Interstate Commerce Act
The Hepburn Act of 1906 (34 Stat. 589) began the regulation of interstate oil pipelines, making them common carriers and subject to rate regulation. The Act was an amendment to the existing Interstate Commerce Act (ICA) which, until 1906, had focused primarily on railroad and telegraph company regulation. The responsibility for regulating oil pipeline rates remained with the Interstate Commerce Commission (ICC) from 1906 until 1977 when the Department of Energy Organization Act was enacted. (42 U.S.C. § 7101 et seq. (1988)). Pursuant to that Act, jurisdiction over oil pipeline rates was transferred from the ICC to the new Department of Energy and then to the Federal Energy Regulatory Commission (FERC). (42 U.S.C. §§ 7155, 7172(b) (1988)).

The ICA, as it exists today, and as it applies to other forms of transportation currently regulated by the ICC, is not the Act that applies to oil pipelines. Rather, regulation of oil pipelines is governed by the version of the ICA as it stood on the date of enactment of the Department of Energy Organization Act. In 1978, the ICA was partially repealed and recodified. However, Public Law No. 95-473, § 4(c); 92 Stat. 1466-1470 (1978) provides that those portions of the old ICA that were repealed and recodified in 1978, nevertheless remain in effect as they existed on October 1, 1977, to the extent that these laws relate to the movement of oil by pipeline and the rates and charges related thereto. Thus, the ICA relating to oil pipeline regulation is found as an appendix to Title 49 of the United States Code and is cited accordingly.

The ICA as it existed on October 1, 1977 applies to the regulation of rates and charges of common carriers engaged in the transportation of oil or other commodities except water and natural or artificial gas. All charges made for any service for the transportation of oil or oil products shall be just and reasonable. (49 App. U.S.C. § 1(5)(a) (1988)).

Section 6 of the ICA governs the filing of tariffs. (49 App. U.S.C. § 6(1) (1988)). No change in rates or terms of service can be made to any previously filed rate without a 30-day notice to the public and the FERC. (49 App. U.S.C. § 6(3) (1988)). The FERC's authority to investigate the lawfulness of an oil pipeline's rates and practices and to prescribe changes is derived from Sections 13 and 15 of the ICA. (49 App. U.S.C. §§ 13 and 15 (1988)). Specifically, Section 15(7) of the ICA gives the FERC authority, upon complaint or upon its own motion, to suspend a filing for up to seven (7) months and set a hearing concerning its lawfulness. (49 App. U.S.C. § 15(7) (1988)). At the end of the suspension period, the proposed tariff can go into effect, subject to refund, with interest until a final agency determination.

If a proposed rate has been filed and allowed by the FERC to go into effect without suspension and hearing, the Commission can investigate the effective rate on its own motion or by complaint filed with the Commission. (49 App. U.S.C. § 13(1) (1988)). Based on such investigation, the Commission can set a new just and reasonable rate and award reparations (for up to two years) to the complainant. (49 App. U.S.C. § 16(1) (1988)).
This Appendix consists of sections of former Title 49 that were not included in Title 49 as enacted by Pub. L. 95-473 and Pub. L. 97-449, and certain laws related to transportation that were enacted after Pub. L. 95-473. Sections from former Title 49 retain the same section numbers in this Appendix. For disposition of all sections of former Title 49, see Table at beginning of Title 49, Transportation.
from one State or Territory of the United States, or the District of Columbia, to any other State or Territory of the United States, or the District of Columbia, or from any place in a Territory to another place in the same Territory, or from any place in the United States through a foreign country to any other place in the United States, or from or to any place in the United States to or from a foreign country, but only insofar as such transportation takes place within the United States.

(2) Transportation subject to regulation

The provisions of this chapter shall also apply to such transportation of passengers and property, but only insofar as such transportation takes place within the United States, but shall not apply—

(a) To the transportation of passengers or property, or to the receiving, delivering, storage, or handling of property, wholly within one State and not shipped to or from a foreign country from or to any place in the United States as aforesaid, except as otherwise provided in this chapter;

(c) To the transportation of passengers or property by carriertas in water where such transportation would not be subject to the provisions of this chapter except for the fact that such carrier absorbs, out of its port-to-port water rates or out of its proportional through rates, any switching, terminal, lightage, car rental, trackage, handling, or other charges by a rail carrier for services within the switching, drainage, lightage, or corporate limits of a port terminal or district.

(3) Definitions

(a) The term "common carrier" as used in this chapter shall include all pipe-line companies; express companies; sleeping-car companies; and all persons, including joint-stock associations or other companies, and any individuals, whether maintained or exercised through or by reason of the method of or circumstances surrounding organization or operation, through or by common directors, officers, or stockholders, a voting trust or trust, a holding or investment company, or companies, through any other direct or indirect means, and to include the power to exercise control.

(b) For the purposes of sections 5, 12(1), 20, 304(a)(7), 310, 320, 904(b), 910, and 913 of this Appendix, where reference is made to control (in referring to a relationship between any person or persons and another person or persons), such reference shall be construed as including, as well as legal control, whether maintained or exercised through or by reason of the method of or circumstances surrounding organization or operation, through or by common directors, officers, or stockholders, a voting trust or trust, a holding or investment company, or companies, through any other direct or indirect means, and to include the power to exercise control.

(4) Duty to furnish transportation and establish through routes: division of joint rates

It shall be the duty of every common carrier subject to this chapter to provide and furnish transportation upon reasonable rates, fares, charges, and classifications applicable thereto; and it shall be the duty of such common carriers by railroad subject to this chapter to establish reasonable through routes with common carriers by water subject to this Appendix, and just and reasonable rates, fares, charges, and classifications applicable thereto. It shall be the duty of every such common carrier establishing through routes to provide reasonable facilities for operating such routes and to make reasonable rules and regulations with respect to such facilities and in the operation thereof. The provisions of this subdivision shall not apply to common carriers by railroad subject to this chapter.

(b) Each rate for any service rendered to be rendered in the transportation of persons or property by any common carrier by railroad subject to this chapter shall be just and reasonable. A rate that is unjust or unreasonable is prohibited and declared to be unlawful. The provisions of this subdivision shall not, apply to common carriers by railroad subject to this chapter.

(5) Just and reasonable charges: applicability; criteria for determination

(a) All charges made for any service rendered or to be rendered in the transportation of passengers or property as aforesaid, or in connection therewith, shall be just and reasonable, and every unreasonable charge for such service or any part thereof is prohibited and declared to be unlawful. The provisions of this subdivision shall not apply to common carriers by railroad subject to this chapter.

(b) Each rate for any service rendered to be rendered in the transportation of persons or property by any common carrier by railroad subject to this chapter shall be just and reasonable. A rate that is unjust or unreasonable is prohibited and unlawful. No rate which contributes or which would contribute to the going concern value of the carrier shall be found to be unjust or unreasonable, or not shown to be just and reasonable, on the ground that such rate is below a just or reasonable minimum for the service rendered or to be rendered. A rate which equals or exceeds the variable costs (as determined through formulas prescribed by the Commission) of providing a service shall be presumed, unless such presumption is rebutted by clear and convincing evidence, to contribute to the going concern value of the carrier or carriers proposing such rate (hereinafter referred to as "the "proponent carriers"). In determining variable costs, the Commission shall, at the request of the carrier proposing the rate, determine only those costs of the carrier proposing the rate and only those costs of the specific service in question, except where such specific data and cost information is not available. The Commission shall not include in variable cost any expenses which do not vary directly with the level of service provided under the rate in question. Notwithstanding any other provision of this chapter, no rate shall be found to be unjust or unreasonable, or not shown to be just and reasonable, on the ground that such rate exceeds a just or reasonable maximum for the service rendered or to be rendered, unless the Commission has first found that the proponent carrier has market dominance over such service. A finding that a carrier has market dominance over a service shall not create a presumption that the rate or rates for such service exceed a just and reasonable maximum. Nothing in this paragraph shall preclude a rate increase from a level which reduces the going concern value of the proponent carrier to a level which contributes to such going concern value and is otherwise just and reasonable. For the purposes of the preceding sentence, a rate increase which does not not exceed the above the incremental costs (as determined through formulas prescribed by the Commission) of rendering the service to which such rate applies shall be presumed to be just and reasonable.
As used in this chapter, the term—

(i) 'market dominance' refers to an absence of effective competition from other carriers or modes of transportation, for the traffic or movement to which a rate applies; and

(ii) 'rate' means any rate or charge for the transportation of persons or property.

(d) Within 240 days after February 5, 1916, the Commission shall establish by rule, standards and procedures for determining, in accordance with section 11(a) of this Appendix, whether and when a carrier possesses market dominance over a service rendered or to be rendered at a particular rate or rates. Such rules shall be designed to provide for a practical determination without administrative delay. The Commission shall solicit and consider the recommendations of the Attorney General and of the Federal Trade Commission in the course of establishing such rules.

(5) Exchange of services

Nothing in this Act shall be construed to prevent any common carrier subject to this Act from entering into or operating under any contract with any telephone, telegraph, or cable company, for the exchange of their services.

(6) Classification of property for transportation: regulations and practices affecting charges

It is hereby declared to be the duty of common carriers subject to the provisions of this chapter to classify, describe, and enforce just and reasonable classifications of property for transportation, with reference to which rates, tariffs, regulations, or practices are or may be made, so that the same may be prescribed, and just and reasonable regulations and practices affecting classifications, rates, or tariffs, the issuance, form, and substance of tickets, receipts, and bills of lading, the manner and method of presenting, marking, packing, and delivering property, for transportation, the facilities for transportation, the carriage and handling of property, and all other matters relating to or connected with the receiving, handling, transporting, storing, and delivery of property subject to the provisions of this chapter—which may be necessary or proper to secure the safe and prompt receipt, handling, transportation, and delivery of property subject to the provisions of this chapter upon just and reasonable terms, and every unjust and unreasonable classification, regulation, and practice is prohibited and declared to be unlawful. Demurrage, delay, and rules and regulations relating to such charges shall be established, in such a manner as to fulfill the national needs with respect to (a) freight car utilization and distribution, and (b) maintenance of an adequate freight car supply available for transportation of property.

