

UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

City of Escondido

Project No. 176-018- California

NOTICE OF MEETING AND SITE VISIT

(May 19, 2006)

On June 19, 2006, the Federal Energy Regulatory Commission (Commission) Staff will hold a meeting in Escondido, California to discuss the Escondido Hydroelectric Project, FERC Project No. 176. The project is licensed to the City of Escondido and is located on the San Luis Rey River in San Diego County, California. The objective of the meeting is to discuss steps for updating the environmental record and possible Commission action with respect to the pending license application. Commission Staff and the City of Escondido will also conduct a site visit of the project. The Commission encourages all interested parties to participate in this meeting and site visit.

Meeting

The meeting will be held: 8:45am-11:30am (PST)  
East Valley Community Center  
2245 East Valley Parkway  
Escondido, CA 92027

Site Visit

The site visit will begin at the East Valley Community Center at 12:30 pm and return at approximately 6:30 pm. Car pooling is encouraged as much as possible. Participants may be required to provide their own transportation.

Due to the logistics involved in traveling to site locations, there is a need to know the number of attendees in advance. All individuals planning to attend, need to call or email Ann-Ariel Vecchio, FERC Team Leader, at (202) 502-6351 or [ann-ariel.vecchio@ferc.gov](mailto:ann-ariel.vecchio@ferc.gov), no later than **June 9, 2006**.

Magalie R. Salas
