

150 FERC ¶ 61,015  
FEDERAL ENERGY REGULATORY COMMISSION  
WASHINGTON, D.C. 20426

January 14, 2015

In Reply Refer To:  
Chesapeake Energy Marketing, L.L.C.  
and SND Operating, LLC  
Docket No. RP15-255-000

Chesapeake Energy Marketing, L.L.C.  
Mayer Brown LLP  
1999 K Street, NW  
Washington, DC 20006-1101

Attention: David I. Bloom

Dear Mr. Bloom:

1. On December 9, 2014, Chesapeake Energy Marketing, L.L.C. (CEM) and SND Operating, LLC (SND Operating) (collectively, Petitioners) filed a joint petition requesting a limited temporary waiver of the Commission's capacity release regulations and policies, related provisions of Enable Gas Transmission, LLC's (Enable) FERC Gas Tariff, and any other waivers necessary to enable CEM to permanently release and assign a firm transportation agreement to SND Operating. Petitioners request that the Commission issue an order granting the waivers no later than January 15, 2015, so that the release may be effective February 1, 2015. For the reasons discussed below, and for good cause shown, the Commission grants the requested limited waivers.

2. Petitioners state that, pursuant to a November 24, 2014 Purchase and Sale Agreement, a wholly-owned subsidiary of Chesapeake Energy Corporation, the parent of CEM, sold 184,000 net acres in Texas and Louisiana to SND-Vortus LP, operated by the General Partner, SND Operating (the Transaction). Petitioners state that the acreage includes significant production of natural gas, natural gas liquids and condensate, including production in the Haynesville Shale formation. Petitioners state that an integral part of the Transaction is the permanent release of 20,000 dekatherms (Dth) per day of firm transportation capacity on Enable (Contract No. 1006966), which CEM currently uses to transport the referenced production to SND Operating. According to the Petitioners, SND Operating will use the assigned capacity to market production it has purchased from its affiliates. Petitioners assert that the contract with Enable is subject to

a negotiated rate and is not currently equal to the applicable maximum recourse rates. Petitioners state that, over the term of the assigned contract, the rates may be less than or greater than the then-effective maximum recourse rates. Petitioners assert that the negotiated rates are also subject to specified adjustments that may cause them to fluctuate during their respective remaining terms.

3. To facilitate the permanent prearranged release and assignment of specified portions of the assigned contract as part of the Purchase and Sales Agreement, Petitioners request a limited, case-specific waiver of the Commission's capacity release regulations and policies, the applicable capacity release provisions in Enable's tariff, and any other waivers or authorizations deemed necessary by the Commission. Specifically, Petitioners request that the Commission grant all waivers and authorizations necessary for: (1) the permanent release of the assigned contracts, without bidding;<sup>1</sup> (2) a waiver of the prohibition on the release of capacity above the maximum recourse rate;<sup>2</sup> (3) a 90-day waiver of the prohibition on buy/sell arrangements; and (4) a waiver of the prohibition of tying the release of capacity to other transactions.

4. Petitioners assert that granting the requested waivers is in the public interest because granting the waivers will facilitate the continued production of the transferred properties in the Haynesville Shale and SND Operating will have the firm transportation rights necessary to move their production to markets. Petitioners also assert that the assigned capacity cannot be separated from the overall Transaction, and the Transaction cannot be fully effectuated without the transfer of the assigned capacity. Lastly, Petitioners state that granting the requested waivers will allow the Transaction to be fully consummated.

5. Public notice of the joint petition was issued on December 10, 2014. Interventions and protests were due as provided in section 154.210 of the Commission's regulations.<sup>3</sup> Pursuant to Rule 214,<sup>4</sup> all timely motions to intervene and any unopposed motions to intervene out-of-time filed before the issuance date of this order are granted. Granting late intervention at this stage of the proceeding will not disrupt this proceeding or place additional burdens on existing parties. No protests or adverse comments were filed.

<sup>1</sup> 18 C.F.R. § 284.8(e) (2014).

<sup>2</sup> 18 C.F.R. § 284.8(b)(2) (2014).

<sup>3</sup> 18 C.F.R. § 154.210 (2014).

<sup>4</sup> 18 C.F.R. § 385.214 (2014).

6. The Commission has reviewed the Petitioners' request for temporary waivers and finds that the request is adequately supported and consistent with previous waivers the Commission has granted to permit the release of capacity under similar circumstances.<sup>5</sup> Petitioners have also provided the information required for approval of such waivers. Specifically, Petitioners provided: (1) identification of the regulations and policies for which waiver is sought; (2) identification of the pipeline service agreements and capacity to be transferred; and (3) a description of the overall transaction and its claimed benefits, with sufficient detail to permit the Commission and other interested parties to determine whether granting the requested waivers is in the public interest.<sup>6</sup>

7. Accordingly, for good cause shown, the Commission grants Petitioners' request for temporary, limited waiver of its capacity release regulations, including the permanent release of the assigned contracts, without bidding;<sup>7</sup> a waiver of prohibition on the release of capacity above the maximum recourse rate;<sup>8</sup> a 90-day waiver of the prohibition on buy/sell arrangements; and a waiver of the prohibition of tying the release of capacity to other transactions. In addition, the Commission grants, to the extent necessary, a
