

**Interstate Natural Gas Pipeline Delivery Capacity to California**  
 (MMcf/d)

Line No.	Pipeline	2008	2008
		Capacity	Capacity
	(a)	(b)	w/North Baja
			(c)
1	Gas Transmission Northwest (GTN)	2,150	2,150
2	El Paso Natural Gas (EPNG)	3,840	3,840
3	Transwestern (TW)	1,210	1,210
4	Kern River	1,750	1,750
5	Southern Trails	80	80
6	North Baja		614*
7	<b>TOTAL</b>	<b>9,030</b>	<b>9,644</b>

\*Transcanada completed the installation of facilities to receive up to 614 MMcf/d from Mexico in April, 2008

Source:

California Energy Commission, Natural Gas and Special Projects Office up to 2003 Capacity then EPNG for 2005, 2008 Capacity Totals

Notes:

- (1) EPNG capacity adjusted to include 400 MMcf/d to DMOJAVE
- (2) There are several proposed expansions and/or open seasons for additional pipeline capacity to California:
  - Kern River - 145 MMcf/d
  - El Paso (Ruby) - 1.2 Bcf/d
  - Spectra (Bronco) - 1.0 Bcf/d
