Docket Nos. ER15-1080-000
ER15-1080-001

ORDER GRANTING MARKET-BASED RATE AUTHORIZATION AND
REQUEST FOR WAIVERS

(Issued May 8, 2015)

1. In this order, we grant Beethoven Wind, LLC (Beethoven Wind) authority to make wholesale sales of electric energy, capacity, and ancillary services at market-based rates, effective February 27, 2015, as requested. As discussed below, we grant Beethoven Wind's request for waiver of the Commission's requirements to file an Open Access Transmission Tariff (OATT), to establish and maintain an Open Access Same-Time Information System (OASIS), and to comply with the Commission's Standards of Conduct. We also grant Beethoven Wind's request for other waivers commonly granted to market-based rate sellers, except as noted herein.
2. Additionally, we find that Beethoven Wind meets the criteria for a Category 1 seller in all regions and is so designated.¹

I. Background

3. On February 20, 2015, as amended on April 2, 2015, pursuant to section 205 of the Federal Power Act (FPA),² Beethoven Wind filed an application for market-based rate authority with an accompanying tariff providing for the sale of electric energy, capacity, and ancillary services at market-based rates.³

4. Beethoven Wind states that it will own a 79.55 (megawatt) MW wind-powered electric generation facility (the Facility) in the Western Area Power Administration – Upper Great Plains East (WAUE) balancing authority area. Beethoven Wind represents that NorthWestern Corporation (NorthWestern) is contractually entitled to all of the Facility’s electrical output pursuant to long-term power purchase agreements.

5. Beethoven Wind states that it also will own an approximately seven-mile, 115 kilovolt generator interconnection line and associated equipment that will be used to interconnect the Facility to the transmission facilities owned by NorthWestern and operated by the Western Area Power Administration. Beethoven Wind states that its interconnection line and associated equipment are limited and discrete. Beethoven Wind requests that the Commission waive the requirements under Order Nos. 888⁴ and 890⁵

² 16 U.S.C. § 824d (2012).

³ Beethoven Wind requests authorization to sell ancillary services in the markets administered by the PJM Interconnection, L.L.C., New York Independent System Operator, Inc., ISO New England Inc., California Independent System Operator Corp., Midcontinent Independent System Operator, Inc., and Southwest Power Pool, Inc. Beethoven Wind also requests authorization to engage in the sale of certain ancillary services as a third-party provider.

¹² Subsequent to the filing of this application, the Commission issued Order No. 807, which will become effective June 30, 2015. In Order No. 807, the Commission amended its regulations to waive the OATT requirements of section 35.28, the OASIS requirements of Part 37, and the Standards of Conduct requirements of Part 358, under certain conditions, for entities that own interconnection facilities. *Open Access and Priority Rights on Interconnection Customer's Interconnection Facilities*, Order No. 807, FERC Stats. & Regs. ¶ 31,367 (2015).

6. Beethoven Wind is a wholly owned subsidiary of BayWa r.e. Wind, LLC (BayWa Wind), which is owned 95 percent by BayWa r.e. USA, LLC (BayWa USA), and 5 percent by an individual who is the President and CEO of BayWa Wind. BayWa USA is a wholly owned subsidiary of BayWa r.e. Renewable GmbH, which in turn is a wholly owned subsidiary of BayWa AG.

II. Notice of Filings

7. Notices of Beethoven Wind's filings were published in the *Federal Register*¹³ with interventions and protests due on or before April 13, 2015. None was filed.

8. Notice of Beethoven Wind's request for blanket authorization under Part 34 of the Commission's regulations was separately published in the *Federal Register*, 80 Fed. Reg. 12,470 (2015), with interventions or protests due on or before March 23, 2015. None was filed.

III. Discussion

9. As discussed below, we will grant Beethoven Wind's request for authorization to make wholesale sales of electric energy, capacity, and ancillary services at market-based rates,¹⁴ and we will accept its market-based rate tariff, effective February 27, 2015, as requested. We will also grant Beethoven Wind's request for certain waivers.

A. Market-Based Rate Authorization

10. The Commission allows power sales at market-based rates if the seller and its affiliates do not have, or have adequately mitigated, horizontal and vertical market power.¹⁵

¹³ 80 Fed. Reg. 10,470 (2015); 80 Fed. Reg. 19,078 (2015).