(1) Free transportation for passengers prohibited; exceptions; penalty

No common carrier subject to the provisions of this chapter, shall, directly or indirectly, issue or give any interstate free ticket, free pass, or free transportation for passengers, except to its employees, its officers, time inspectors, surgeons, physicians, and attorneys at law, and the families of any of the foregoing; to the executive officers, general managers, and counsel of employees' organizations when such organizations are authorized and designated to represent employees in accordance with the provisions of the Railway Labor Act [45 U.S.C. 15 et seq.]; to ministers of religion, traveling secretaries of railroad Young Men's Christian Associations, inmates of hospitals and charitable and eleemosynary institutions, and persons exclusively engaged in charitable and eleemosynary work; to ticket agents, descriptive and home personnel, and to such persons when transported by charitable societies or hospitals, and the necessary agents employed in such transportation; to inmates of the National Homes or State Homes for Disabled Volunteer Soldiers, and of Soldiers' and Sailors' Homes, including those about to enter and those returning home after discharge; to necessary caretakers of livestock, poultry, milk, and fruit; to employees on sleeping cars, express cars, and to linemen of telegraph and telephone companies; to railway mail-service employees and persons in charge of the mails when on duty and traveling to and from duty; and all duly accredited agents of the United States Postal Service and the Railway Mail Service and post-office inspectors while traveling on official business, upon the exhibition of their credentials; to customs inspectors, and immigration officers; to newsboys on trains, baggage agents, witnesses attending court, and physicians and nurses attending such persons: Provided, That this provision shall not be construed to prohibit the interchange of passes for the officers, agents, and employees of common carriers, and their families, nor to prohibit any common carrier from carrying passengers free with the object of providing relief in cases of general epidemic, pestilence, or other calamitous visitation; and provided further, That this provision shall not be construed to prohibit the privilege of passes or franks, or the exchange thereof with each other, for the officers, agents, employees, and their families of such telegraph, telephone, and cable lines, and the officers, agents, employees, and their families of other common carriers subject to the provisions of this chapter. Provided further, That the term "employees" as used in this paragraph shall include all employees, disabled, pensioned, and superannuated employees, persons who have become disabled or infirm in the service of any such common carrier, and the remains of a person killed in the employment of a carrier and employees traveling for the purpose of entering the service of any such common carrier; and the term "families" as used in this paragraph shall include the families of those persons named in this provision, also the families of persons killed, and the widows during widowhood and minor children during minority of persons who died, while in the service of any such common carrier. Any common carrier violating this provision shall be deemed guilty of a misdemeanor and for each offense, on conviction, shall pay to the United States a penalty of not less than $100 nor more than $2,000, and any person, other than the persons excepted in this provision, who uses any such interstate free ticket, free pass, or free transportation shall be subject to a like penalty. Jurisdiction of offenses under this provision shall be the same as that provided for offenses in sections 41 to 43 of this Appendix.

(7) Transportation of commodity manufactured or produced or railroad forbidden

It shall be unlawful for any railroad company to transport from any state, territory, or the District of Columbia, to any other state, territory, or the District of Columbia, or to any foreign country, any article or commodity, other than timber and the manufactured products thereof, manufactured, mined, or produced by it, or under its authority, or which may be owned in whole or in part, or in which it may have any interest, direct or indirect, except such articles or commodities as may be necessary and intended for use in the conduct of its business as a common carrier.

(9) Switch connections and tracks

Any common carrier subject to the provisions of this chapter, upon application of any lateral, branch line of railroad, or of any shipper rendering interstate traffic for transportation, shall construct, maintain, and operate upon reasonable terms a switch connection with any such lateral, branch line of railroad, or private grade track which may be constructed, and rules and regulations relating to such switch connection, with its railroad, where such connection is reasonably practicable and can be put in with safety and will furnish sufficient business to justify the construction and maintenance of the same; and shall furnish cars for the movement of such traffic to the best of its ability without discrimination in favor of or against any such shipper. If any common carrier shall fail to install and operate any such switch or connection as aforesaid, on
application therefor in writing by any shipper or owner of such lateral, branch line railroad, such shipper or owner of such lateral branch line of railroad, may make complaint to the Commission, as provided in section 13 of this Appendix, and the Commission shall hear and investigate the same and shall determine the facts as to the safety and practicability thereof and justification and reasonable compensation therefor, and the Commission may make an order, as provided in section 15 of this Appendix, directing the common carrier to comply with the provisions of this section in accordance with such order, and such order shall be enforced as hereinafter provided for the enforcement of all other orders by the Commission, other than orders for the payment of money.

(10) "Car service" defined

The term "car service" in this chapter shall include the use, control, supply, movement, distribution, exchange, interchange, and return of locomotives, cars, and other vehicles used in the transportation of property, including special types of equipment, and the supply of trains, by any carrier by railroad subject to this chapter.

(11) Duty to furnish car service; rules and regulations

It shall be the duty of every carrier by railroad subject to this chapter to furnish safe and adequate car service and to establish, observe, and enforce just and reasonable rules, regulations, and practices with respect to car service; and every unjust and unreasonable rule, regulation, and practice with respect to car service is prohibited and declared to be unlawful.

(12) Distribution of coal cars; failure to provide; penalty; applicability of unit-train and non-unit-train service; definition

It shall also be the duty of every carrier by railroad to make just and reasonable distribution of cars for transportation of coal among the coal mines served by it, whether located upon its line or lines or customarily dependent upon it for car supply. During any period when the supply of cars available for such service does not equal the requirements of such mines it shall be the duty of the carrier to maintain and apply just and reasonable ratings of such mines and to count each car furnished to or used by any such mine for transportation of coal against the mine. Failure or refusal so to do shall be unlawful, and in respect of each car not so counted shall be deemed a separate offense, and the carrier, receiver, or operating trustee so failing or refusing shall forfeit to the United States $100 for each offense, which may be recovered in a civil action brought by the United States. In applying the provisions of this paragraph, unit-train service and non-unit-train service shall be considered separate and distinct classes of service, and a distinction shall be made between these two classes of service and between the cars used in each class of service; questions of the justness and reasonableness of, or discrimination or preference or prejudice or advantage or disadvantage in, the distribution of cars shall be determined as between such classes and not between them, notwithstanding any other provision of section 1, 2, or 3 of this Appendix, and of section 41, 42, or 43 of this Appendix. Coal cars supplied by shippers or receivers shall not be considered a part of such carrier's fleet or otherwise counted in determining questions of distribution or car count under this paragraph or any provision of law referred to in this section. As used in this paragraph, the term "unit-train service", means the movement of a single shipment of coal of not less than 4,500 tons, tendered to one carrier, on one bill of lading, on one oreday, and destined to one consignor, at one plant at one destination, via one route.

(13) Rules and regulations as to car service to be filed, etc.

The Commission is authorized by general or special orders to require all carriers by railroad subject to this chapter or any of them, to file with it from time to time their rules and regulations with respect to car service, and the Commission may, in its discretion, direct that such rules and regulations shall be incorporated in their schedules showing rates, fares, and charges for transportation, and be subject to any or all of the provisions of this chapter relating thereto.

(14) Establishment by Commission of rules, etc., as to car service; procedures applicable

(a) It is the intent of the Congress to encourage the purchase, acquisition, and efficient utilization of freight cars. In order to carry out such intent, the Commission may, upon complaint of an interested party or upon its own motion, complaint, and after notice and an opportunity for a hearing, establish reasonable rules, regulations, and practices with respect to car service by common carriers by railroad subject to this chapter, including (i) the compensation to be paid for the use of any locomotive, freight car, or other vehicle, or other vehicle not owned by the carrier by which it is used (and whether or not owned by another carrier, shipper, or third party), and (ii) the penalties or other sanctions for nonobservance of such rules, regulations, or practices. In establishing the rates of compensation to be paid for each type of freight car, the Commission shall give consideration to the transportation use of each type of freight car, to the national level of ownership of each such type of freight car, and to other factors affecting the adequacy of the national freight car supply. Such compensation shall be fixed on the basis of the elements of ownership expense involved in owning and maintaining each such type of freight car, including a fair return on the cost of such type of freight car (giving due consideration to current cost of capital, rentals, materials, parts, and labor). Such compensation may be increased by any incentive element which will, in the judgment of the Commission, provide just and reasonable compensation to freight car owners, contribute to sound car service practices (including efficient utilization and distribution of cars), and encourage the acquisition and maintenance of a car supply adequate to meet the needs of commerce and the national defense. The Commission shall not make any incentive element applicable to any type of freight car if the Commission finds that the supply of such car is adequate. The Commission may exempt such incentive element from the compensation to be paid by any carrier or group of carriers if the Commission finds that such an exemption is in the national interest.

(b) If the Commission finds upon the complaint of an interested party and after notice and a hearing on the record, that a common carrier by railroad subject to this part has materially failed to furnish safe and adequate car service as required by paragraph (1) of this section, the Commission may require such carrier to provide itself with such facilities and equipment as may be reasonably necessary to furnish such service, if the evidence of record establishes, and the Commission affirmatively finds, that—

(i) the provision of such facilities or equipment would not materially and adversely affect the ability of such carrier to otherwise provide safe and adequate transportation services;

(ii) the expenditure required for such facilities or equipment, including a return which equals such carrier's current cost of capital, will be recovered;

and

(iii) the provision of such facilities or equipment will not impair the ability of such carrier to attract adequate capital.

(c) It shall be unlawful for any common carrier by railroad or express company, subject to this chapter, to make or enter into any contract, agreement, or arrangement with any person for the furnishing to or on behalf of such carrier or express company of protective service against heat or cold to property transport-
ed or to be transported in interstate or foreign commerce, or for any such carrier or express company to continue after April 1, 1941, as a party to any such contract, agreement, or arrangement unless and until such contract, agreement, or arrangement has been submitted to and approved or disapproved by the Commission as reasonable, and consistent with the public interest: Provided, That if the Commission is unable to make its determination with respect to any such contract, agreement, or arrangement prior to said date, it may extend it to the later of such date or October 1, 1941.

(15) Power of Commission in case of emergency

Whenever the Commission is of opinion that short-age of equipment, congestion of traffic, or other emergency requiring immediate action exists in any section of the country, the Commission shall have, and it is given, authority, either upon complaint or upon its own initiative without complaint, at once, if it so orders, without answer or other formal pleading by the interested carrier or carriers, and with or without notice, hearing, or the making or filing of a report, according as the Commission may determine: (a) to suspend the operation of any or all rules, regulations, or practices of such carriers for such time as may be determined by the Commission; (b) to make such just and reasonable directions with respect to car service without regard to the ownership as between carriers of locomotives, cars, and other property, such emergency as in its opinion will best promote the service in the interest of the public and the commerce of the people, upon such terms of compensation as between the carriers as they may agree upon, or, in the event of their disagreement, as the Commission may after subsequent hearing find to be just and reasonable; (c) to require such joint or common use of terminals, including main-line track or tracks for a reasonable distance outside of such terminals, as in its opinion will best meet the emergency and serve the public interest, and upon such terms as between the carriers as they may agree upon, or, in the event of their disagreement, as the Commission may after subsequent hearing find to be just and reasonable; and (d) to give directions for preference or priority in transportation, embargoes, or movement of traffic under permits, at such time and for such periods as it may determine, and to modify, change, suspend, or annul them. In time of war or threatened war the President may certify to the Commission that it is essential to the national defense and security that it shall have preference or priority in transportation, and the Commission shall, under the power herein conferred, direct that such preference or priority be afforded.

(16) Re-routing of traffic on failure of initial carrier to serve public

(a) Whenever the Commission is of opinion that any carrier by railroad subject to this chapter is for any reason unable to transport the traffic offered it so as properly to serve the public, it may, upon the same procedure as provided in paragraph (15) of this section, make such just and reasonable directions with respect to handling, routing, and movement of traffic of such carrier and its distribution over other lines of roads, as in the opinion of the Commission will best promote the service in the interest of the public and the commerce of the people, and upon such terms as between the carriers as they may agree upon, or, in the event of their disagreement, as the Commission may after subsequent hearing find to be just and reasonable.

