

FERC Order 890

SMUD's Strawman Outline for Coordinated, Open, and Transparent Transmission Planning

Presented by
Vicken Kasarjian
Phoenix, Arizona
June 26, 2007

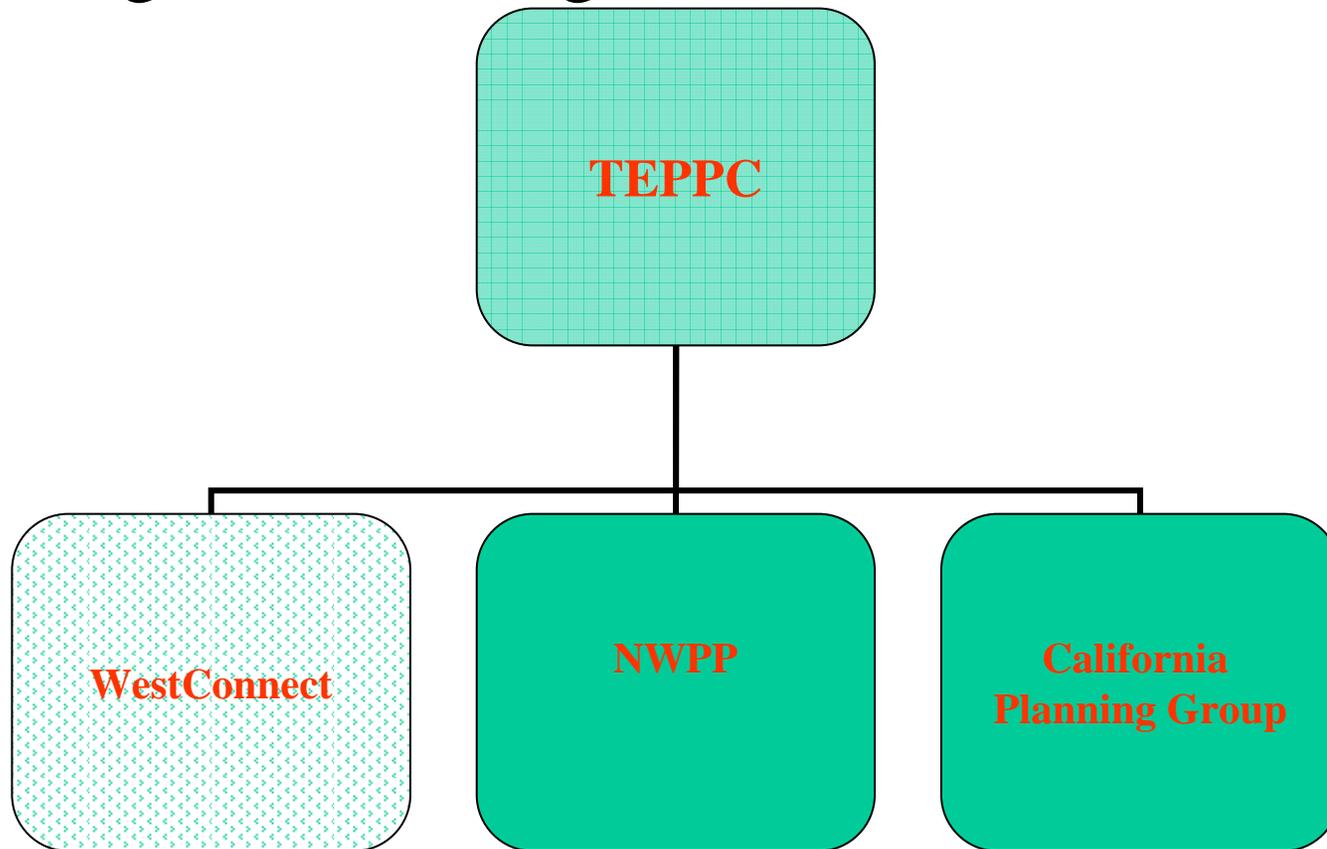

SMUD's participation in the Open & Transparent WECC Integrated Regional Planning/Operating Forums

- Planning Coordination Committee
- Technical Studies Subcommittee
- System Review Work Group
- Reliability Subcommittee
- Operating Committee
- Joint Guidance Committee
- Compliance Monitoring & Operating Practices
- Operating Transfer Capability Policy Committee
- Transmission Expansion Planning Policy Committee

