MONTHLY RESERVATION RATES	Apr-Oct	Nov-Mar
Base Tariff Rates 1/	\$4.567	\$8.221

COMMODITY RATES 2/3/		Field Mileage Rate per 100 miles	
Receipt Point	Delivery Point	Maximum	Minimum
Field	Field	0.009	0.004

- 1/ Base tariff rates exclude GRI Demand Fee of \$0.066 for high-load factor shippers and \$0.0407 for low-load factors shippers; minimum reservation rate is equal to zero.
- 2/ The applicable Mileage Indicator Districts (MIDs) billing rate and/or gathering commodity rate will be added to the TF rates for volumes received in the Field Area, or received in the Market Area and delivered to the Field Area. The MIDs rates shown on Sheet Nos. 59-60 represent the total maximum Field Area throughput commodity rates for any transaction involving MIDs.
- 3/ Surcharges including Field Area Electric Compression Surcharge of \$0.0000, ACA of \$0.0021, GRI of \$0.0055 not applied on mileage basis; added to maximum rates after mileage has been considered.

Seventh Revised Sheet No. 1E Seventh Revised Sheet No. 1E : Effective
Superseding: Substitute Sixth Revised Sheet No. 1E

GENERAL TERMS AND CONDITIONS

1. Rate Adjustment to Reflect Changes in Gas Purchased Costs.
(Continued).

1.2 Definitions. (Continued)

(d) Total System Sales - the sum of all Volume 1 tariff firm sales and Volume 2 tariff sales on Northern's system including the ethane and shrinkage sales to Enron Gas Products Company at Bushton, Kansas. All sales will be determined on a 1,000 Btu equivalent basis.

(e) Monthly Deferrals - each month, Account 191 shall be debited (underrecovery) or credited (overrecovery) with an amount equal to the difference between the total gas purchased costs incurred each month and the total gas purchase expense recovered through sales revenue. Total commodity gas purchased costs will be adjusted to reflect storage activity, nonconcurrent exchange activity, gas used in construction, the effect of concurrent exchange activity and the cost of ethane and/or ethane mixtures (E/P mix) injected into its system supply as purchased gas costs.

The demand and commodity amount deferred into account 191 each month shall be adjusted by the exit fee assessed on any abandonment of firm sales entitlement as set forth in Section 1.7 of the tariff.

(f) Current Adjustment - is the current weighted average projected purchased gas costs (as reflected in the current PGA rate) less the weighted average projected purchased gas costs reflected in the effective period of the previous scheduled PGA. The cumulative adjustment is the current weighted average projected purchased gas costs (as reflected in the current PGA) less the base tariff rate as defined above in Section 18.2(c).

1.3 Frequency of Change in Base Average Gas Purchased Cost.

(a) Northern's Base Average Gas Purchased Cost will be adjusted on a quarterly basis according to the following schedule:

Eleventh Revised Sheet No. 1A.2 Eleventh Revised Sheet No. 1A.2 : Effective
Superseding: Tenth Revised Sheet No. 1A.2

Sheet No. 1A.2 is Reserved for Future Use

GENERAL TERMS AND CONDITIONS

1. Rate Adjustment to Reflect Changes in Gas Purchased Costs (Continued)

(4) Prior Deferral Amount - Any unamortized balance, either positive or negative, remaining in Account 191 after the respective amortization period will be transferred into the current deferral period to be included in the next surcharge adjustment.

(b) Each month, Northern shall amortize the prior twelve-month deferrals by an amount equal to the total monthly system sales multiplied by the surcharge adjustment rate.

1.6 Direct Bill of Account 191 Upon Termination or Suspension of the PGA

(a) Upon Northern's determination to terminate or suspend the Purchase Gas Cost Adjustment as defined in Section 18 above, and with the specific advance approval of the Commission, Northern shall, based upon the current period over (under) recovery balance which are booked from July 1, 1991 forward in each 191 subaccount, invoice its sales customers for any amounts due to Northern or shall issue a check for any amounts owed its sales customers. Such 191 subaccount shall not be adjusted by any prior period surcharge/refund amounts. For purposes of this Section 18.6, "sales customers" shall mean any firm sales customer of Northern during the immediate three-year period prior to the termination or suspension of the PGA, or from July 1, 1991, whichever is sooner. This definition includes any sales customer who has fully converted their sales entitlement to transportation entitlement within the same three-year period described above.