(b) Whenever any carrier by railroad is unable to transport the traffic offered it because

(1) its faith position makes its continuing operation impossible;
(2) it has been ordered to discontinue any service by a court; or
(3) it has abandoned service without obtaining a certificate from the Commission pursuant to this section;
the Commission may, upon the same procedure as provided in paragraph (15) of this section, make such just and reasonable directions with respect to the handling, routing, and movement of the traffic available to such carrier and its distribution over such carrier's lines, as in the opinion of the Commission will best promote the service in the interest of the public and the commerce of the people subject to the following conditions:

(A) Such direction shall be effective for no longer than 60 days unless extended by the Commission for cause shown for an additional designated period not to exceed 160 days.

(B) No such directions shall be issued that would cause a carrier to operate in violation of the Federal Railroad Safety Act of 1970 [45 U.S.C. 431 et seq.] or that would substantially impair the ability of the carrier so directed to serve adequately its own patrons or to meet its outstanding common carrier obligations.

(C) The directed carrier shall not, by reason of such Commission direction, be deemed to have assumed or to become responsible for the debts of the other carrier.

(D) The directed carrier shall hire employees of the other carrier to the extent such employees had previously performed the directed service for the other carrier, and, as to such employees as shall be hired, the directed carrier shall be deemed to have assumed all existing employment obligations and practices of the other carrier relating thereto, including, but not limited to, agreements governing rate of pay, rules and working conditions, and all employee protective conditions commencing with and for the duration of the direction.

(E) Any order of the Commission entered pursuant to this paragraph shall provide that, if, for the period of its effectiveness, the cost, as hereinafter defined, of handling, routing, and moving the traffic of another carrier over the other carrier's lines of road shall exceed the direct revenues therefrom, then upon request, payment shall be made to the directed carrier, in the manner hereinafter provided and within 90 days after expiration of such order, of a sum equal to the amount by which such cost has exceeded said revenues. The term "cost" shall mean those expenditures made or incurred in or attributable to the operations as directed, including the rental or lease of necessary equipment, plus an appropriate allocation of common expenses, overheads, and a reasonable profit. Such cost shall be therein recorded by the carrier or carriers in such manner and on such forms as by general order may be prescribed by the Commission and shall be submitted to and subject to audit by the Commission. The Commission shall certify promptly to the Secretary of the Treasury the amount of payment to be made to said carrier or carriers under the provisions of this paragraph. Payments required to be made to a carrier under the provisions of this paragraph shall be made by the Secretary of the Treasury from funds hereby authorized to be appropriated in such amounts as may be necessary for the purpose of carrying out the provisions hereof.

(17) Directions of Commission as to car service; disobedience; rights of State; bribery

(a) The directions of the Commission as to car service and to the matters referred to in paragraphs (15) and (16) of this section may be made through and by such agents or agencies as the Commission shall designate and appoint for that purpose. Each and every such agent of all carriers by railroad subject to this chapter, and of their officers, agents, and employees, to obey strictly and conform promptly to such orders or directions of the Commission, and in case of failure or refusal on the part of any carrier, receiver, or operating trustee to comply with any such order or direction such carrier, receiver, or trustee shall be liable to a penalty of
not less than $100 nor more than $500 for each such offense and $50 for each and every day of the continuance of such offense, which shall accrue to the United States and may be recovered in a civil action brought by the United States: Provided, however, That nothing in this chapter shall impair or affect the right of a State in the exercise of its police power, to require just and reasonable freight and passenger service for intrastate business, except insofar as such requirement is inconsistent with any lawful order of the Commission made under the provisions of this chapter and except as otherwise provided in this chapter.

(b) It shall be unlawful for any person to offer or give or cause or procure to be offered or given, directly or indirectly, any money, property, or thing of value, or bribe in any other form whatsoever, to any person acting for or employed by any carrier by railroad subject to this part with intent to influence his decision or action, or because of his decision or action, with respect to the supply, distribution, or movement of cars or other vehicles, or vessels, used in the transportation of property. It shall be unlawful for any person acting for or employed by any carrier by railroad subject to this part, to solicit, accept, or receive, directly or indirectly, any money, property, or thing of value, or bribe in any other form whatsoever, with intent to be influenced thereby in his decision or action, or because of his decision or action, with respect to the supply, distribution, or movement of cars or other vehicles, or vessels, used in the transportation of property, to require a person who violates the provisions of this subparagraph shall be deemed guilty of a misdemeanor and be subject for each offense to a fine of not more than $1,000, or imprisonment in the penitentiary for a term of not more than two years, or both such fine and imprisonment.

(18) Extension or addition of lines; certificate required; procedures applicable to application for certificate; petition or initiative of Commission; agreements for ownership or use of spur, etc. tracks; limitations on authority of Commission; injunctions and penalties for violations.

(a) No carrier by railroad subject to this chapter shall—

(i) undertake the extension of any of its lines of railroad or the construction of any additional line of railroad;

(ii) acquire or operate any such extension or any such additional line; or

(iii) engage in transportation over, or by means of, any such extended or additional line of railroad, unless such extension or additional line of railroad is described in and covered by a certificate which is issued by the Commission and which declares that the present or future public convenience and necessity requires or will be enhanced by the construction and operation of such extended or additional line of railroad. Upon receipt of an application for such a certificate, the Commission shall (A) send a copy of the application to the chief executive officer of each State that would be directly affected by the construction or operation of such extended or additional line of railroad. Upon receipt of such extended or additional line of railroad. Upon receipt of an application for such a certificate, the Commission shall (A) send a copy of the application to the chief executive officer of each State that would be directly affected by the construction or operation of such extended or additional line of railroad. (B) send an accurate and understandable summary of such application to a newspaper of general circulation in such affected area or areas with a request that such information be made available to the general public. (C) cause a copy of such summary to be published in the Federal Register. (D) take such other steps as it deems reasonable and effective to publicize such application, and (E) facilitate in such publications and publications that each interested person is entitled to recommend to the Commission that it approve, disapprove, or take any other specified action with respect to such application.

(b) The Commission shall establish, and may from time to time amend, rules and regulations (as to hearings and other matters) to govern applications for, and the issuance of, any certificate required by subdivision (a). An application for such a certificate shall be submitted to the Commission in such form and manner and with such documentation as the Commission shall prescribe. The Commission may—

(i) issue such a certificate in the form requested by the applicant;

(ii) issue such a certificate with modifications in such form and subject to such terms and conditions as are necessary in the public interest; or

(iii) refuse to issue such a certificate.

(c) Upon petition or upon its own initiative, the Commission may authorize any carrier by railroad subject to this chapter to extend any of its lines of railroad or to take any other action necessary for the provision of adequate, efficient, and safe facilities for the performance of such carrier’s obligations under this chapter. No authorization shall be made unless the Commission determines that the expense thereof will not impair the ability of such carrier to perform its obligations to the public.

(d) Carriers by railroad subject to this chapter may, notwithstanding this paragraph and section 5 of this Appendix, and without the approval of the Commission, enter into contracts, agreements, or other arrangements for the point (joint) ownership or joint use of spur, industrial, team, switching, or side tracks. The authority granted to the Commission under this paragraph shall not extend to the construction, acquisition, or operation of spur, industrial, team, switching, or side tracks if such tracks are located or intended to be located entirely within one State, and shall not apply to any street, suburban, or interurban electric railway which is not operated as part of a general system of rail transportation.

(e) Any construction or operation which is contrary to any provision of this paragraph, of any regulations promulgated under this paragraph, or of any terms and conditions of an applicable certificate, may be enjoined by an appropriate district court of the United States in a civil action commenced and maintained by the United States, the Commission, or the attorney general or the transportation regulatory body of an affected State or area. Such a court may impose a civil penalty of not to exceed $5,000 on each person who knowingly authorizes, consents to, or permits any violation of this paragraph or of the conditions of a certificate issued under this paragraph.

Section repealed subject to an exception related to transportation of oil by pipeline. For disposition of this section in revised Title 49, Transportation, see Table at beginning of Title 49. See, also, notes following Table.

Prior to repeal, section read as follows:
§1a. Abandonment and discontinuance of rail service

(1) Authorization pursuant to certification by Commission; application and notice of intent required in accordance with rules and regulations; statutory provisions applicable; limitation on authority of Commission

No carrier by railroad subject to this chapter shall abandon all or any portion of any of its lines of railroad (hereinafter referred to as "abandonment") and no such carrier shall discontinue the operation of all rail service over all or any portion of any such line (hereinafter referred to as "discontinuance"); unless such abandonment or discontinuance is described in and covered by a certificate which is issued by the Commission and which declares that the present or future public convenience and necessity require or permit such abandonment or discontinuance. An application for such a certificate shall be submitted to the Commission, together with a notice of intent to abandon or discontinue, pursuant to paragraph (2) of this section, actual abandonment or discontinuance shall be governed by the provisions of this section or by the provisions of any other applicable Federal statute, notwithstanding any inconsistent or contrary provision in any State law or constitution, or any decision, order, or procedure of any State administrative or judicial body, or of the authority granting rights of way to the Commission under this section shall not apply to (a) abandonment or discontinuance with respect to spur, industrial, team switching, or side tracks if such tracks are located entirely within one State, or (b) any street, or interurban electric railway line which is not operated as part of a general system of rail transportation.

(2) Affidavit accompanying notice of intent; contents of affidavit and notice of intent

(a) Whenever a carrier submits to the Commission a notice of intent to abandon or discontinue, pursuant to paragraph (2) of this section, such notice shall attach thereto an affidavit certifying that a copy of such notice (i) has been sent by certified mail to the chief executive officer of each State that would be directly affected by such abandonment or discontinuance, (ii) has been posted in each terminal and station on any line of railroad proposed to be so abandoned or discontinued, (iii) has been published for 3 consecutive weeks in a newspaper of general circulation in each county in which all or any part of such line of railroad is located, and (iv) has been mailed, to the extent practicable, to any person who has made a showing that such notice would be beneficial to him. An order to the Commission to issue such a certificate shall not be made until the time the affidavit required by this paragraph (2) is filed with the Commission.

(b) The notice required under subdivision (a) of this paragraph shall include (i) an accurate and understandable summary of the carrier's application for a certificate of abandonment or discontinuance, together with the reasons therefor, and (ii) a statement indicating that each interested person is entitled to examine the documents that are available to the carrier that it propose, disapprove, or take any other specified action with respect to such application.

(3) Investigation by Commission; prerequisites; effect; scope; procedures

During the 60-day period between the submission of a completed application for a certificate of abandonment or discontinuance pursuant to paragraph (1) of this section and the proposed effective date of an abandonment or discontinuance, the Commission shall, upon petition, or may, upon its own initiative, cause an investigation to be conducted to assist in determining what disposition to make of such application. An order to the Commission to implement the preceding sentence must be issued and served upon any affected carrier not less than 5 days prior to the end of such 60-day period. If no such investigation is ordered, the Commission shall issue such a certificate, in accordance with this section, at the end of such 60-day period. If such an investigation is ordered, the Commission shall order a postponement in whole or in part, in the proposed effective date of the abandonment or discontinuance. Such postponement shall be for such reasonable period of time as is necessary to complete such investigation. Such an investigation may include, but need not be limited to, public hearings at any location reasonably adjacent to the line of railroad involved in the abandonment or discontinuance application, pursuant to rules and regulations of the Commission. A hearing may be held upon the request of any interested party or upon the Commission's own initiative. The burden of proof as to public convenience and necessity shall lie upon the applicant for a certificate of abandonment or discontinuance.

