Washington, DC 20036-3116

Attention: Matthew T. Rick,
Attorney for KPC Pipeline, LLC

Dear Mr. Rick:

1. On November 24, 2014, KPC Pipeline, LLC (KPC) filed a request for a one-time waiver of section 24.5 of the General Terms and Conditions (GT&C) of KPC's FERC Gas Tariff. Section 24.5 requires that KPC file an interruptible transportation (IT) revenue crediting report with the Commission within 60 days of October 1 of each year. As discussed below, for good cause shown, the Commission grants a one-time waiver of section 24.5 of KPC's GT&C.

2. Section 24.5 provides that KPC shall file an IT revenue crediting report comparing the total revenues collected by KPC pursuant to Rate Schedule IT during the twelve-month period ending September 30, 2014, to the total cost of service allocated to be recovered under Rate Schedule IT during that period. To the extent such revenues exceed such cost of service allocation, KPC is required to credit 100 percent of the excess revenue, less applicable surcharges, penalties, and variable costs, to firm shippers receiving service under Rate Schedules FT and FT-NN. Section 24.5 further provides that all firm shippers served under Rate Schedules FT and FT-NN paying the maximum rate shall receive such credits.

3. KPC states that during the twelve-month period ending September 30, 2014, KPC did not provide service to any Rate Schedules FT or FT-NN shipper paying maximum tariff rates. Therefore, there are no shippers that would be entitled to receive a credit of

any excess IT revenues that were earned during that period. KPC further states that no practical purpose would be served by compiling and filing the annual IT revenue crediting report, and even if the report demonstrated that KPC earned excess IT revenues during the period, no crediting would be required.

4. Public notice of the filing was issued on November 25, 2014. Interventions and protests were due as provided in section 154.210 of the Commission's regulations (18 C.F.R. § 154.210 (2014)). Pursuant to Rule 214 (18 C.F.R. § 385.214 (2014)), all timely filed motions to intervene and any unopposed motion to intervene out-of-time filed before the issuance date of this order are granted. Granting late intervention at this stage of the proceeding will not disrupt the proceeding or place additional burdens on existing parties. No protests or adverse comments were filed.

5. The Commission has reviewed KPC's request for waiver, which states that no firm shipper on its system would qualify to receive any excess IT revenues for the twelve-month period ending September 30, 2014. KPC's request is unopposed. The Commission finds that good cause has been shown to support the waiver, and accordingly, the Commission grants KPC's request for waiver of section 24.5 of its GT&C for the annual period at issue.

By direction of the Commission.

Nathaniel J. Davis, Sr.,
Deputy Secretary.