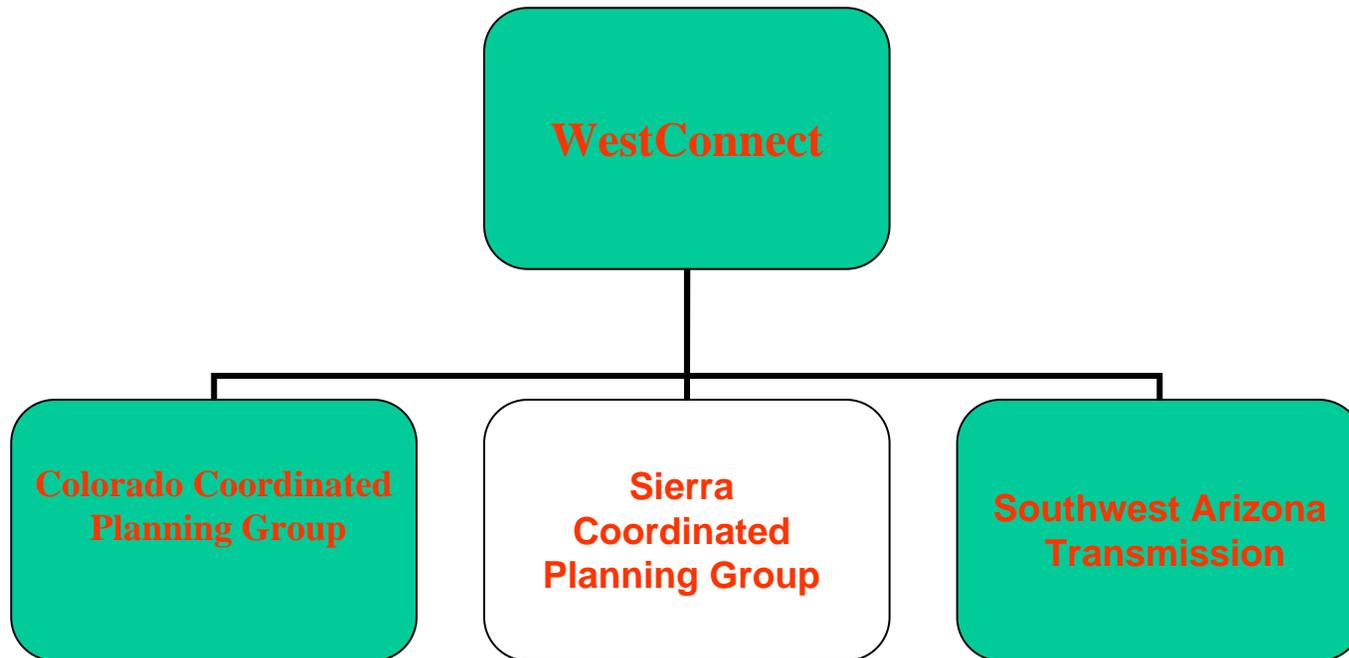

Provide SMUD with opportunities to incorporate stakeholder input and plan system expansions through coordinated efforts.