¹⁴ We note that Beethoven Wind is not being granted authority to make third-party sales of operating reserves to a public utility that is purchasing ancillary services to satisfy its own open access transmission tariff requirements to offer ancillary services to its own customers. If Beethoven Wind seeks such authority, it must make the required showing and receive Commission authorization prior to making such sales. *See Third-Party Provision of Ancillary Services; Accounting and Financial Reporting for New Electric Storage Technologies*, Order No. 784, FERC Stats. & Regs. ¶ 31,349, at PP 200-202 (2013), *order on clarification*, Order No. 784-A, 146 FERC ¶ 61,114 (2014).

¹⁵ Order No. 697, FERC Stats. & Regs. ¶ 31,252 at PP 62, 399, 408, 440.

1. Horizontal Market Power

11. The Commission has adopted two indicative screens for assessing horizontal market power: the pivotal supplier screen and the wholesale market share screen.¹⁶ The Commission has stated that passage of both screens establishes a rebuttable presumption that the applicant does not possess horizontal market power, while failure of either screen creates a rebuttable presumption that the applicant has horizontal market power.¹⁷

12. Beethoven Wind represents that it and its affiliates do not have any uncommitted generating capacity in the relevant market,¹⁸ thus, it passes both indicative screens. Based on Beethoven Wind's representations, we find that Beethoven Wind satisfies the Commission's requirements for market-based rates regarding horizontal market power.

2. Vertical Market Power

13. In cases where a public utility, or any of its affiliates, owns, operates, or controls transmission facilities, the Commission requires that there be a Commission-approved OATT on file or that the seller has received waiver of the OATT requirement before granting a seller market-based rate authorization.¹⁹

14. Beethoven Wind states that neither it nor its affiliates own transmission facilities other than limited and discrete interconnection lines and associated equipment necessary to connect generating facilities to the transmission grid. In this case, as discussed more fully below, the Commission will grant Beethoven Wind's request for waiver of the requirement to have an OATT on file for the interconnection facilities used to interconnect the Facility to the NorthWestern transmission system.

15. The Commission also considers a seller's ability to erect other barriers to entry as part of the vertical market power analysis.²⁰ The Commission requires a seller to provide a description of its ownership or control of, or affiliation with an entity that owns or controls, intrastate natural gas transportation, intrastate natural gas storage or distribution facilities; sites for new generation capacity development; and physical coal

²⁰ *Id.* P 440.

supply sources and ownership of or control over who may access transportation of coal supplies (collectively, inputs to electric power production).²¹ The Commission also requires sellers to make an affirmative statement that they have not erected barriers to entry into the relevant market and will not erect barriers to entry into the relevant market.²² The Commission adopted a rebuttable presumption that the ownership or control of, or affiliation with any entity that owns or controls, inputs to electric power production does not allow a seller to raise entry barriers but will allow intervenors to demonstrate otherwise.²³

16. Regarding other barriers to entry, Beethoven Wind states that neither it nor any of its affiliates owns or controls intrastate natural gas transportation, intrastate natural gas storage or distribution facilities, or sources of coal supplies and the transportation of coal supplies such as barges and rail cars. Beethoven Wind states that it and its affiliates lease sites for new generation development and are currently developing generation for these sites but further notes that these sites could not be used to erect barriers to entry.

17. In addition, consistent with Order No. 697, Beethoven Wind affirmatively states that it and its affiliates have not erected, and will not erect, barriers to entry in the relevant market.

18. Based on Beethoven Wind's representations, we find that Beethoven Wind satisfies the Commission's requirements for market-based rates regarding vertical market power.

B. Waiver Requests

1. OATT, OASIS, and Standards of Conduct

19. Beethoven Wind seeks waiver of the requirements to file an OATT, establish and maintain an OASIS, and abide by the Standards of Conduct with respect to its interconnection facilities. In support, Beethoven Wind represents that the interconnection line and associated equipment described in its application are limited and discrete transmission facilities that do not form an integrated transmission grid.

20. Order Nos. 888 and 890 and section 35.28 of the Commission's regulations require public utilities that own, operate, or control facilities used for the transmission of

²¹ Order No. 697-A, FERC Stats. & Regs. ¶ 31,268 at P 176.

