Dear Mr. Pomper:

1. On April 13, 2016, you filed, in the above-referenced proceeding, a Settlement between Indiana Municipal Power Agency (Indiana Municipal); Duke Energy Indiana, LLC; and Wabash Valley Power Association, Inc. On May 3, 2016, Commission Trial Staff filed comments in support of the Settlement. No other comments were filed. On May 18, 2016, the Settlement Judge certified the Settlement to the Commission as an uncontested settlement.¹
2. The Settlement concerns Indiana Municipal's cost-based annual revenue requirement for reactive supply service for its 24.95 percent interest in the Gibson Unit No. 5 generator.
3. The Settlement states that "[a]ny challenges raised by a third party or non-settling party or the Commission acting *sua sponte*, after the Commission has accepted or approved this [Settlement], are subject to the ordinary just and reasonable standard of review."²

¹ *Indiana Mun. Power Agency*, 155 FERC ¶ 63,016 (2016).

² Settlement, Art. IV.

4. The Settlement resolves all issues in dispute in this proceeding. The Settlement appears to be fair and reasonable and in the public interest, and is hereby approved. The Commission's approval of this Settlement does not constitute approval of, or precedent regarding, any principle or issue in this proceeding.

5. This letter order terminates Docket No. EL16-14-000.

By direction of the Commission.