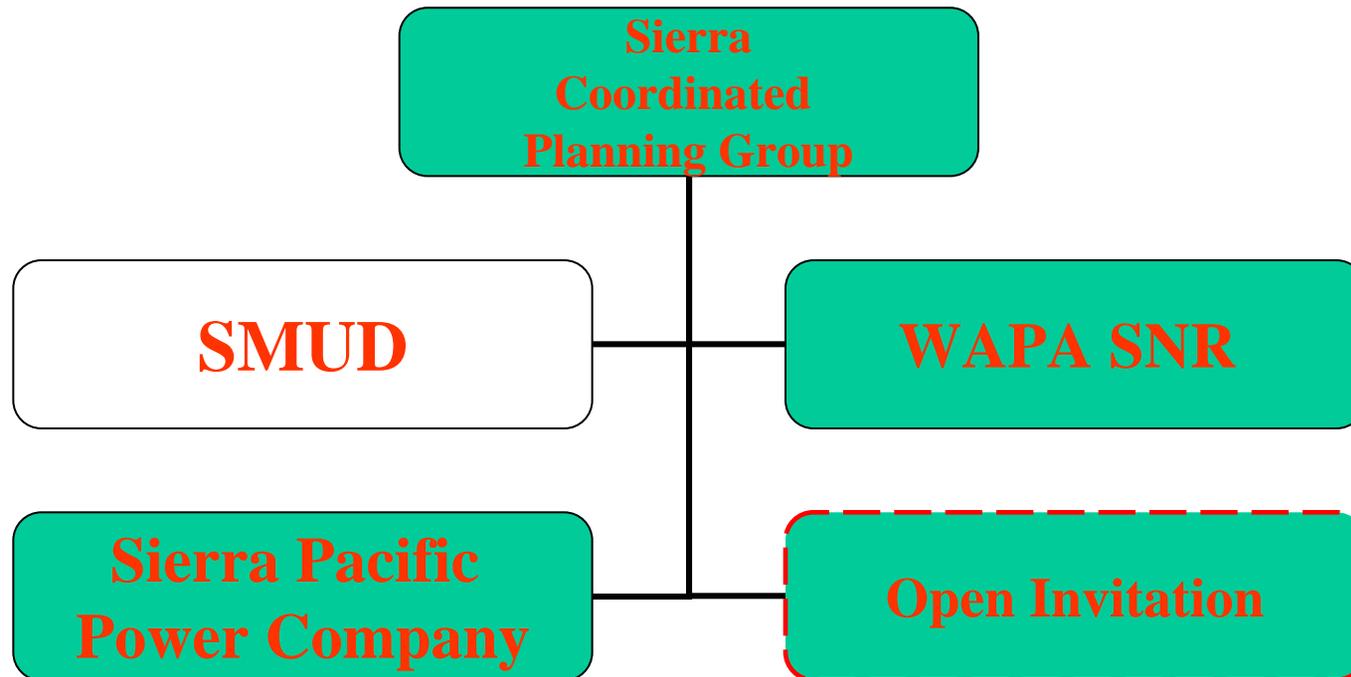

SMUD's participation in WECC's Western Interconnection Regional-Subregional Coordination:

