NOTICE OF SCOPING MEETINGS  
AND SITE VISITS AND SOLICITING SCOPING COMMENTS

(March 27, 2009)

- a. The Federal Energy Regulatory Commission (Commission) is currently reviewing the Pre-Application Document submitted by Free Flow Power Corporation on behalf of itself and six subsidiary limited liability corporations (henceforth collectively identified as “Free Flow Power”) for the licensing of hydrokinetic energy projects in the Mississippi River. The proposed projects are Greenville Bend (P-12829), Scotlandville Bend (P-12861), Kempe Bend (P-12921), Ashley Point (P-12930), Hope Field Point (P-12938), Flora Creek Light (P-12915), and McKinley Crossing (P-12912) Hydrokinetic Projects (collectively identified as the “Lead Projects”). On March 16, 2009, we noticed a scoping document for these seven sites. In that notice, we stated, “We will announce additional scoping meetings at locations near the proposed Lead Projects and site visits at a later date.” Here we provide that additional information.

b. Scoping Meetings

As previously noticed, Commission staff will hold two initial scoping meetings in Vicksburg, MS. Commission staff also will hold eight additional meetings in the vicinity of the projects at the times and places noted below. The daytime meetings will focus on resource agency, Indian tribes, and non-governmental organization concerns, while the evening meetings are primarily for receiving input from the public. We invite all interested individuals, organizations, and agencies to attend

one or all of the meetings, and to assist staff in identifying particular study needs, as well as the scope of environmental issues to be addressed in the environmental document. The times and locations of these meetings are as follows:

Meeting participants should come prepared to discuss their issues and/or concerns. Please review Free Flow Power's pre-application document (PAD) and the Commission's Scoping Document 1 (SD1) in preparation for the scoping meetings. Our "Notice of Intent To File License Application, Filing of Pre-Application Document, Commencement of Licensing Proceeding, and Scoping, [etc.]," issued with SD1 on March 16, 2009, describes the meeting objectives and procedures. Copies of that notice, the PAD, and SD1 may be viewed on the web at <http://www.ferc.gov>, using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at [FERCONlineSupport@ferc.gov](mailto:FERCONlineSupport@ferc.gov) or toll free at 1-866-208-3676, or for TTY, (202) 502-8659.

Any individual or entity interested in submitting study requests, commenting on the PAD or SD1, and any agency requesting cooperating status must do so by **May 15, 2009**.
