

**Federal Energy Regulatory Commission  
June 16, 2006  
Open Commission Meeting  
Statement of  
Chairman Joseph T. Kelliher**

**Wireless Broadband Access at FERC Headquarters**

"FERC announces that wireless broadband internet service is now available on the 2<sup>nd</sup> floor hearing rooms and Commission Meeting Room. At this time, high speed internet services are accessible through Verizon, Sprint, T-Mobile, and Velocita cellular providers. Nextel will be available by the end of June and Cingular will be available by mid-July. This access is provided independent of FERC and is controlled by the respective cellular providers. The use of this service will require the purchase of a wireless air card and data service plan from one of the aforementioned vendors. If you would like further information on establishing a service agreement, or have questions on an existing account, please contact the vendors directly."
