Docket No. ER11-4628-000

(Issued December 15, 2011)

MOELLER, Commissioner, *concurring*:

While I agree that PJM's proposal for Price Responsive Demand raises issues that are appropriately explored through a technical conference, I think it is a good example of why I stated that Order No. 745 should have allowed the existing ISO and RTO demand response compensation programs to continue to be tailored to meet the needs of their individual energy markets.¹

Philip D. Moeller
Commissioner
