**Re: Clarifications to Staff's July 14, 2015 Comments on Draft Resource Reports 1, 3 and 10**

Dear Mr. Bley:

The following are clarifications to our July 14, 2015 comments on Atlantic Coast Pipeline, LLC's (Atlantic) and Dominion Transmission Inc.'s (DTI) draft Resource Reports 1, 3, and 10 for the planned Supply Header Project (SHP) and Atlantic Coast Pipeline Project (ACP Project). Please address the revised comment numbers 10, 82, and 215 in the final Resource Reports to be filed by Atlantic and DTI. The revised text for each comment is identified in *italics*.

Revised Comments:

10. Section 1.4.1.1. Either provide justification for maintaining a *75-foot-wide* permanent right-of-way along planned the AP-1 pipeline in areas not classified as steep terrain, or commit to utilizing a 60-foot-wide permanent right-of-way.
82. Section 3.2.3. Clarify if Atlantic and DTI would utilize pesticides *and herbicides* during construction, restoration, or operation of the facilities. If planned, describe the pesticide(s) *and/or herbicide(s)* that would be applied and, when, where, and how *they* would be used.
215. Section 10.8.1.13. Analyze and confirm whether the planned *Compressor Station 3* could be relocated to approximate MP 297 of AP-2 and meet the

gas distribution needs of the project. If relocation is feasible, revise the comparison analysis to exclude the 4.2-mile section of AP-3 that would be constructed adjacent to AP-2. If relocation of *Compressor Station 3* would not meet the gas distribution needs of the project, analyze and confirm whether additional compression could be added to the planned Compressor Station 1 *and/or* Compressor Station 2 to allow relocation of *Compressor Station 3* and meet the gas distribution needs of the project.

Thank you for your cooperation. If you have any questions, please contact me at 202-502-6287.

Sincerely,

Kevin Bowman  
Environmental Project Manager  
Office of Energy Projects
