Gas vs Coal

The graph compares the natural gas trading prices with coal prices from August 2012 to August 2014. The prices are shown in US dollars per million British thermal units ($/MMBtu). The data is derived from Bloomberg data.

- **Nymex Henry Hub**
- **Central App Coal**
- **WTI Crude Oil**

The graph shows that natural gas prices have fluctuated over the period, with periods of stability and volatility. Coal prices also show similar fluctuations. The converted oil price is shown on the far right side of the graph, indicating the conversion from natural gas to oil prices.