(4) Issuance of certificate; contents; taking effect of abandonment or discontinuance

The Commission shall, upon an order with respect to any such line of railroad, subject to this chapter, issued without an investigation pursuant to paragraph (3) of this section, actual abandonment or discontinuance may take effect, in accordance with such certificate, 30 days after the date of issuance thereof. If such a certificate is issued after an investigation pursuant to paragraph (3), actual abandonment or discontinuance may take effect, in accordance with such certificate, 120 days after the date of issuance thereof.

(5) Diagram of transportation system directly or indirectly operated by carrier by railroad subject to this chapter; preparation, submission to Commission, and publication; contents; amendments; opposition to issuance or denial of certificate limited by diagram or amended diagram

(a) Each carrier by railroad subject to this chapter shall, within 180 days after the date of preparation of regulations by the Commission pursuant to this section, prepare, submit to the Commission, and publish, a full and complete diagram of the transportation system operated, directly or indirectly, by such carrier. Each such diagram which shall include a detailed description of each line of railroad which is "potentially subject to abandonment", as such term is defined by the Commission. Such term shall be defined by the Commission by rules and such rules may include standards which vary by region of the Nation and by type of rail transportation. Each such diagram shall also identify any line of railroad as to which such carrier plans to submit an application for a certificate of abandonment or discontinuance in accordance with this section. Each such carrier shall submit to the Commission and publish, in accordance with the regulations of the Commission, such amendments to such diagram as are necessary to maintain the accuracy of such diagram.

Title 49: Transportation
Appendix
Chapter A: Transportation (Sec. 1-106)
Part 1: Interstate Commerce Commission
Subpart 1: Hearings
§1a. Abandonment and discontinuance of rail service

(1) Authorization pursuant to certification by Commission;

(2) Affidavit accompanying notice of intent;

(3) Investigation by Commission;

(4) Issuance of certificate;

(5) Diagram.
§ 1a TITLE 49, APPENDIX—TRANSPORTATION

The Commission shall not issue a certificate of abandonment or discontinuance with respect to a line of railroad if such abandonment or discontinuance is opposed by:

(i) a shipper or any other person who has made significant use (as determined by the Commission in its discretion) of such line of railroad during the 12-month period preceding the submission of an applicable application under paragraph (1) of this section; or

(ii) a State, or any political subdivision of a State, if such line of railroad is located, in whole or in part, within such State or political subdivision;

unless such line or railroad has been identified and described on a diagram or in an amended diagram which was submitted to the Commission under subdivision (a) of this paragraph at least 4 months prior to the date of submission of an application for such certificate.

(6) Findings by Commission of public convenience and necessity permitting abandonment or discontinuance; publication in Federal Register; further findings of offers of financial assistance.

(a) Whenever the Commission makes a finding, in accordance with this section, that the public convenience and necessity permit the abandonment or discontinuance of a line of railroad, it shall cause such finding to be published in the Federal Register. If, within 30 days of such publication, the Commission further finds that—

(i) a financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service or discontinuance payment) to enable the rail service involved to be continued; and

(ii) it is likely that such proffered assistance would—

(A) cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line; or

(B) cover the acquisition cost of all or any portion of such line of railroad;

the Commission shall postpone the issuance of a certificate of abandonment or discontinuance for such reasonable time, not to exceed 6 months, as is necessary to enable the financially responsible person or entity to enter into a binding agreement, with the carrier seeking such abandonment or discontinuance, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect.

(b) A carrier by railroad subject to this chapter shall promptly make available, to any party considering offering financial assistance in accordance with subdivision (a) of this paragraph, its most recent reports on the physical condition of any line of railroad with respect to which it seeks a certificate of abandonment or discontinuance, together with such traffic, revenue, and other data as is necessary to determine the amount of assistance that would be required to continue rail service.

(7) Determination by Commission subsequent to findings of offers of financial assistance of extent avoidable costs of rail service and reasonable return on rail properties exceed operating revenues.

Whenever the Commission finds, under paragraph (6)(a) of this section, that an offer of financial assistance is made, the Commission shall determine the extent to which the avoidable cost of providing rail service plus a reasonable return on the value of the rail properties involved exceed the revenues attributable to the line of railroad or the rail service involved.

(8) Statutory provisions applicable to petitions filed and pending prior to February 5, 1976, or prior to promulgation of regulations by Commission.

Petitions for abandonment or discontinuance which were filed and pending before the Commission as of February 5, 1976, or prior to the promulgation by the Commission of regulations required under this title shall be governed by the provisions of section 1 of this title which were in effect on February 5, 1976, except that paragraphs (6) and (7) of this section shall be applicable to such petitions.

(9) Injunctive relief; jurisdiction; parties; civil penalty.

Any abandonment or discontinuance which is contrary to any provision of this section, of any regulation promulgated under this section, or of any terms and conditions of an applicable certificate, may be enjoined by an appropriate district court of the United States, the Commission, or the attorney general or the transportation regulatory body of an affected State or area. Such a court may impose a civil penalty of not to exceed $5,000 on each person who knowingly authorizes, consents to, or permits any violation of any provision of this section or of any regulation under this section.

(10) Further findings by Commission of suitability of abandoned or discontinued properties for use for other public purposes; limitations on disposal subsequent to finding.

In any instance in which the Commission finds that the present or future public convenience and necessity permit abandonment or discontinuance, the Commission shall make a further finding whether such properties are suitable for use for other public purposes, including roads or highways, other forms of mass transportation, conservation, energy production or transmission, or recreation. If the Commission finds that the properties proposed to be abandoned are suitable for other public purposes, it shall order that such rail properties not be sold, leased, exchanged, or otherwise disposed of except in accordance with such reasonable terms and conditions as are prescribed by the Commission, including, but not limited to: a prohibition on any such disposal, for a period not to exceed 180 days after the effective date of the termination of abandonment unless such properties have first been offered, upon reasonable terms, for acquisition for public purposes.

(11) "Avoidable cost" and "reasonable return" defined.

As used in this section:

(a) The term "avoidable cost" means all expenses which would be incurred by a carrier in providing a service which would not be incurred, in the case of discontinuance, if such service were discontinued or, in the case of abandonment, if the line over which such service was provided were abandoned. Such expenses shall include but are not limited to all cash inflows which are foregone and all cash outflows which are incurred by such carrier as a result of not discontinuing or not abandoning such service. Such foregone cash inflows and incurred outflows shall include (i) working capital and required capital expenditures, (ii) expenditures to eliminate deferred maintenance, (iii) the current cost of freight cars, locomotives and other equipment, and other tax benefits from not retiring properties from rail service and other effects of applicable Federal and State income taxes.

(b) The term "reasonable return" shall, in the case of a railroad not in reorganization, be the cost of capital to such railroad (as determined by the Commission); and, in the case of a railroad in reorganization, shall be the mean cost of capital of railroads.
not in reorganization, as determined by the Commission.

Section repealed subject to an exception related to transportation of oil by pipeline. For disposition of this section in revised Title 49, Transportation, see Table at beginning of Title 49. See, also, notes following Table.

Prior to repeal, section read as follows:

§ 2. Special rates and rebates prohibited

If any common carrier subject to the provisions of this chapter shall, directly or indirectly, by any special rate, rebate, drawback, or other device, charge, demand, collect, or receive from any person or persons a rate, rebate, drawback, or less compensation for any service rendered or to be rendered, in the transportation of passengers or property, subject to the provisions of this chapter, than it charges, demands, collects, or receives from any other person or persons for doing for him or them a like and contemporaneous service in the transportation of any kind of traffic under substantially similar circumstances and conditions, such common carrier shall be deemed guilty of unjust discrimination, which is prohibited and declared to be unlawful.

§ 3. Preferences; interchange of traffic; terminal facilities

(1) Undue preferences or restraints prohibited

It shall be unlawful for any common carrier subject to the provisions of this chapter to make, give, or cause any undue or unreasonable preference or advantage to any particular person, company, firm, corporation, association, locality, port, port district, gateway, transit point, region, district, territory, or any particular description of traffic, in any respect whatsoever; or to subject any particular person, company, firm, corporation, association, locality, port, port district, gateway, transit point, region, district, territory, or any particular description of traffic to any undue or unreasonable prejudice or disadvantage in any respect whatsoever: Provided, however, That this paragraph shall not be construed to apply to discrimination, prejudice, or disadvantage to the traffic of any other carrier of whatever description.

(1a) Export rates on farm commodities Commission's power to carry out policy

It is declared to be the policy of Congress that shippers of wheat, cotton, and all other farm commodities for export shall be granted export rates on the same principles as are applicable in the case of rates on industrial products for export. The Commission is directed, on its own initiative or an application by interested persons, to make such investigations and conduct such hearings, and, after appropriate proceedings, to issue such orders, as may be necessary to carry out such policy.

(2) Payment of freight as prerequisite to delivery

No carrier by railroad and no express company subject to the provisions of this chapter shall deliver or relinquish possession at destination of any freight or express shipment transported by it until all tariff rates and charges thereon have been paid, except under such rules and regulations as the Commission may from time to time prescribe to govern the settlement of all such rates and charges and to prevent unjust discrimination: Provided, That the provisions of this paragraph shall not be construed to prohibit any carrier or express company from extending credit in connection with rates and charges on freight or express shipments transported for the United States, for any department, bureau, or agency thereof, or for any State or Territory or political subdivision thereof, or for the District of Columbia. Where carriers by railroad are instructed by a shipper or consignor to deliver property transported by such carriers to a consignee other than the shipper or consignor, such consignee shall not be legally liable for transportation charges in respect of the transportation of such property (beyond those billed against him at the time of delivery for which he is otherwise liable) which may be found to be due after the property has been delivered to him, if the consignee (a) is an agent only and has no beneficial title in the property, and (b) prior to delivery of the property has notified the delivering carrier in writing of the fact of such agency and of beneficial title, and, in the case of a shipment reconsignated or diverted to a point other than that specified in the original bill of lading, has also notified the delivering carrier in writing of the name and address of the beneficial owner of the property. In such cases the shipper or consignor, or, in the case of a shipment so reconsignated or diverted, the beneficial owner, shall be liable for such additional charges, irrespective of any provisions to the contrary in the bill of lading or in the contract under which the shipment was made. An action for the enforcement of such liability may be begun within the period provided in paragraph (3) of section 16 of this Appendix or before the expiration of six months after final judgment against the carrier in an action against the consignee begun within the period provided in paragraph (3) of section 16 of this Appendix. If the consignee has given to the carrier erroneous information as to who the beneficial owner is, such consignee shall himself be liable for such additional charges, notwithstanding the foregoing provisions of this paragraph. An action for the enforcement of such liability may be begun within the period provided in paragraph (3) of section 16 of this Appendix or before the expiration of six months after final judgment against the carrier in an action against the consignee begun within the period provided in paragraph (3) of section 16 of this Appendix. On shipments reconsignated or diverted by an agent who has furnished the carrier in the reconsignment or diversion order with a notice of agency and the proper name and address of the beneficial owner, and where such shipments are refused or abandoned at ultimate destination, the said beneficial owner shall be liable for all legally applicable charges in connection therewith. If the consignee has given to the carrier erroneous information as to who the beneficial owner is, such consignee or divertor shall himself be liable for all such charges, and an action for the enforcement of such liability may be begun within the same period provided in the case of an action against a consignee who has given erroneous information as to the beneficial owner.