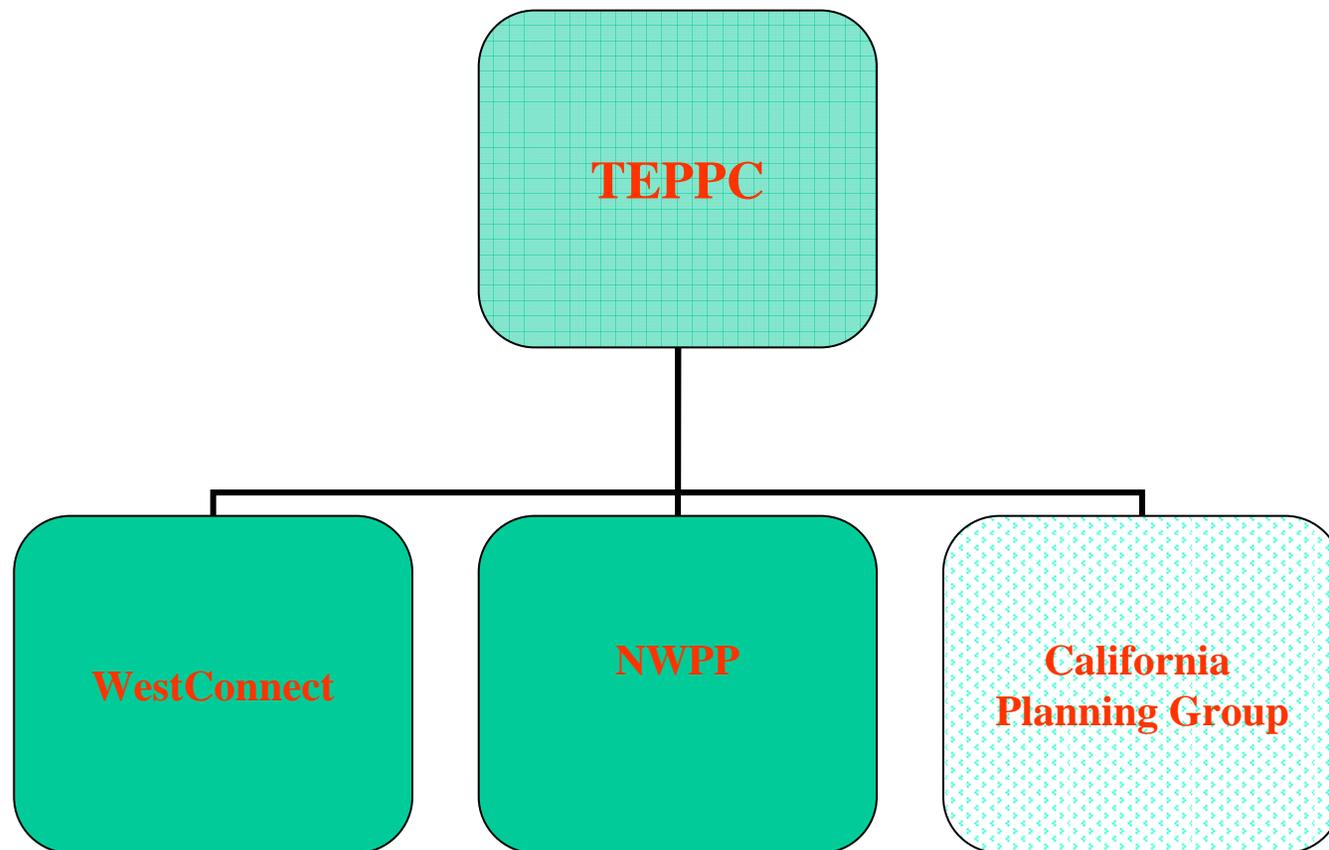

SMUD's WestConnect Sub-Regional Coordination Activities

SMUD's role in the WestConnect Sub-Regional Coordination for an Open & Transparent Planning Process

SMUD is participating in the formation of the California Sub-Regional Planning Group

