FEDERAL ENERGY REGULATORY COMMISSION

Credit and Capital Issues Affecting
the Electric Power Industry

Docket No. AD09-2-000

NOTICE OF TECHNICAL CONFERENCE

(November 20, 2008)

Take notice that on January 13, 2009, the Commission will convene a technical conference to discuss issues affecting the electric power industry that result from the current situation in the financial markets. Such issues include both the short-term credit issues such as access to capital for normal business operations and credit practices in short-term markets, as well as the effect on long-term capital financing of infrastructure replacement and new project development. The technical conference is designed to provide the Commission and industry stakeholders with current information about the financial health of electric public utilities, the state of wholesale power markets, and the development of infrastructure.

The technical conference will be held in the Commission Meeting Room at the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426. All interested persons are invited to attend. The conference is free with no registration. Further notices with detailed information will be issued in advance of the conference.

A free webcast of this event is available through www.ferc.gov. Anyone with internet access who desires to listen to this event can do so by navigating www.ferc.gov's Calendar of Events and locating this event in the Calendar. The event will contain a link to its webcast. The Capitol Connection provides technical support for the webcasts and offers the option of listening to the meeting via phone-bridge for a fee.
