SUPPLEMENTAL NOTICE REGARDING STAFF TECHNICAL CONFERENCE

(August 23, 2010)

By order dated July 26, 2010, in Docket No. ER10-1401-000, the Federal Energy Regulatory Commission (Commission) directed staff to convene a technical conference regarding California Independent System Operator Corporation's (CAISO) proposed Revised Transmission Planning Process (RTPP).¹

Pursuant to notices issued on August 3, 2010 and August 19, 2010,² such conference will be held on August 24, 2010 at the Commission's headquarters at 888 First Street NE, Washington, DC 20426, beginning at 9:00 a.m. (EDT) in the Commission Meeting Room. The technical conference will be led by Commission staff. Commissioners may attend the conference. All interested persons are invited to attend, and registration is not required.

¹ *Cal. Indep. Sys. Operator Corp.*, 132 FERC ¶ 61,067 (2010).

² A further supplemental notice was issued on August 20, 2010.

As stated previously, the purpose of the technical conference is to discuss the issues raised by CAISO's proposed revisions to its Open Access Transmission Tariff (Tariff) to implement its RTPP in Docket No. ER10-1401-000 and obtain additional information regarding CAISO's proposal. However, because CAISO's RTPP filing presents issues that may be tangentially related to the proceeding in Docket No. EL10-81-000, out of an abundance of caution, we hereby notify parties that the technical conference discussion may touch upon issues pending in this proceeding.
