

UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

Eastern Shore Natural Gas Company

Docket No. CP15-18-000

ERRATA NOTICE

(July 21, 2015)

On July 9, 2015, the Commission issued a *Supplemental Notice of Intent to Prepare an Environmental Assessment for the Proposed White Oak Mainline Expansion Project and Request for Comments on Environmental Issues* (Supplemental Notice). The Supplemental Notice indicated that Eastern Shore Natural Gas Company's (Eastern Shore) proposed route would include two horizontal directional drill (HDD) tributary crossings of the White Clay Creek National Wild and Scenic River. This errata notice hereby clarifies that Eastern Shore determined that an HDD is not feasible at the northernmost stream crossing along the Kemblesville Loop at Station No. 33+65 in its supplemental filing on April 21, 2015. Eastern Shore is, however, proposing an HDD for the second stream crossing along the Kemblesville Loop at Station No. 88+40.

Kimberly D. Bose,  
Secretary.