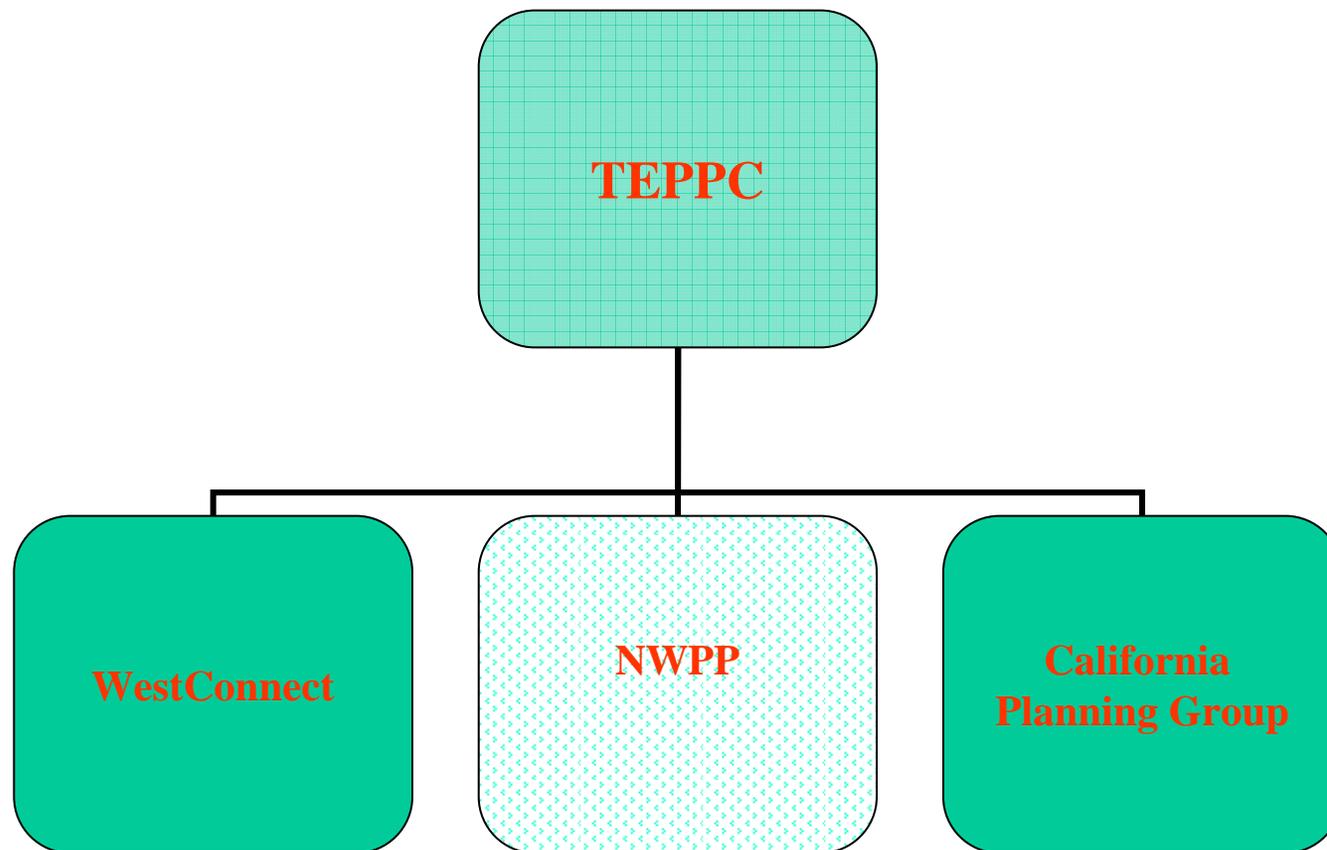

SMUD participates in the Open Project-Specific Local Planning Forums:

- Sacramento Valley Study Group
SMUD, Western, City of Roseville, MID, TID, TANC, CAISO and PG&E
- NorCalVada Strategic Planning Group
SMUD, Lassen, TANC and Sierra Pacific Power
- Transmission Agency Northern California
- Northern California Integration of Renewables
- Canada/Northwest-Northern California
PG&E-led Regional Planning: Three-Phase Rating Process

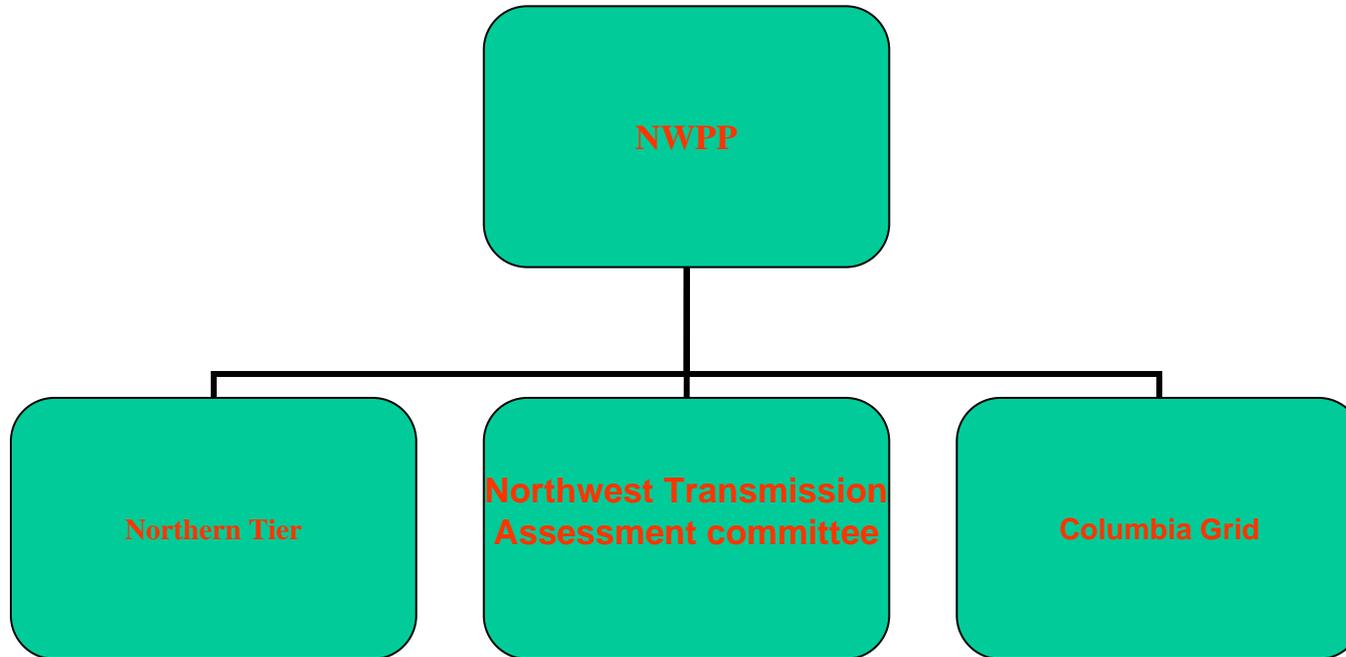

Each group ensures efficient, effective and coordinated use & expansion of the Western transmission system.

SMUD also participates in NWPP open forums for Subregional Coordination activities:

Northwest PowerPool Regional Planning

SMUD, as a member of the NWPP, will synchronize with the appropriate entities to ensure efficient, effective and coordinated use or expansion of the transmission system.
