

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Transcontinental Gas Pipe Line Corporation

Docket No. PF11-4-000

NOTICE OF ONSITE ENVIRONMENTAL REVIEW

(September 1, 2011)

On September 21, 2011, the Office of Energy Projects staff will be in Clinton, Franklin, and Union Townships, New Jersey to gather data related to the environmental analysis of the proposed Northeast Supply Link Project. The purpose of this visit is to review the resources potentially affected by the proposed Stanton Pipeline Loop and to assess potential alternatives. This will assist staff in completing its comparative evaluation of environmental impacts of the proposed project. Viewing of this area is anticipated to be from public access points and Transcontinental Gas Pipe Line Corporation right-of-way.

All interested parties planning to attend must provide their own transportation. Those attending should meet at the following location:

**9am – Bundt Park
Red School House Road
Clinton Township, NJ 08833**

Please use the FERC's free eSubscription service to keep track of all formal issuances and submittals in the above referenced docket. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. To register for this service, go to www.ferc.gov/esubscribenow.htm.

Information about specific onsite environmental reviews is posted on the Commission's calendar at <http://www.ferc.gov/EventCalendar/EventsList.aspx>. For additional information, contact Office of External Affairs at (866) 208-FERC.

Kimberly D. Bose,
Secretary.