(3) Liability of shipper-consignees for freight where delivery is made to another party upon instructions

If a shipper or consignor of a shipment of property (other than a prepaid shipment) is also the consignee named in the bill of lading and, prior to the time of delivery, notifies, in writing, a delivering carrier or railroad or a delivering express company subject to
§ 4

TITLE 49. APPENDIX—TRANSPORTATION

the provisions of this chapter, (a) to deliver such property at destination to another party, (b) that such party is the beneficial owner of such property, and (c) that delivery is to be made to such party only upon payment of all transportation charges in respect of the transportation of such property, and delivery is made by the carrier to such party without such payment, such shipper or consignor shall not be liable (as shipper, consignor, or otherwise) for such transportation charges but the party to whom delivery is so made shall in any event be liable for transportation charges billed against the property at the time of such delivery, and also for any additional charges which may be subsequently required to be made after delivery of the property, except that if such party prior to such delivery has notified in writing the delivering carrier that he is not the beneficial owner of the property, and has given in writing to such delivering carrier the name and address of such beneficial owner, such party shall not be liable for any additional charges which may be found to be due after delivery of the property; but if the party to whom delivery is made has given to the carrier erroneous information as to the beneficial owner, such party shall nevertheless be liable for such additional charges. If the shipper or consignor given to the delivering carrier erroneous information as to who the beneficial owner is, such shipper or consignor shall himself be liable for such transportation charges, notwithstanding the foregoing provisions of this paragraph and irrespective of any provisions to the contrary in the law of landing or in the carrying of such transportation under which the shipment was made.

An action for the enforcement of such liability either against the party to whom delivery is made or the shipper or consignor may be begun within the period provided in paragraph (3) of section 18 of this Appendix, or before the expiration of six months after final judgment against the carrier in an action against either of such parties begun within the limitation period provided in paragraph (3) of section 16 of this Appendix. The term "delivering carrier" means the line-haul carrier making ultimate delivery.

(4) Interchange of traffic

All carriers subject to the provisions of this chapter shall, according to their respective powers, afford all reasonable, proper, and equal facilities for the interchange of traffic between their respective lines and connections, and for the receiving, forwarding, and delivering of passengers or property to and from connecting lines; and shall not discriminate in their rates, fares, and charges between connecting lines, or unduly prejudice any connecting line in the distribution of traffic that is not specifically routed by the shipper. As used in this paragraph the term "connecting line" means the connecting line of any carrier subject to the provisions of this chapter or any common carrier by water, subject to chapter 12 of this Appendix.

(5) Terminal facilities; use of and compensation for

If the Commission finds it to be in the public interest and to be practicable, without substantially impairing the ability of a common carrier by railroad owning or entitled to the enjoyment of terminal facilities to handle its own business, it shall have power by order to require the use of any such terminal facilities, including main-line track or other parts of such facilities, by a railroad which is not a common carrier by railroad, by another such carrier or other such carriers, on such terms and for such compensation as the carriers affected may agree upon, or, in the event of a failure to agree, as the Commission may fix as just and reasonable for the use so required, to be ascertained on the principle controlling compensation in condemnation proceedings. Such compensation shall be paid or adequately secured before the enjoyment of the use may be commenced. The Commission may fix as just and reasonable for the use so required, to be ascertained on the principle controlling compensation in condemnation proceedings. Such compensation shall be so used is not satisfied with the terms fixed for such use, or if the amount of compensation so fixed is not duly and promptly paid, the carrier whose terminal facilities have thus been required to be given to another carrier or other carriers shall be entitled to recover, by suit or action against such other carrier or carriers, proper damages for any injuries sustained by it as the result of compliance with such requirement, or just compensation for such use, or both, as the case may be.

Prior to repeal, section read as follows:

§ 4. Long and short haul charges; competition with water routes

(1) Charges for long and short hauls and on through route; exemption

It shall be unlawful for any common carrier subject to this chapter or chapter 12 of this Appendix to charge or receive any greater compensation in the aggregate for the transportation of passengers, or of like kind of property, for a shorter than for a longer distance over the same line or route in the same direction, the shorter being included within the longer distance, or to charge any greater compensation as a through rate than the aggregate of the intermediate rates subject to the provisions of this chapter or chapter 12 of this Appendix, but this shall not be construed as authorizing any common carrier within the terms of this chapter or chapter 12 of this Appendix to charge or receive as great compensation for a shorter than for a longer distance: Provided, That upon application to the Commission and after investigation, such carrier, in special cases, may be authorized by the Commission to charge less for longer than for shorter distances for the transportation of passengers or property, and the Commission may from time to time prescribe the extent to which such designated carriers may be relieved from the operation of the foregoing provisions of this section, but in exercising the authority conferred upon it in this proviso, the Commission shall not permit the establishment of any charge or from the more distant point that is not reasonably compensatory for the service performed; and no such authorization shall be granted on account of merely incidental water competition not actually in existence: Provided further, That any such carrier or carriers operating over a circuity line or route may, subject only to the standards of lawfulness set forth in other provisions of this chapter or chapter 12 of this Appendix and without further authorization, meet the charges of such carrier or carriers of the same type operating over a more direct line or route, to or from the competitive points, provided that rates so established over circuitous routes shall not be evidence on the question of the reasonableness of the compensation in other proceeding: And provided further, That tariffs proposing rates subject to the provision of this paragraph requiring Commission authorization may be filed when application is made to the Commission under the provisions hereof, and in the event such application is approved, the Commission shall permit such tariffs to become effective upon one day's notice: And provided further, That the provisions of this para-
(2) Competition of railroads with water routes: change of rates

Wherever a carrier by railroad shall in competition with a water route or routes reduce the rates on the carriage of any species of freight to or from competitive points, it shall not be permitted to increase such rates unless after hearing by the Commission it shall be found that such proposed increase rests upon changed conditions other than the elimination of water competition.

The section repealed subject to an exception related to transportation of oil by pipeline. For disposition of this section in revised Title 49, Transportation, see Table at beginning of Title 49. See, also, notes following Table.

Prior to repeal, section read as follows:

§ 5. Combinations and consolidations of carriers

(1) Pooling; division of traffic, service, or earnings

Except upon specific approval by order of the Commission as in this section provided, and except as provided in paragraph (18) of section 1 of this Appendix, it shall not be unlawful for any common carrier subject to this chapter, chapter 8, or chapter 15 of this Appendix to enter into any contract, agreement, or combination with any other such common carrier or carriers for the pooling or division of traffic, or of service, or of gross or net earnings, or of any portion thereof; and in any case of an unlawful agreement for the pooling or division of traffic, service, or earnings as aforesaid each day of its continuance shall be a separate offense: Provided, That whenever the Commission is of opinion upon hearing upon application of any such carrier or carriers or upon its own initiative, that the pooling or division. to the extent indicated by the Commission, of their traffic, service, or gross or net earnings, or of any portion thereof, will be in the interest of better service to the public or of economy in operation, and will not unduly restrain competition, the Commission shall by order approve and authorize, if assented to by all the carriers involved, such pooling or division, under such rules and regulations, and for such consideration as between such carriers and upon such terms and conditions. as shall be found by the Commission to be just and reasonable in the premises: Provided further, That any contract, agreement, or combination to which any common carrier by water subject to chapter 12 of this Appendix is a party, relating to the pooling or division of traffic, service, or earnings. or any portion thereof, lawfully existing on September 18, 1940, if filed with the Commission within six months after such date, shall continue to be lawful except to the extent that the Commission, after hearing upon its own initiative, may find and by order declare that such contract, agreement, or combination is not in the interest of better service to the public or of economy in operation, or that it will unduly restrain competition.

(2) Unifications, mergers, and acquisitions of control; procedures applicable

(a) It shall be lawful, with the approval and authorization of the Commission, as provided in subdivision (b) of this paragraph or paragraph (3), (i) for two or more carriers to consolidate or merge their properties or franchises, or any part thereof, into one corporation for the ownership, management, and operation of the properties theretofore in separate ownership; or for any carrier. or two or more carriers jointly, to purchase, lease, or contract to operate the properties, or any part thereof, of another. or for any carrier. or two or more carriers jointly, to acquire control of another through ownership of its stock or otherwise; or for a person which is not a carrier to acquire control of two or more carriers through ownership of their stock or otherwise; or for a person which is not a carrier to acquire control of one or more carriers to acquire control of another carrier through ownership of its stock or otherwise; or

(ii) for a carrier by railroad to acquire trackage rights over, or joint ownership in. or joint use of, any railroad line or lines owned or operated by any other such carrier, and terminals incidental thereto.

(b) Whenever a transaction is proposed under subdivision (a) of this paragraph. the carrier or carriers or person seeking authority therefor shall present an application to the Commission, and thereupon the Commission shall notify the Governor of each State in which any part of the properties of the carriers involved in the proposed transaction is situated, and also such carriers and the applicant or applicants (and, in case carriers by motor vehicle are involved, the persons specified in section 305(e) of this Appendix), and shall afford reasonable opportunity for interested parties to be heard. If the Commission shall consider it necessary in order to determine whether the findings specified below may properly be made. it shall set said application for public hearing; and a public hearing shall be held in all cases where carriers by railroad are involved unless the Commission determines that a public hearing is not necessary in the public interest. If the Commission finds that, subject to such terms and conditions and such modifications as it shall find to be just and reasonable, the proposed transaction is within the scope of subdivision (a) of this paragraph and will be consistent with the public interest, it shall enter an order approving and authorizing such transaction, upon the terms and conditions, and with the modifications, so found to be just and reasonable: Provided, That if a carrier by railroad subject to this chapter, or any person which is controlled by such a carrier, or affiliated therewith within the meaning of paragraph (9) of this section, is an applicant in the case of any such proposed transaction involving a motor carrier, the Commission shall not enter such an order unless it finds that the transaction proposed will be consistent with the public interest and will enable such carrier to use service by motor vehicle to public advantage in its operations and will not unduly restrain competition.

(c) In passing upon any proposed transaction under the provisions of this paragraph. the Commission shall give weight to the following considerations. among others: (1) The effect of the proposed transaction upon adequate transportation service to the public; (2) the effect upon the public interest of the inclusion, or failure to include, other railroads in the territory involved in the proposed transaction; (3) the total fixed charges resulting from the proposed transaction; and (4) the interest of the carrier employees affected.

