

Location: Feature No. is located on the chain link fencing on the right abutment.

Feature Description: Feature No. is a warning sign, twenty-four (24) inches wide by eighteen (18) inches high and made of aluminum. The sign is attached to the chain link fencing and is elevated approximately five (5) feet above the ground. The signage is composed of red and black lettering over a white background.

Notes:

SIGN:

Danger Automatically Operated Equipment

COMMENT:

Good placement and trigger word use. Example of safety plan sign design/ placement sheet. Sheets list the feature #, # of signs, year installed, location, and design details. Notes indicate sign and font sizing.

RECOMMENDATION:

None.

G-15

SIGN:

Warning Lake Bottom Drops Off Steeply Deep Water

COMMENT:

Three features increase swimmer safety. Buoys and docks exclude boats from swimming area, and signage informs users of potential danger.

RECOMMENDATION:

None.
