

THE ROAD TO SUCCESS

ENVIRONMENTAL REVIEW and COMPLIANCE FOR NATURAL GAS FACILITIES

Seminar Schedule

Day 1	8:00 am – 12:00 pm	Environmental Review for Natural Gas Facilities
	12:00 pm – 1:00 pm	Lunch*
	1:00 pm – 5:00 pm	Environmental Review for Natural Gas Facilities
Day 2	8:00 am – 11:00 am	Environmental Review for Natural Gas Facilities
	11:00 am – 1:00 pm	Lunch* (Note: Pipeline Construction Primer starts at 12:00)
	12:00 pm – 12:45 pm	Pipeline Construction Primer ‡
	1:00 pm – 5:00 pm	Environmental Compliance for Natural Gas Facilities
Day 3	8:00 am – 12:00 pm	Environmental Compliance for Natural Gas Facilities
	12:00 pm – 1:00 pm	Lunch*
	1:00 pm – 5:00 pm	Environmental Compliance for Natural Gas Facilities

Environmental Review for Natural Gas Facilities

Welcome

Program Overview

Introduction to FERC

The FERC Process

Section 7: New Construction and Abandonment Projects

Process Preparation

Pre-Filing Process

7(c) Application, Exhibit F-1, Environmental Report

NEPA Review

Countdown to Construction

Section 2.55: Exclusion Projects

Types of Projects

Notification Requirements

* Lunch will not be provided

‡ This session is geared towards participants that are new to the industry who may not be familiar with basic pipeline construction practices, equipment, and terminology.

THE ROAD TO SUCCESS

ENVIRONMENTAL REVIEW and COMPLIANCE FOR NATURAL GAS FACILITIES

Reporting Requirements

Section 157, Subpart F: Blanket Certificate Projects

Types of Projects

Notification Requirements

Reporting Requirements

Environmental Compliance for Natural Gas Facilities

Construction

Environmental Compliance Management Program

Defining Project Work Areas and Access Routes

Clearing and Grading

Temporary Erosion and Sediment Control Installation

Trenching and Blasting

Stringing, Bending, and Welding

Lowering-In and Backfill

Other Resource Protection Measures

Hazardous Materials Management and Spill Prevention and Response

Natural Resources

Cultural Resources

Specialized Construction

Residential Areas

Winter Construction

Wetland Crossings

Waterbody Crossings

Construction (continued)

Hydrostatic Testing

Cleanup and Restoration

Permanent Erosion and Sediment Control Installation

Post-Construction

Maintenance, Monitoring, and Reporting

Closing Remarks
