Federal Energy Regulatory Commission
February 2011

Special Report:

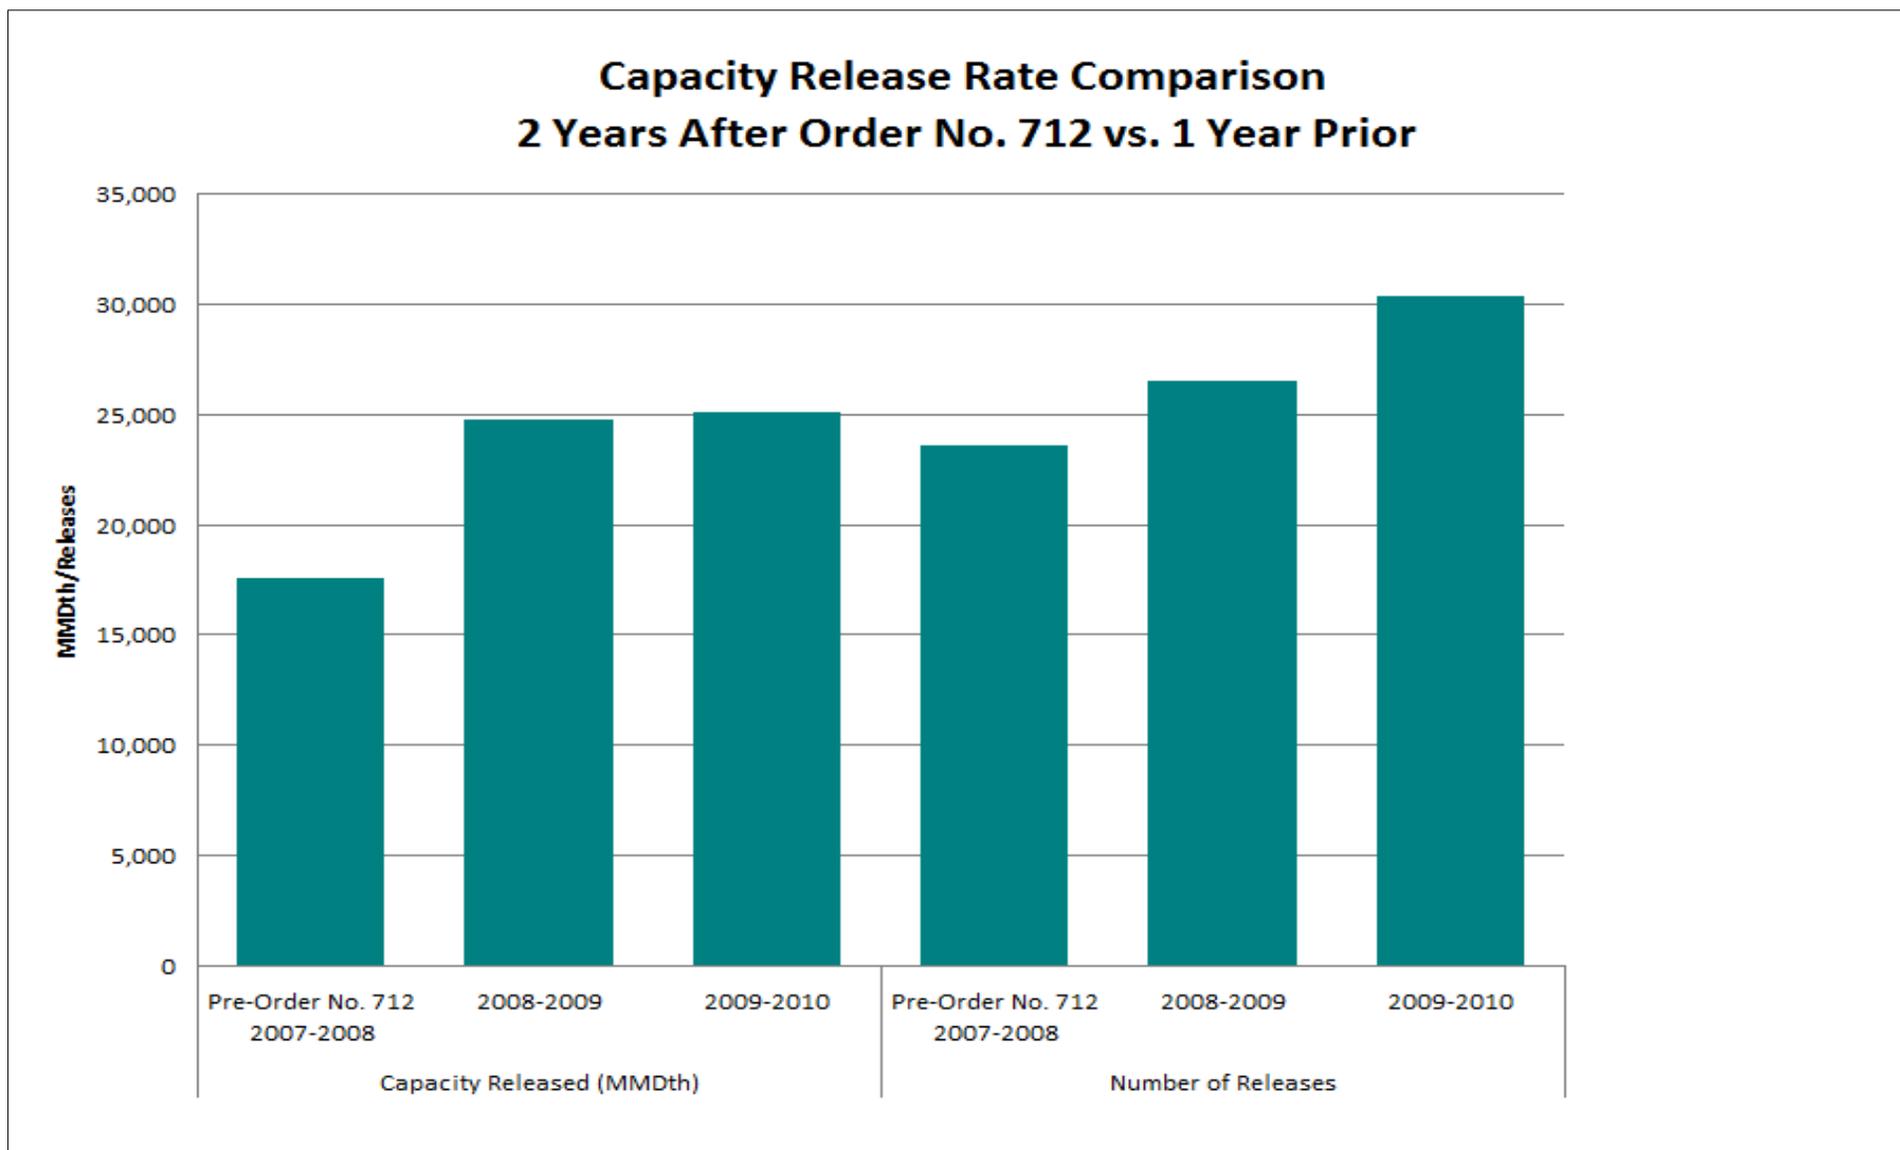

- **Natural Gas Capacity Release Report**

Introduction

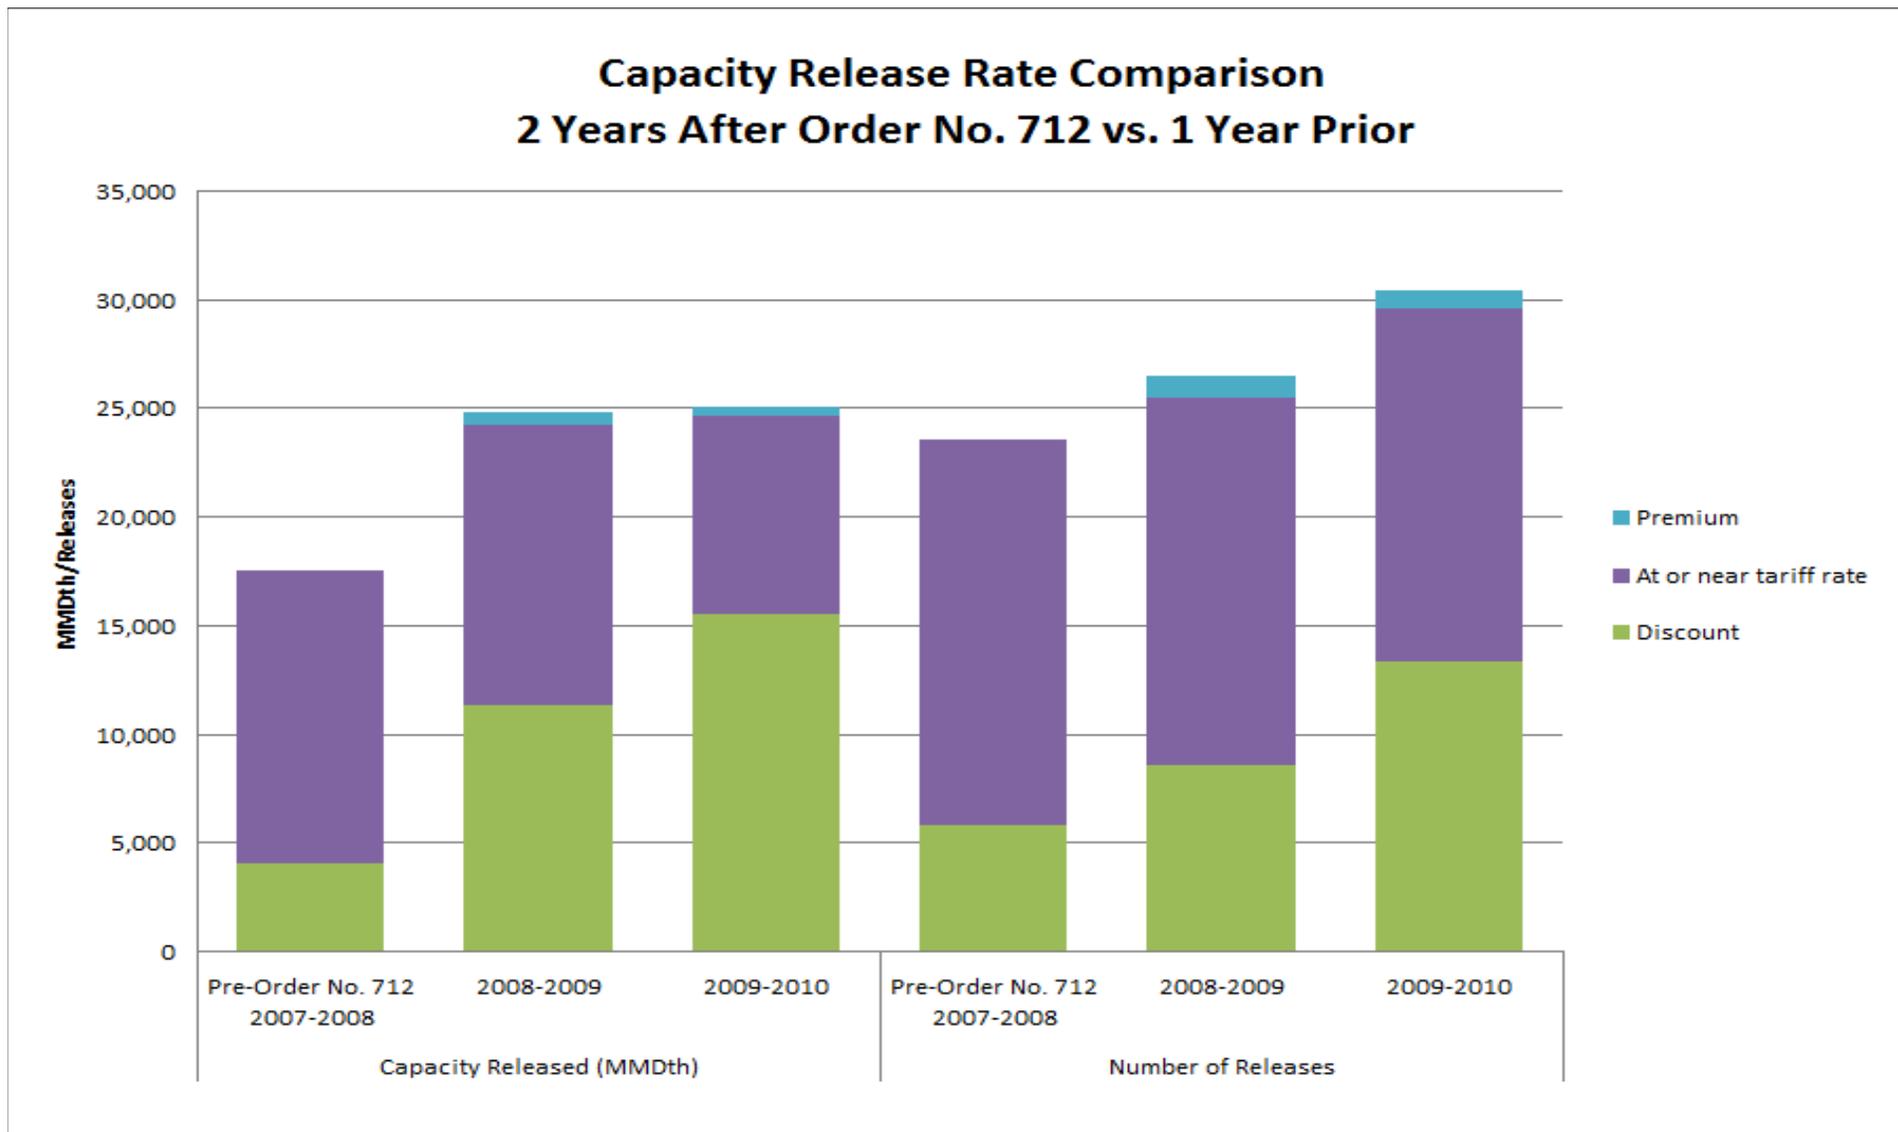

- On June 19, 2008, FERC issued Order No. 712, which removed the price cap on short-term (less than one year) capacity releases on interstate natural gas pipelines.
- In the order, the Commission directed “staff to monitor the capacity release program and, using all available information, issue a report on the general performance of the capacity release program, within six months after two years of experience under the new rules”.
- On 1/31/2011, the Commission issued a Staff Report on Capacity Release. To view the document for this Issuance, click here