(d) The Commission shall have authority in the case of a proposed transaction under this paragraph involving a railroad or railroads. as a prerequisite to its approval of the proposed transaction, to require, upon equitable terms, the inclusion of such railroad or railroads in the territory involved, upon petition by such railroad or railroads requesting such inclusion, and upon a finding that such inclusion is consistent with the public interest.

(e) No transaction which contemplates a guaranty or assumption of payment of dividends or of fixed charges. shall be approved by the Commission under
this paragraph except upon a specific finding by the Commission that such guaranty or assumption is not inconsistent with the public interest. No transaction shall be approved under this paragraph which will result in an increase of total fixed charges, except upon a specific finding by the Commission that such finding would not be contrary to public interest.

(1) As a condition of its approval, under this paragraph or paragraph (3), of any transaction involving a carrier or carriers by railroad subject to the provisions of this chapter, the Commission shall require a fair and equitable arrangement to protect the interests of the railroad employees affected. In its order of approval the Commission shall include terms and conditions providing that during the period of four years from the effective date of such order such transaction will not result in employees of the carrier or carriers by railroad subject to the provisions of this chapter being in a worse position with respect to their employment except that the protection afforded to any employee pursuant to this sentence shall not be required to continue for a longer period, following the effective date of such order, than the period during which such employee was in the employment of such carrier or carriers prior to the effective date of such order. Such arrangement shall contain provisions no less protective of the interests of employees than those imposed before February 5, 1976, pursuant to this subdivision and those established pursuant to section 565 of title 45. Notwithstanding any other provisions of this Act, an arrangement pertaining to the protection of the interests of said employees may be entered into after September 18, 1940, by any carrier or carriers by railroad and the duly authorized representative or representatives of its or their employees.

(2) In any case arising under this paragraph which involves a common carrier by railroad, the Commission shall—

(i) within 90 days after the date on which an application is filed with the Commission and after a certified copy of such application is furnished to the Secretary of Transportation, (A) publish notice thereof in the Federal Register, or (B) if such application is incomplete, reject such application by order, which order shall be deemed to be final under the provisions of section 17 of this Appendix;

(ii) provide that written comments on an application, as to which such notice is published, may be filed within 45 days after the publication of such notice in the Federal Register;

(iii) require that copies of any such comments shall be served upon the Secretary of Transportation and the Attorney General, each of whom shall be afforded 15 days following the date of receipt thereof to inform the Commission whether he will join as a party to the proceeding, and if so, to submit preliminary views on such application;

(iv) require that all other applications, which are inconsistent, in whole or in part, with such applications, and all petitions for inclusion in the transaction, shall be filed with the Commission and furnished to the Secretary of Transportation, within 90 days after the publication of notice of the application in the Federal Register;

(v) conclude any evidentiary proceedings within 210 days following the date of such publication of notice, except that in the case of an application involving the merger or control of two or more class I railroads, as defined by the Commission, the Commission shall conclude any evidentiary proceedings not later than 34 days following the date upon which notice of the application was published in the Federal Register; and

(vi) issue a final decision within 180 days following the date upon which the evidentiary proceeding is completed.

If the Commission fails to issue a decision which is final within the meaning of section 17 of this Appendix within such 180-day period, it shall notify the Congress in writing of such failure and the reasons therefor. If the Commission determines that the due and timely execution of its functions under this paragraph so requires, or that an application brought under this paragraph is of major transportation importance, it may order that the case be referred directly (without an initial decision by a division, individual Commissioner, board, or administrative law judge) to the full Commission for its decision which is final within the meaning of section 17 of this Appendix.

(2) The Secretary of Transportation may propose any modification of any transaction governed by this paragraph which involves a carrier by railroad. The Secretary shall have standing to appear before the Commission in support of any such proposed modification.

(3) Expedited merger, consolidation, etc., procedure; applicability; prerequisites

(a) If a merger, consolidation, affiliation or coordination project (as described in section 8(c) of the Department of Transportation Act (now 49 U.S.C. 333(c))), joint use of tracks or other facilities, or acquisition or sale of assets, which involves any common carrier by railroad subject to the provisions of this chapter, is proposed by an eligible party in accordance with subdivision (b) of this paragraph during the period beginning on February 5, 1976, and ending on December 31, 1981, the party seeking authority for the execution or implementation of such transaction may utilize the procedure set forth in this paragraph or in paragraph (2) of this section.

(b) Any transaction described in subdivision (a) of this paragraph may be proposed to the Commission by—

(i) the Secretary of Transportation (hereafter in this paragraph referred to as the "Secretary"), with the consent of the common carriers by railroad subject to this chapter which are parties to such transaction; or

(ii) any such carrier which, not less than 6 months prior to such submission to the Commission, submitted such proposed transaction to the Secretary for evaluation pursuant to subdivision (f) of this paragraph.

(c) Whenever a transaction described in subdivision (a) of this paragraph is proposed under this paragraph, the proposing party shall submit an application for approval thereof to the Commission in accordance with such requirements as to form, content, and documentation as the Commission may prescribe. Within 10 days after the date of receipt of such an application, the Commission shall send a notice of such proposed transaction to—

(i) the Governor of each State which may be affected, directly or indirectly, by such transaction if it is executed or implemented;

(ii) the Attorney General;

(iii) the Secretary of Labor; and

(iv) the Secretary (except where the Secretary is the proposing party).

The Commission shall accompany its notice to the Secretary with a request for the report of the Secretary pursuant to clause (v) of subdivision (f) of this paragraph. Each such notice shall include a summary of such application; a summary of the proposed transaction involved, and the proposing party's reasons and public interest justifications therefor.

(d) The Commission shall hold a public hearing on each application submitted to it pursuant to subdivision (e) of this paragraph, within 90 days after the date of receipt of such application. Such public hearing shall be held before a panel of the Commission duly designated for such purpose by the Commission. Such panel may utilize administrative law judges and the Rail Services Planning Office in such manner as it considers appropriate for the conduct of the hearing, the evaluation of such application and comments thereon. and the timely and reasonable determination of whether it is in the public interest to grant such ap-
application and to approve such proposed transaction pursuant to subdivision (g) of this paragraph. Such panel shall complete such hearing within 180 days after the date of referral of such application to such panel, and it may, in order to meet such requirement, prescribe such rules and make such findings as may tend to avoid unnecessary costs or delay. Such panel shall recommend a decision and certify the record to the full Commission for final decision, within 90 days after the termination of such hearing. The full Commission shall hear oral argument on the matter so certified, and it shall render a final decision within 120 days after receipt of the certified record and recommended decision of such panel. The Commission may, in its discretion, extend any time period set forth in this subdivision, to the full Commission for final decision. The full Commission shall render a final decision within 90 days after the termination of such hearing. The full Commission shall hear oral argument on the matter so certified, and shall render a final decision within 120 days after receipt of the certified record and recommended decision of such panel. The Commission may, in its discretion, extend any time period set forth in this subdivision, to the full Commission for final decision.

(c) The Commission may—

(i) approve a transaction proposed under this paragraph, if the Commission determines that such proposed transaction is in the public interest; and

(ii) condition its approval of any such proposed transaction on any terms, conditions, and modifications which the Commission determines are in the public interest; or

(iii) disapprove any such proposed transaction, if the Commission determines that such proposed transaction is not in the public interest. In such case, the decision of the Commission shall be accompanied by a written opinion setting forth the reasons for its action.

(d) Noncarrier deemed carrier upon acquiring control

Whenever a person which is not a carrier is authorized, by an order entered under paragraph (2) of this section, to acquire control of any carrier or two or more carriers, such person thereafter shall, to the extent provided by the Commission in such order, be considered to be a subject carrier to such of the following provisions as are applicable to any carrier involved in such acquisition of control: Sections 201(1) to (10), 304(a)(1) and (2), 320 and 913 of this Appendix, (which relate to reports, accounts, and so forth, of carriers), and Sections 2062(a)(1) to (11), and 314 of this Appendix, (which relate to issues of securities and assumptions of liability of carriers), including in each case the penalties applicable in the case of violations of such provisions. In the application of such provisions of sections 2062(a)(1) to (11), and 314 of this Appendix, (which relate to issues of securities and assumptions of liability of carriers), including in each case the penalties applicable in the case of violations of such provisions, the Commission shall authorize the issue or assumption applied for only if it finds that such issue or assumption is consistent with the proper performance of its service to the public by such carrier which is transferred the control of such person, that it will not impair the ability of such carrier to perform such service, and that it is otherwise consistent with the public interest.

(e) Control effected by other than prescribed methods

It shall be unlawful for any person, except as provided in paragraphs (2) and (3) of this section, to enter into any transaction within the scope of subdivision (a) of paragraph (3) of this section, or to accomplish or effectuate, or to participate in accomplishing or effectuating, the control or management in a common interest of any two or more carriers, however such result is attained, whether directly or indirectly, by use of common directors, officers, or stockholders, a holding or investment company or companies, a voting trust or trusts, or in any other manner whatsoever. It shall be unlawful to continue to maintain control or management accomplished or effectuated after the enactment of this amendatory paragraph and in violation of its provisions. As used in this paragraph and paragraph (8) of this section, the words "control or management" shall be construed to include the power to exercise control or management.

(f) Transactions deemed to effectuate control or management

For the purposes of this section, but not in anywise limiting the application of the provisions thereof, any transaction shall be deemed to accomplish or effectuate the control or management in a common interest of two carriers—

(a) if such transaction is by a carrier, and if the effect of such transaction is to place such carrier
and persons affiliated with it, taken together, in control of another carrier.

(b) If such transaction is by a person affiliated with a carrier, and if the effect of such transaction is to place such person and persons affiliated with it, taken together, in control of another carrier;

(c) If such transaction is by two or more persons acting together, one of whom is a carrier or is affiliated with a carrier, and if the effect of such transaction is to place such persons and carriers and persons affiliated with them, taken together, in control of another carrier.

(7) Affiliation with a carrier defined

For the purposes of this section a person shall be held to be affiliated with a carrier if, by reason of the relationship of such person to such carrier (whether by reason of the method of, or circumstances surrounding organization or operation, or whether established through common directors, officers, or stockholders, a voting trust or trusts, a holding or investment company or companies, or any other direct or indirect means), it is reasonable to believe that the affairs of any carrier of which control may be acquired by such person will be managed in the interest of such other carrier.

(8) Investigation by Commission of effects of control by nonprescribed methods

The Commission is authorized, upon complaint or upon its own initiative without complaint, but after notice and hearing, to investigate and determine whether any person is violating the provisions of paragraphs (5), (6), (7) of this section. If the Commission finds after such investigation that such person is violating the provisions of such paragraph, it shall by order require such person to take such action as may be necessary, in the opinion of the Commission, to prevent continuance of such violation. The provisions of this paragraph shall be in addition to, and not in substitution for, any other enforcement provisions contained in this chapter; and with respect to any violation of paragraphs (2) to (13) of this section, any penalty provision applying to such a violation by a common carrier subject to this chapter shall apply to such a violation by any other person.

(10) Jurisdiction of injunctions, etc., against violations of section or orders

The district courts of the United States shall have jurisdiction upon the complaint of the Commission, alleging a violation of any of the provisions of this section or of disobedience of any order issued by the Commission thereunder by any person, to issue such writs of injunction or other proper process, mandatory or otherwise, as may be necessary to restrain such person from violation of such provision or to compel obedience to such order.

