

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Tennessee Gas Pipeline Company

Docket No. RP11-1566-000

NOTICE OF TECHNICAL CONFERENCE

(January 11, 2011)

On November 30, 2010, pursuant to section 4 of the Natural Gas Act (NGA), Tennessee Gas Pipeline Company (Tennessee) filed revised tariff records proposing a rate increase for existing services and changes to certain terms and conditions of service, including elimination of certain rate schedules.¹ Tennessee proposes an effective date of January 1, 2011. As discussed below, the Commission accepts and suspends for the maximum suspension period Tennessee's primary tariff records listed in Appendix A, to be effective June 1, 2011, subject to refund and the outcome of the hearing and technical conference established in this order.

Take notice that a technical conference to discuss non-rate issues raised by Tennessee Gas Pipeline Company filing will be held on Wednesday, February 2, 2011 at 10:00 am (EST) and Thursday, February 3, 2011 at 10:00 am (EST), in a room to be designated at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

Federal Energy Regulatory Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations please send an email to accessibility@ferc.gov or call toll free 1-866-208-3372 (voice) or 202-208-1659 (TTY), or send a FAX to 202-208-2106 with the required accommodations.

¹ The list of revised tariff records is shown on Appendix A. The Commission notes that Tennessee's list of proposed tariff records in its Transmittal Letter does not match the number of tariff records proposed to be changed as contained in its XML tariff filing (117 v. 137 tariff records respectively). Further, the tariff record section titles in its Transmittal Letter also do not match the tariff records' section titles it provided in the XML tariff filing. Tennessee's use of different tariff record section titles in its document attachments and for the electronic version of its tariff and electronic table of contents is confusing. Consistent with the Commission's January 21, 2010 order on *Electronic Tariff Filings*, 130 FERC ¶ 61,047 (2010), the tariff record data Tennessee provides controls. Therefore, Appendix A reflects Tennessee's proposed tariff records and section titles.

All parties and staff are permitted to attend. For further information please contact Robert D. McLean (202) 502-8156 or sebrina.greene@ferc.gov

Nathaniel J. Davis, Sr.,
Deputy Secretary.