²³ *Id.* P 446.

electric energy in interstate commerce to file an OATT. Order No. 889 and Part 37 of the Commission's regulations require public utilities to establish and maintain an OASIS. Order Nos. 889, 2004, and 717, and Part 358 of the Commission's regulations require public utilities to abide by certain Standards of Conduct.²⁴ In prior orders, the Commission has enunciated the standards for exemption from some or all of the requirements of Order Nos. 888 and 889.²⁵ The Commission has stated that the criteria for waiver of the requirements of Order No. 890 and Order No. 2004 are unchanged from those used to evaluate requests for waiver under Order Nos. 888 and 889.²⁶ Order No. 717 did not change those criteria.²⁷

21. The Commission may grant requests for waiver of the obligation to file an OATT to public utilities that can show that they own, operate, or control only limited and discrete transmission facilities (facilities that do not form an integrated transmission grid), until such time as the public utility receives a request for transmission service. Should the public utility receive such a request, the Commission has determined that the public utility must file with the Commission a *pro forma* tariff within 60 days of the date of the request, and must comply with any additional requirements that are effective on the date of the request.²⁸

22. The Commission has also determined that waiver of the requirement to establish an OASIS and abide by the Standards of Conduct would be appropriate for a public utility if the applicant: (1) owns, operates, or controls only limited and discrete transmission facilities (rather than an integrated transmission grid); or (2) is a small public utility that owns, operates, or controls an integrated transmission grid, unless other circumstances are present that indicate that a waiver would not be justified.²⁹ The

Commission has held that waiver of Order No. 889 will remain in effect until the Commission takes action in response to a complaint to the Commission that an entity evaluating its transmission needs could not get the information necessary to complete its evaluation (for OASIS waivers) or an entity complains that the public utility has unfairly used its access to information about transmission to benefit the utility or its affiliate (for Standards of Conduct waivers).³⁰

23. Based on the statements in Beethoven Wind's application, we find that its interconnection facilities qualify as limited and discrete. Beethoven Wind will use the facilities solely to interconnect the Facility to the NorthWestern transmission system. Accordingly, we will grant Beethoven Wind waiver of the requirements of Order Nos. 888 and 890 and section 35.28 of the Commission's regulations to have an OATT on file with respect to the interconnection facilities. However, if Beethoven Wind receives a request for transmission service, it must file with the Commission a *pro forma* OATT within 60 days of the date of the request.³¹

24. The Commission will also grant Beethoven Wind waiver of the requirements of Order No. 889 and Part 37 of the Commission's regulations with respect to OASIS and Order Nos. 889, 2004, and 717 with respect to Standards of Conduct. We note that Beethoven Wind's waiver of the requirement to establish an OASIS will remain in effect until the Commission takes action in response to a complaint to the Commission that an entity evaluating its transmission needs could not get the information necessary to complete its evaluation.³² Likewise, Beethoven Wind's waiver of the Standards of Conduct will remain in effect unless and until the Commission takes action on a complaint by an entity that Beethoven Wind has unfairly used its access to information to unfairly benefit itself or its affiliates.³³

2. Other Waivers and Authorizations

25. Beethoven Wind also requests the following waivers and authorizations: (1) waiver of the filing requirements of subparts B and C of Part 35 of the Commission's regulations, except sections 35.12(a), 35.13(b), 35.15, and 35.16; (2) waiver of the accounting and other requirements of Parts 41, 101, and 141 of the Commission's regulations, except sections 141.14 and 141.15; and (3) blanket approval under section 204 of the FPA³⁴ and Part 34 of the Commission's regulations for all future issuances of securities and assumptions of liability.

26. The Commission will grant the requested waivers and authorizations consistent with those granted to other entities with market-based rate authorizations.³⁵ Notwithstanding the waiver of the accounting and reporting requirements, the Commission expects Beethoven Wind to keep its accounting records in accordance with generally accepted accounting principles.

in Facts Underlying Waiver of Order No. 889 and Part 358 of the Commission's Regulations, 127 FERC ¶ 61,141, at P 5 (2009).

³⁴ 16 U.S.C. § 824c (2012).

³⁵ We note that the Commission has examined and approved the continued applicability of the waiver of its accounting and reporting requirements in Parts 41, 101, and 141 of the Commission's regulations, as well as the continued applicability of the blanket authorization for the issuance of securities and the assumption of liabilities in Part 34 of the Commission's regulations. *See* Order No. 697, FERC Stats. & Regs. ¶ 31,252 at PP 984-985 (regarding waiver of Parts 41, 101, and 141) and PP 999-1000 (regarding blanket approval under Part 34). However, waiver of the provisions of Part 101 that apply to hydropower licensees is not granted with respect to licensed hydropower projects. Hydropower licensees are required to comply with the requirements of the Uniform System of Accounts pursuant to 18 C.F.R. Part 101 to the extent necessary to carry out their responsibilities under Part I of the FPA. We further note that a licensee's status as a market-based rate seller under Part II of the FPA does not exempt it from its accounting responsibilities as a licensee under Part I of the FPA. *See Seneca Gen., LLC*, 145 FERC ¶ 61,096, at P 23 n.20 (2013) (citing *Trafalgar Power Inc.*, 87 FERC ¶ 61,207, at 61,798 (1999) (noting that "all licensees are required to comply with the requirements of the Uniform System of Accounts to the extent necessary to carry out their responsibilities under [s]ections 4(b), 10(d) and 14 of the FPA")).