(11) Supplemental orders by Commission

The Commission may from time to time, for good cause shown, make such orders, supplemental to any order made under paragraph (1), (2) or (8) of this section, as it may deem necessary or appropriate.

Nothing in this section shall be construed to require the approval or authorization of the Commission in the case of a transaction within the scope of paragraph (2) of this section where the only parties to the transaction are street, suburban, or interurban electric railways none of which is controlled by or under common control with any carrier which is operated as part of a general steam railroad system of transportation.

(12) Plenary nature of authority under section

The authority conferred by this section shall be exclusive and plenary, and any carrier or corporation participating in or resulting from any transaction approved by the Commission thereunder, shall have full power (with the consent, in the case of a purchase and sale, a lease, a corporate consolidation, or a corporate merger, of a majority, unless a different vote is required under applicable law, in which case the number so required shall assent, of the votes of the holders of the shares entitled to vote of the capital stock of such corporation at a regular meeting of such stockholders, the notice of such meeting to include such purpose, or at a special meeting thereof called for such purpose) to carry such transaction into effect and to own and operate any properties and exercise any control or franchises acquired through said transaction without invoking any approval under State authority; and any carriers or other corporations, and their officers and employees and any other persons, participating in a transaction approved or authorized under the provisions of this section shall be and they are relieved from the operation of the antitrust laws and of all other restraints, limitations, and prohibitions of law, Federal, State, or municipal, insofar as may be necessary to enable them to carry into effect the transaction so approved or provided for in accordance with the terms and conditions, if any, imposed by the Commission and to hold, maintain, and operate any properties and exercise any control or franchises acquired through such transaction. Nothing in this section shall be construed to create or authorize the creation, directly or indirectly, of a Federal corporation, but any powers granted by this section to any carrier or other corporation shall be deemed to be in addition to and in modification of its powers under its corporate charter or under the laws of any State.

(13) Separability clause

If any provision of the foregoing paragraphs of this section, or the application thereof to any person or circumstance, is held invalid, such invalidity shall not affect the validity of any other provision of such paragraphs, or the application of such provision to any other person or circumstance, shall not be affected thereby.

(14) "Carrier" defined

As used in paragraphs (2) to (13) of this section, inclusive, the term "carrier" means a carrier by railroad and an express company and a sleeping-car company, and a motor carrier subject to chapter 8 of this Appendix; and a water carrier subject to chapter 12 of this Appendix.

(15) Interest in competing water carrier prohibited

Notwithstanding the provisions of paragraph (2) of this section, from and after the first day of July 1914, it shall be unlawful for any carrier, as defined in section 1(3) of this Appendix, or (after September 18, 1940) any person controlling, controlled by, under common control with, such a carrier to own, lease, operate, control, or have any interest whatsoever (by stock ownership or otherwise, either directly, indirectly, through any holding company, or by stockholders or directors in common, or in any other manner) in any common carrier by water operated through the Panama Canal or elsewhere with which such carrier aforesaid does or may compete for traffic or any vessel carrying freight or passengers upon said water route or elsewhere with which said railroad or other carrier aforesaid does or may compete for traffic; and in case of the violation of this provision each day in which
such violation continues shall be deemed a separate offense.

(16) Determination of fact of competition

Jurisdiction is conferred on the Commission to determine questions of fact, arising under paragraph (15) of this section, as to the competition or possibility of competition, after full hearing, on the application of any railroad company or other carrier. Such application may be filed for the purpose of determining whether any existing service is in violation of such paragraph and may pray for an order permitting the continuance of any vessel or vessels already in operation, or may pray for an order under the provisions of paragraph (17) of this section. The Commission may on its own motion or the application of any shipper institute proceedings to inquire into the operation of any vessel in use by any railroad company or other carrier which has not applied to the Commission and has had the question of competition or the possibility of competition determined as herein provided. In all such cases the order of said Commission shall be final.

(17) Permission of interest in competing water carrier

Notwithstanding the provisions of paragraph (15) of this section, the Commission shall have authority, upon application of any carrier, as defined in section 1(3) of this Appendix, and after hearing, by order to authorize such carrier to own or acquire ownership of, to lease or operate, to have or acquire control of, or to have or acquire an interest in, a common carrier by water, to operate through the Panama Canal, with which the applicant does or may compete for traffic. If the Commission shall find that the continuance or acquisition of such ownership, lease, operation, control, or interest will not prevent such common carrier by vessel from being operated in the interest of the public and with advantage to the convenience and commerce of the people, and that it will not exclude, prevent, or reduce competition on the route by water under consideration: Provided, That if the transaction or interest sought to be entered into, continued, or acquired is within the scope of paragraph (2(a) of this section, the provisions of paragraph (2) of this section shall be applicable there­ to in addition to the provisions of this paragraph: And provided further. That no such authorization shall be necessary if the carrier having the ownership, lease, operation, control, or interest has, prior to September 18, 1940, obtained an order of extension under the provisions of section 45 of this section, as in effect prior to such date, and such order is still in effect.

Section, act June 18, 1933, ch. 91, title II, § 204, 48 Stat. 230, related to continuing applicability of statutes to combinations and consolidations existing prior to June 18, 1933. For disposition of this section in revised Title 49, Transportation, see Table at beginning of Title 49.

For purposes of this section—

(A) The term "carrier" means any common carrier subject to chapter 1 (other than a common carrier by railroad), 8, or 12 of this Appendix or any freight forwarder subject to chapter 13 of this Appendix; and

(B) The term "antitrust laws" has the meaning assigned to such term in section 1 of the Act approved October 15, 1914 (15 U.S.C. 12).

(2) Application to Commission for approval of agreements; rules and regulations

Any carrier party to an agreement between or among two or more carriers relating to rates, fares, classifications, divisions, allowances, or charges (including charges between carriers and compensation paid or received for the use of facilities and equipment), or rules and regulations pertaining thereto, or any other agreement for the joint consideration, issuance, or establishment thereof, may, under such rules and regulations as the Commission may prescribe, apply to the Commission for approval of the agreement, and the Commission shall by order approve any such agreement if it finds that, by reason of furtherance of the national transportation policy declared in this Act, the relief provided in paragraph (9) of this section should apply with respect to the making and carrying out of such agreement; otherwise the application shall be denied. The approval of the Commission shall be granted only upon such terms and conditions as the Commission may prescribe as necessary to enable it to grant its approval in accordance with the standard above set forth in this paragraph.

(3) Maintenance of accounts and records by conferences, bureaus, committees, etc.

Each conference, bureau, committee, or other organization established or continued pursuant to any agreement approved by the Commission under the provisions of this section shall maintain such accounts, records, files, and memoranda, and shall submit to the Commission such reports, as may be prescribed by the Commission, and all such accounts, records, files, and memoranda shall be subject to inspection by the Commission or its duly authorized representatives.

(4) Agreements between carriers of different classes

The Commission shall not approve under this section any agreement between or among carriers of different classes unless it finds that such agreement is of the character described in paragraph (3) of this section and is limited to matters relating to transportation under joint rates or over through routes; and for purposes of this paragraph carriers by railroad, express companies, and sleeping-car companies are carriers of one class; pipe-line companies are carriers of one class; carriers by motor vehicle are carriers of one class; carriers by water are carriers of one class; and freight forwarders are carriers of one class.

(5) Pooling or division agreements

The Commission shall not approve under this section any agreement which it finds is an agreement with respect to a pooling, division, or other matter or transaction, to which section 5 of this Appendix is applicable.

(6) Agreements for determining matters through joint consideration

The Commission shall not approve under this section any agreement which establishes a procedure for the determination of any matter through joint consid-
(7) Investigation of prior approved agreements: termination or modification of approval; effective date

The Commission, in its discretion, is authorized to investigate or upon its own initiative without complaint, to investigate and determine whether any agreement previously approved by it under this section, or terms and conditions upon which such approval was granted, is not or are not in conformity with the standard set forth in paragraph (2) of this section, or whether any such terms and conditions are not necessary for purposes of conformity with such standard, and, after such investigation, the Commission shall by order terminate or modify its approval of such agreement if it finds such action necessary to insure conformity with such standard, and shall modify the terms and conditions upon which such approval was granted to the extent it finds necessary to insure conformity with such standard or to the extent to which it finds such terms and conditions not necessary to insure such conformity. The effective date of any order terminating or modifying approval under this paragraph shall be postponed for such period as the Commission determines to be reasonably necessary to avoid undue hardship.

(8) Hearings

No order shall be entered under this section except after interested parties have been afforded reasonable opportunity for hearing.

(9) Relief from operation of antitrust laws

Parties to any agreement approved by the Commission under this section and other persons are, if the approval of such agreement is not prohibited by paragraph (4), (5), or (6) of this section, relieved from the operation of the antitrust laws with respect to the making of such agreement, and with respect to the carrying out of such agreements in conformity with its provisions and in conformity with the terms and conditions prescribed by the Commission.

(10) Effect of Commission's action

Any action of the Commission under this section in approving an agreement, or in denying an application for such approval, or in terminating or modifying its approval of an agreement, or in prescribing the terms and conditions upon which its approval is to be granted, or in modifying such terms and conditions, shall be construed as having effect solely with reference to the applicability of the relief provisions of paragraph (9) of this section.

Section repealed subject to an exception related to transportation of oil by pipeline. For disposition of this section in revised Title 49, Transportation, see Table at beginning of Title 49. See, also, notes following Table. Prior to repeal, section read as follows:

85c. Agreements between common carriers by railroad subject to this chapter

(1) Definitions

Except as used in this section, the term—

(a) "affiliate" means any person directly or indirectly controlling, controlled by, or under common control or ownership with, any other person, and as used in this subdivision, the term (1) "control" has the same meaning as in section 1(3)(b) of this Appendix, and (1) "ownership" refers to equity holdings of 5 per centum or more in any business entity;

(c) "carrier" means any common carrier by railroad subject to this chapter.

(2) Application to Commission for approval of agreements; rules and regulations; criteria

Any carrier which is a party to an agreement, between or among two or more carriers, relating to rates, fares, classification, divisions, allowances, or charges (including charges between carriers and compensation paid or received for the use of facilities and equipment), or rules and regulations pertaining thereto, or procedures for the joint consideration, initiation, or establishment thereof, shall, under such rules and regulations as the Commission shall prescribe, apply to the Commission for approval of such agreement. The Commission shall, by order, approve any such agreement, if approval thereof is not prohibited by paragraph (4) or (5) of this section and if it finds, by reason of furtherance of the national transportation policy declared in this Act, the relief provided in paragraph (8) of this section should apply with respect to the making and carrying out of such agreement; otherwise the application is denied. No order shall be granted or continued (a) if any of the terms and conditions which are prescribed under the last sentence of this paragraph are violated or not complied with, or (b) unless the Commission finds a written statement (and any written supplement or addendum thereto requested by the Commission) setting forth, with respect to each carrier which is a party to such agreement (i) its name, (ii) the mailing address and telephone number of its headquarters, (iii) the names of each of its affiliates, (iv) the names of each of its officers, and directors and of each person who, together with any affiliate, owns or controls any debt, equity, or security interest in it having a value of $1,000,000 or more, and (v) such other information as the Commission directs to be included. The approval of the Commission shall be granted only upon such terms and conditions as the Commission determines necessary to enable its approval to be granted in accordance with the standard set forth in this paragraph.

