

BS-21

SIGN:

Caution Lake Dam Could Possibly be Spilling Lake is Rising Be Careful

COMMENT:

Temporary signs may be less effective than portable signs designed for short term events.

RECOMMENDATION:

Projects with special events should assess the need for effective PORTABLE signage. Consider use of permanent sign with removable cover.

BS-22

SIGN:

Unreadable

COMMENT:

Paper or laminated signs will fade and become water damaged over even short periods of time.

RECOMMENDATION:

Replace with a permanent sign or remove sign if the danger was temporary. A well maintained sign indicates a higher level of care, and enforcement to the viewer.