C. Reporting Requirements

27. An entity with market-based rate authorization must file an Electric Quarterly Report (EQR) with the Commission, consistent with Order Nos. 2001³⁶ and 768,³⁷ to fulfill its responsibility under section 205(c) of the FPA³⁸ to have rates on file in a convenient form and place.³⁹ Beethoven Wind must file EQRs electronically with the Commission consistent with the procedures set forth in Order No. 770.⁴⁰ Failure to timely and accurately file an EQR is a violation of the Commission's regulations for which Beethoven Wind may be subject to refund, civil penalties, and/or revocation of market-based rate authority.⁴¹

⁴⁰ Order No. 770, FERC Stats. & Regs. ¶ 31,338.

⁴¹ The exact filing dates for these reports are prescribed in 18 C.F.R. § 35.10b (2014). Forfeiture of market-based rate authority may require a new application for market-based rate authority if the applicant wishes to resume making sales at market-based rates.

28. Additionally, Beethoven Wind must timely report to the Commission any change in status that would reflect a departure from the characteristics the Commission relied upon in granting market-based rate authority.⁴²

29. In Order No. 697, the Commission created two categories of sellers.⁴³ Category 1 sellers are not required to file regularly scheduled updated market power analyses. Category 1 sellers are wholesale power marketers and wholesale power producers that own or control 500 MW or less of generation in aggregate per region; that do not own, operate, or control transmission facilities other than limited equipment necessary to connect individual generation facilities to the transmission grid (or have been granted waiver of the requirements of Order No. 888); that are not affiliated with anyone that owns, operates, or controls transmission facilities in the same region as the seller's generation assets; that are not affiliated with a franchised public utility in the same region as the seller's generation assets; and that do not raise other vertical market power issues.⁴⁴ Sellers that do not fall into Category 1 are designated as Category 2 sellers and are required to file updated market power analyses.⁴⁵

30. Beethoven Wind requests Category 1 Seller status in all regions. Beethoven Wind represents that it satisfies the criteria for Category 1 Seller status because it and its affiliates currently do not own, operate, or control more than 500 MW of generation capacity in any region. Beethoven Wind also states that neither it nor any of its affiliates own or control transmission facilities in any region other than limited facilities required to connect individual generation facilities to the transmission grid. Beethoven Wind states that it is not affiliated with a franchised public utility and that it does not present any other vertical market power concerns.

31. Based on Beethoven Wind's representations, we designate Beethoven Wind as a Category 1 seller in all regions. The Commission reserves the right to require an updated analysis at any time for any region.⁴⁶

The Commission orders:

(A) Beethoven Wind's market-based rate tariff is hereby accepted for filing, effective February 27, 2015, as requested, as discussed in the body of this order.

(B) Beethoven Wind's request for waiver of the requirements to file an OATT, to establish and maintain an OASIS, and to comply with the Standards of Conduct is hereby granted, as discussed in the body of this order.

(C) Waiver of the provisions of Subparts B and C of Part 35 of the Commission's regulations, with the exception of sections 35.12(a), 35.13(b), 35.15, and 35.16, is hereby granted.

(D) Waiver of Part 101 of the Commission's regulations is hereby granted, with the exception that waiver of the provisions of Part 101 that apply to hydropower licensees is not granted with respect to licensed hydropower projects. Waiver of Parts 41 and 141 of the Commission's regulations is hereby granted, with the exception of sections 141.14 and 141.15.

(E) Blanket authorization under Part 34 of the Commission's regulations for all future issuances of securities and assumptions of liability is hereby granted. Beethoven Wind is hereby authorized to issue securities and assume obligations or liabilities as guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issue or assumption is for some lawful object within the corporate purposes of Beethoven Wind, compatible with the public interest, and reasonably necessary or appropriate for such purposes.

(E) The Commission reserves the right to modify this order to require a further showing that neither the public nor private interests will be adversely affected by continued Commission approval of Beethoven Wind's issuance of securities or assumptions of liability.

(G) Beethoven Wind is hereby required to file EQRs in compliance with Order Nos. 2001 and 768. If the effective date of Beethoven Wind's market-based rate tariff

falls within a quarter of the year that has already expired, Beethoven Wind's EQRs for the expired quarter are due within 30 days of the date of this order.

By the Commission.