(1) The balance in each subaccount shall consist of the cumulative balance accumulated from July 1, 1991 for the demand portion and the commodity portion of the PGA Account 191 balances. The balance in each subaccount shall be determined at the end of a six-month period following termination or suspension, taking into account all billing adjustments and other amounts which are known and measurable at the conclusion of the six-month period. However, if Northern receives a refund, as defined in Section 6(e)(1)(iv) of Subpart B of the General Terms and Conditions of Northern's Volume No. 1 Tariff, which is related to the period prior to the date of termination or suspension of the PGA, related to the cost of servicing former sales customers, such refund will be flowed through to the former sales customers regardless of when Northern receives such refund.

(2) Each sales customer's share of the Account 191 balance shall be equal to the sum of the demand and commodity amounts, calculated as follows:

(a) Demand Amount. The ratio of the annual average firm sales entitlement for that customer for the previous three (3) years prior to termination or suspension or from July 1, 1991, whichever is sooner to the total annual average firm sales entitlement for the previous three (3) years prior to termination or suspension or from July 1, 1991, whichever is sooner. This ratio will then be applied to the Account 191 demand subaccount, to determine the total demand invoice or refund amount owed per Section 1.6

Effective Date: 12/13/1992 Status: Effective
FERC Docket: RP91-181-005

Second Revised Sheet No. 1I.2A Second Revised Sheet No. 1I.2A : Effective
Superseding: First Revised Sheet No. 1I.2a

GENERAL TERMS AND CONDITIONS

(b) Commodity Amount. The ratio of the annual average actual firm sales volume for the customer for the previous three (3) years prior to termination or suspension or from July 1, 1991, whichever is sooner to the total annual average actual firm sales volume for the previous three (3) years prior to termination or suspension or from July 1, 1991, whichever is sooner. This ratio will then be applied to the Account 191 commodity subaccount, to determine the total commodity invoice or refund amount owed per Section 1.6

(3) Within thirty (30) days after the conclusion of the six-month period, Northern shall issue an invoice for any amounts due or shall issue a check for any amounts owed, except as provided in 1.6(a)(1) above.

1.7 Account No. 191 Exit Fee

An exit fee will be assessed to any abandonment of firm sales entitlement as a result of termination, reduction or conversion. Such exit fee shall be based on the customer's percent of reduction applied to the balance accumulated from July 1, 1991 forward in each 191 subaccount, to be determined as follows:

- (1) The balance in each subaccount shall consist of the cumulative current period balance accumulated from July 1, 1991 forward for the demand portion and the commodity portion of the PGA Account 191 balances as of the month-end when the customer's termination, reduction or conversion is effective. Such 191 subaccounts shall not be adjusted by any prior period surcharge/refund amounts. The month-end Account 191 balances shall be determined no later than a six-month period following termination, reduction or conversion, taking into account any billing adjustments and other amounts which are known and measurable. However, if Northern receives a refund, as defined in Section 6(e)(1)(iv) of Subpart B of the General Terms and Conditions of Northern's Volume No. 1 Tariff, which is related to the period prior to the date of suspension or termination of the PGA, related to the cost of servicing customers, such refund will be flowed through to the customer regardless of when Northern receives such refund.
- (2) Each reducing customer's share of the Account 191 balance shall be equal to the sum of the demand and commodity amounts, calculated as follows:
 - (a) Demand Amount. The ratio of the annual firm sales entitlement abandoned for that customer, to the total annual average firm sales entitlement for all customers for the year prior to termination, reduction or conversion. This ratio will then be applied to the Account 191 demand subaccount, to determine the demand exit fee amount owed or to be refunded.
 - (b) Commodity Amount. The ratio of the sales commodity abandoned (daily entitlement multiplied by the number of days in effect during the year) for that customer, not to exceed the prior year's total firm sales quantity, to the total annual average actual firm sales volume for all customers for the year prior to termination reduction or conversion. This ratio will then be applied to the Account 191 commodity subaccount to determine the commodity exit fee amount owed or to be refunded.
- (3) No later than thirty (30) days after the conclusion of the six-month period, Northern shall issue an invoice for any amounts due or shall issue a check for any amounts owed, except as provided in 1.7(1) above.