Oil, Coal, Natural Gas and Propane Daily Spot Prices

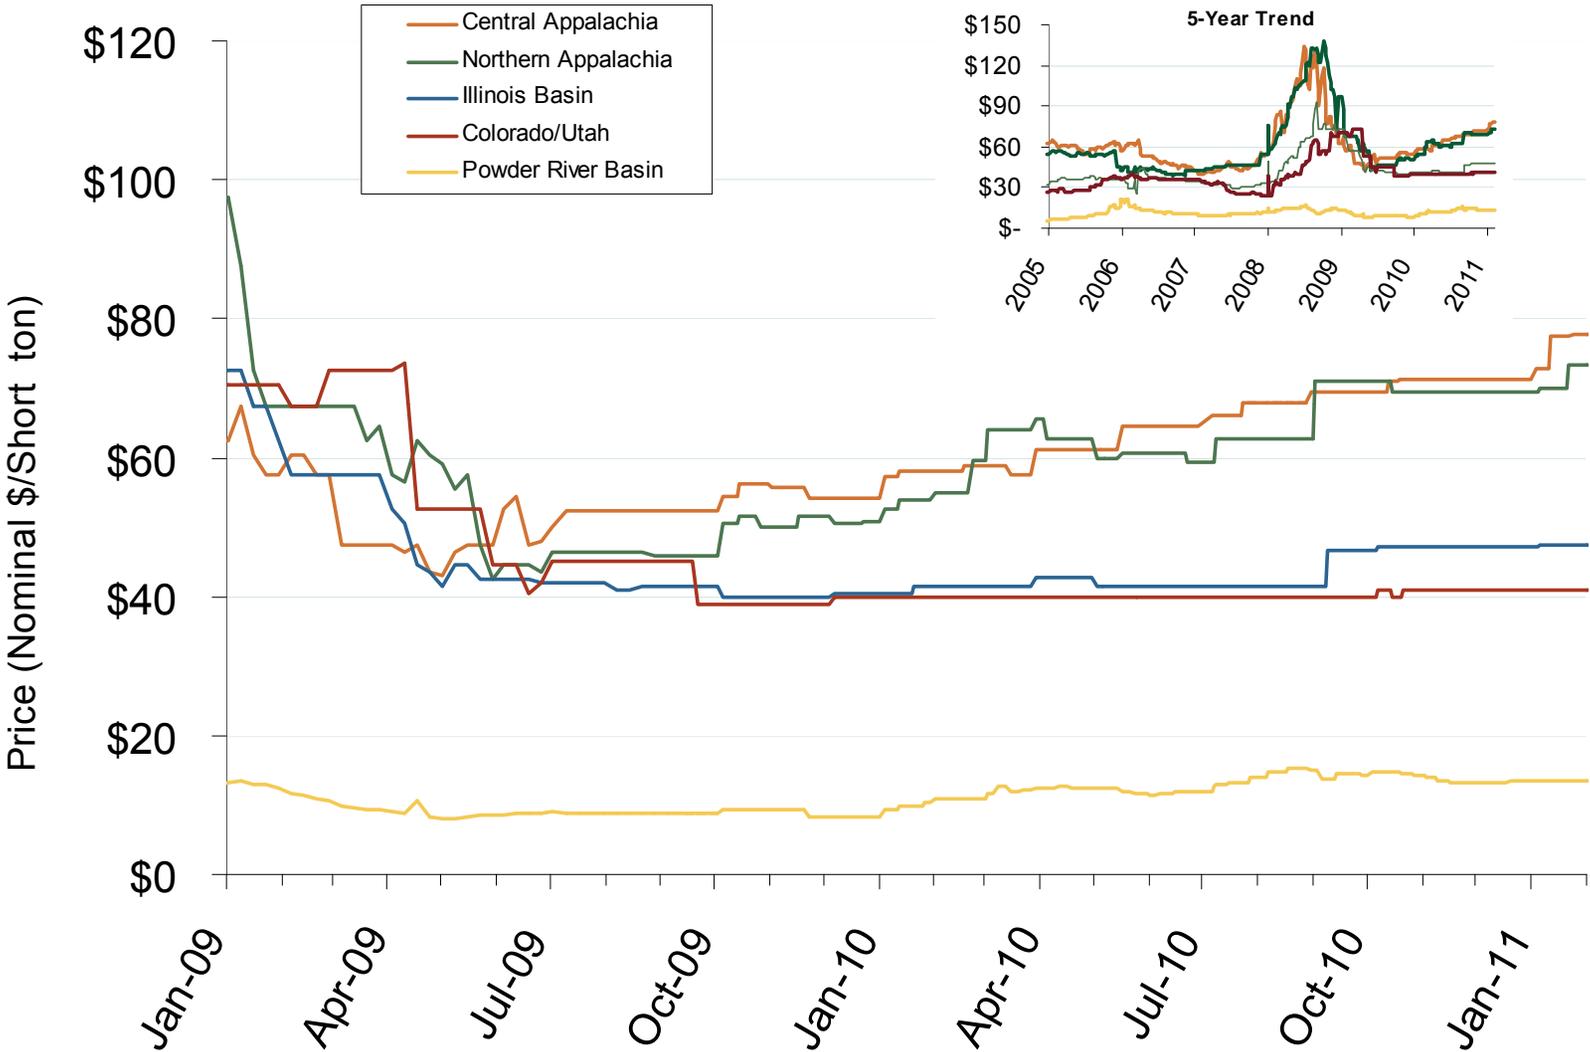

Source: Derived from ICE and Bloomberg data.

Note: Coal prices are quoted in \$/ton. Conversion factors to \$/MMBtu are based on contract specifications of 12,000 btus/pound for Central Appalachian coal and 8800 btus/pound for Powder River Basin coal.

