

Pages	Section	Description of Changes
1	1-1	Modified section to highlight what is in Chapter 1.
1	1-1.1	Referenced current sections of Code of Federal Regulations applicable to FERC.
2	1-1.2	Referenced FERC Engineering Guidelines instead of Operating Manual.
2-5	1-2 1-2.1 1-2.2 1-2.3	Replaced Hazard Potential Classification discussion to be consistent with FEMA 333 - Federal Guidelines for Dam Safety: Hazard Potential Classifications System for Dams.
5-7	1-3 1-3.1 1-3.2 1-3.3 1-3.4	Replaced the discussion on how FERC staff performs internal reviews of engineering analyses with an explanation of what engineering analyses and plans are typically required during the life of a project.
8	1-4.2	Slightly modified explanation that any analysis with deviations from the Engineering Guidelines should be justified in writing.
8	1-5	Added Engineering Guidelines and FEMA 333 as references. Deleted the reference to Operating Manual.
