NMFS disputed the treatment of several of its study requests, filed on March 7, 2011, in the Commission's study plan determination, issued on September 30, 2011. NMFS specifically identified study requests one through six and study request eight as the disputed components of its, March 7, 2011 filing. In its study requests one through six NMFS requested studies of the effects of project and related activities on: 1) fish passage for anadromous fish; 2) hydrology for anadromous fish; 3) water temperatures for anadromous fish migration, holding, spawning, and rearing needs; 4) coarse substrate for anadromous fish: sediment supply, transport, and storage; 5) large wood and riparian habitat for anadromous fish; and 6) loss of marine-derived nutrients in the Yuba River, respectively. In study request eight, NMFS requested a study of, "anadromous fish ecosystem effects analysis: synthesis of direct, indirect, and cumulative effects of the project and related facilities on anadromous fish.