Updated: February 07, 2011

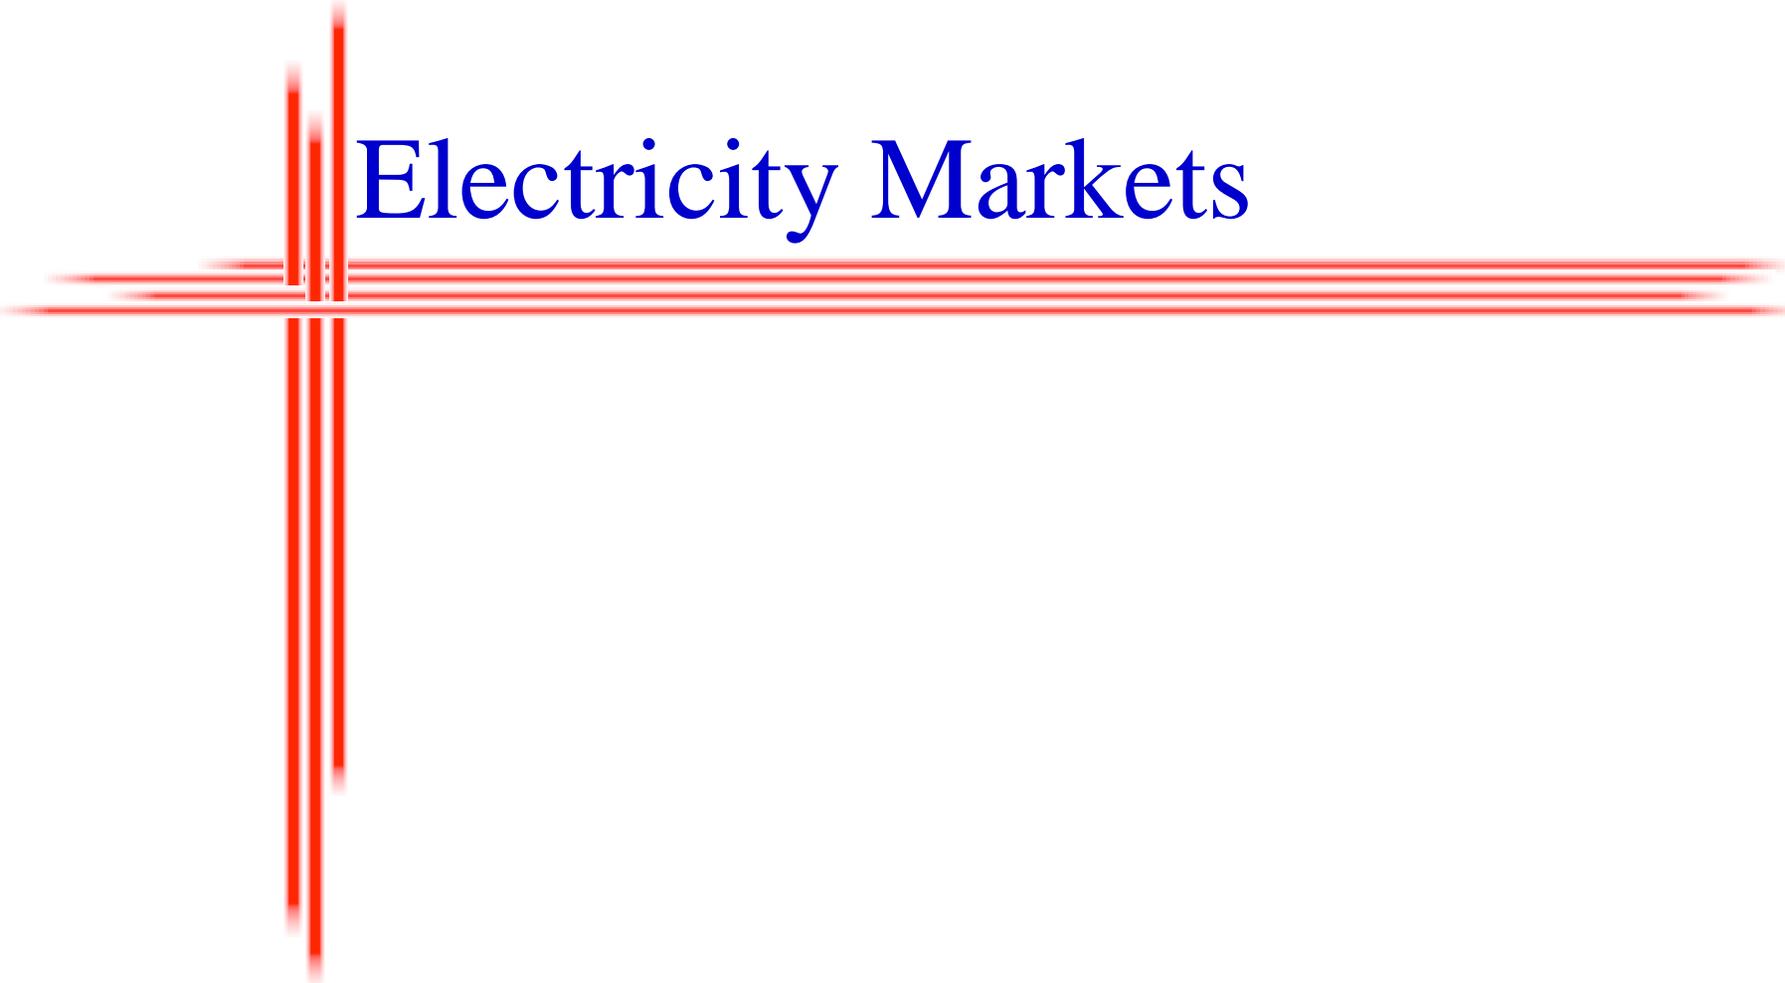

Regional Coal Spot Prices

Note: the Central Appalachian (CAPP) coal is priced at Big Sandy. All others are mine mouth prices. Prices do not include transportation costs to a plant, as those can vary widely by contract specifications. Prices exclude incremental cost of emissions allowances.
