NOTICE OF  
INTERVIEWS, TELECONFERENCES, REGIONAL WORKSHOPS AND MULTI-  
STAKEHOLDER TECHNICAL CONFERENCE  
ON THE INTEGRATED LICENSING PROCESS

(May 18, 2010)

As part of our commitment to ensuring the effectiveness of the Integrated Licensing Process (ILP), Federal Energy Regulatory Commission (FERC) is undertaking a second effectiveness evaluation. To facilitate this review, FERC has contracted with Kearns & West to conduct the 2010 ILP Effectiveness Evaluation. This effort includes conducting interviews and teleconferences with a cross-section of stakeholders, four regional workshops, and a multi-stakeholder effectiveness technical conference in Washington, DC. We invite stakeholders to provide lessons learned from their experience as a participant in the ILP.

## **INTERVIEWS AND TELECONFERENCES**

Over the next few weeks, members of Kearns & West will be conducting phone interviews with a number of representatives of agencies, tribes, non-governmental organizations, licensees, Commission staff, and others involved in the above-identified hydropower licensing proceedings. Applicants in these proceedings have completed the pre-filing efforts and filed license applications using the ILP. Other participants in these or other ILP proceedings are encouraged to share their thoughts at the workshops and technical conference. Following the completion of the interviews, three teleconferences by sectors (i.e. applicants, resource agencies and tribes, and non-governmental organizations) will be held between July 19 and July 30, 2010.

## **REGIONAL EFFECTIVENESS WORKSHOPS**

Commission staff will hold four regional workshops on the ILP in September 2010. The purpose of the regional workshops is to seek further feedback on experiences in the ILP and to explore ideas to better implement the ILP. Because of ex parte concerns, discussions will be limited to process rather than the merits of any proceeding before the Commission.

FERC is exploring hosting the Regional Effectiveness Workshops in the following locations: New York, California, Virginia or North Carolina, and Washington State.

The workshops are open to the public and all interested parties are invited to attend and participate. Meeting details and logistics will be noticed and posted on the Commission's web page and calendar (<http://www.ferc.gov/>).

## **MULTI-STAKEHOLDER ILP EFFECTIVENESS TECHNICAL CONFERENCE**

A one-day, multi-stakeholder technical conference will be held on Wednesday, November 3, 2010, from 11:00 a.m. (EST) to 3:00 p.m., in the Commission Meeting Room at the Federal Energy Regulatory Commission, 888 First Street, NW, Washington, DC. The technical conference will focus on gathering information to evaluate the effectiveness of the ILP and refining ideas to better implement the ILP. The technical conference is open to the public and all interested parties are invited to attend and participate.

We are exploring opportunities for remote listening, participating, and viewing the Technical Conference. Final details will be noticed and posted no later than October 1, 2010.

For additional information, please contact David Turner at 202-502-6091 or [david.turner@ferc.gov](mailto:david.turner@ferc.gov).

Kimberly D. Bose,  
Secretary.
