpose of the conference is to allow the parties and Commission staff to discuss whether and when the Cove Point Expansion Project can go forward without causing unsafe leakage consistent with the public interest. Specifically, the participants should be prepared to discuss the nature and progress of remedial measures taken to date, as well as the need and benefit of any other remedial measures that might be taken by Washington Gas Light Company (WGL) and Dominion Cove Point LNG, LP so that WGL's system can safely accommodate the increased amounts of regasified LNG from Cove Point's LNG import terminal. The Commission is providing further information concerning the conference.