(3) Maintenance of accounts and records by conferences, bureaus, committees, etc.; investigative and reporting powers of Commission

Each conference, bureau, committee, or other organization established or continued pursuant to any agreement approved by the Commission under the provisions of this section shall maintain such accounts, records, files, and memoranda and shall submit to the Commission such reports, as may be prescribed by the Commission. All such accounts, records, files, and memoranda shall be subject to examination and audit by the Commission or its duly authorized representatives. The Commission may conduct investigations, take reports, issue subpoenas, conduct hearings, require the production of relevant documents, records, and property, copy and verify the correctness of information subject to inspection, and take depositions (a) to determine whether any such conference, bureau, committee, or other organization, or any carrier which is a party to any such agreement, has acted or is acting in compliance with the provisions of this section, regulations issued under this section, and the public interest, (b) to determine whether any such organization or carrier is inhibiting an efficient utilization of transportation resources or has established practices which are inconsistent with efficient, flexible, and economic operation, and (c) for such other purposes as the Commission considers appropriate.
(4) Pooling or division agreements

The Commission shall not approve under this section any agreement which it finds is an agreement with respect to a pooling, division, or other matter or transaction to which section 5 of this Appendix is applicable.

(5) Agreements for determining matters through joint consideration; limitations

(a) The Commission shall not approve under this section a pooling or division agreement which establishes a procedure for the determination of any matter through joint consideration, unless it finds that under the agreement there is accorded to each party the free and unrestrained right to take independent action, without fear of retribution by any party, at any time before or after any determination arrived at through such procedure. In no event shall any conference, bureau, committee, or other organization established or continued pursuant to any agreement approved by the Commission under the provisions of this section—

(i) permit participation in agreements with respect to, or for the determination of, any agreement which it finds is an agreement with respect to a pooling, division, or other matter or transaction to which section 5 of this Appendix is applicable,

(ii) permit any carrier to participate in agreements with respect to, or for the determination of, any agreement which it finds is an agreement with respect to a pooling, division, or other matter or transaction to which section 5 of this Appendix is applicable, unless such carrier can practically participate in such movement; or

(iii) permit, provide for, or establish any procedure for joint consideration or any joint action to protest or otherwise seek the suspension of any rate or classification filed by a carrier of the same mode pursuant to section 15(8) of this Appendix where such rate or classification is established by independent action.

As used in clause (i) of this subdivision, a single-line rate, allowance, or charge is one that is proposed by a single carrier applicable only over its own line and as to which the service (exclusive of terminal services provided by switching, drayage, or other terminal carriers or agencies) can be performed by such carrier.

(b) The limitations set forth in subdivision (a) of this section shall not be applicable to—

(i) general rate increases or decreases, if the agreements accord the shipping public, under specified procedures, adequate notice of at least 15 days of such proposals and an opportunity to present comments thereon, in writing or otherwise, prior to the filing with the Commission of the tariffs containing such increases or decreases, or

(ii) broad tariff changes if such changes are of general application or substantially general application throughout a territory or territories within which such changes are to be applicable.

In any proceeding in which it is alleged that a carrier voted or agreed upon a rate, allowance, or charge, in violation of the provisions of this section, the party alleging such violation shall have the burden of proving that such vote or agreement occurred. A showing of parallel behavior is not, by itself, sufficient to satisfy such burden.

(6) Investigation of prior approved agreements; termination or modification of approval; effective date; review of approval; report to President and Congress; termination or modification of approval

(a) The Commission is authorized, upon complaint or upon its own initiative without complaint, to investigate and determine whether any agreement previously approved by it under this section, or terms and conditions under which such approval was granted, is not or are not in conformity with the standards set forth in paragraph (2) of this section and with the public interest, and whether any such terms and conditions are not necessary or whether any additional or modified terms and conditions are necessary for purposes of conformity with such standard. After any such investigation the Commission shall, by order, terminate or modify its approval of such an agreement if it finds such action necessary to insure conformity with such standard, and shall modify the terms and conditions upon which such approval was granted to the extent it finds necessary to insure conformity with such standard or to the extent to which it finds such terms and conditions not necessary to insure such conformity. The effective date of any order terminating or modifying approval, or modifying terms and conditions, shall be postponed for such period as the Commission determines to be reasonably necessary to avoid undue hardship.

(b) The Commission shall periodically, but not less than once every 3 years, review each agreement which the Commission has by order approved under this section to determine whether such agreement, or any conference, bureau, committee, or other organization established or continued pursuant to such agreement, still conforms with the standard set forth in paragraph (2) of this section and the public interest, and to evaluate the success and effect upon the consuming public and the national rail freight transportation system of such agreement and organization. The Commission shall report to the President and to the Congress on the results of such reviews, as part of its annual report pursuant to section 21 of this Appendix. If the Commission makes a determination that any such agreement or organization is no longer in conformity with such standard, the Commission shall by order terminate or suspend its approval thereof.

(7) Hearings

No order shall be entered under this section except after interested parties have been afforded a reasonable opportunity for a hearing.

(8) Relief from operation of antitrust laws

Parties to any agreement approved by the Commission under this section and other persons are, if the approval of such agreement is no (not) prohibited by paragraph (4) or (5) of this section, hereby relieved from the operation of the antitrust laws with respect to the making of such agreement, and with respect to the carrying out of such agreement in conformity with its provisions and in conformity with the terms and conditions prescribed by the Commission.

(9) Applicability of Commission's section

Any section of the Commission under this section (a) in approving an agreement, (b) in denying an application for such approval, (c) in terminating or modifying such approval, (d) in prescribing the terms and conditions upon which such approval is to be granted, or (e) in modifying such terms and conditions, shall be construed as having effect solely with reference to the applicability of the relief provisions of paragraph (8) of this section.

(10) Periodic assessment and report by Federal Trade Commission to Commission regarding agreements, etc.: consultations; availability of report

The Federal Trade Commission, in consultation with the Antitrust Division of the Department of Justice, shall periodically prepare an assessment of, and shall report to the Commission on (a) any possible anticompetitive features of (i) any agreements approved or submitted for approval under this section, and (ii) any conference, bureau, committee, or other organization operating under such agreements, and (b) possible ways to eliminate or alleviate any such anticompetitive features, effects, or aspects in a manner that will further the goals of the national transportation policy and this Act. The Commission shall make such reports available to the public.

(11) Time for final disposition of rule, rate, or charge docketed with conferences, bureaus, committees, etc.

Any conference, bureau, committee, or other organization established or continued pursuant to any agreement approved by the Commission under this section shall make a final disposition with respect to any rule,

Section repealed subject to an exception related to transportation of oil by pipeline. For disposition of this section in revised Title 49, Transportation, see Table at beginning of Title 49. See, also, notes following Table.

Prior to repeal, section read as follows:

§ 6. Schedules and statements of rates, etc., joint rail and water transportation

(1) Schedule of rates, fares, and charges; filing and posting

Every common carrier subject to the provisions of this chapter shall file with the Commission created by this chapter and print and keep open to public inspection schedules showing all the rates, fares, and charges for transportation between different points on its own route and between points on its own route and points on the route of any other carrier by railroad, pipeline, or by water when a through route and joint rate have been established. If no joint rate over the through route has been established, the several carriers in such through route shall file, print, and keep open to public inspection, as aforesaid, the separately established rates, fares, and charges applied to the through transportation. The schedules printed as aforesaid by any such common carrier shall plainly state the places between which property and passengers will be carried, and shall contain the classification of the freight to be transported, and shall also state separately all terminal charges, storage charges, icing charges, and all other charges which the Commission may require, all privileges or facilities granted or allowed, and any rules or regulations which in any wise change, affect, or determine any part of the aggregate of such aforesaid rates, fares, and charges, or the value of the service rendered to the passenger, shipper, or consignee. Such schedules shall be plainly printed in large type, and copies for the use of the public shall be kept posted in all public and conspicuous places in each railroad station, railroad vehicle, or other place or conveyance where freight or freight, respectively, are received for transportation, in such form that they shall be accessible to the public and can be conveniently inspected. The provisions of this section shall apply to all traffic, transportation, and facilities defined in this chapter.

(2) Schedule of rates through foreign country

Any common carrier subject to the provisions of this chapter receiving freight in the United States to be carried through a foreign country to any place in the United States shall also in like manner print and keep open to public inspection, at every depot or office where freight is received for shipment, schedules showing the through rates established and charged by such common carrier to all points in the United States beyond the foreign country to which it accepts freight for shipment; and any freight shipped from the United States through a foreign country into the United States the through rate on which shall not have been made public, as required by this chapter, shall, before it is admitted into the United States from said foreign country, be subject to customs duties as if said freight were of foreign production.

(3) Change in rates, fares, etc.; notice required; simplification of schedules

No change shall be made in the rates, fares, and charges or joint rates, fares, and charges which have been filed and published by any common carrier in compliance with the requirements of this section, except after thirty days' notice to the Commission and to the public published as aforesaid, which shall plainly state the changes proposed to be made in the schedule then in force and the time when the changed rates, fares, or charges will go into effect; and the proposed changes shall be shown by printing new schedules, or shall be plainly indicated upon the schedules in force at the time and kept open to public inspection. Provided, That the Commission may, in its discretion and for good cause shown, allow changes less than the notice herein specified, or modify the requirements of this section in respect to publishing, posting, and filing of tariffs, either in particular instances or by a general order applicable to special or peculiar circumstances or conditions. Provided further, That the Commission is authorized to make suitable rules and regulations for the simplification of schedules of rates, fares, charges, and classifications and to permit in such rules and regulations the filing of an amendment of or change in any rate, fare, charge, or classification without filing complete schedules covering rates, fares, charges, or classifications not changed if, in its judgment, not inconsistent with the public interest.

(4) Joint tariffs

The names of the several carriers which are parties to any joint tariff shall be specified therein, and each of the parties thereto, other than the one filing the same, shall file with the Commission such evidence of concurrence therein or acceptance thereof as may be required or approved by the Commission. Where such evidence of concurrence or acceptance is filed it shall not be necessary for the carriers filing the same to also file copies of the tariffs in which they are named as parties.

(5) Copies of traffic contracts to be filed

Every common carrier subject to this chapter shall file with said Commission copies of all contracts, agreements, or arrangements, with other common carriers, in relation to any traffic handled by the provisions of this chapter to which it may be a party; Provided, however, That the Commission, by regulations, may provide for exceptions from the requirements of this paragraph in the case of any class or classes of contracts, agreements, or arrangements, the filing of which, in its opinion, is not necessary in the public interest.

(6) Form and manner of publishing, filing, and posting schedules; incorporation of rates into individual tariffs; time for incorporation; rejection of schedules; unlawful use

The schedules required by this section to be filed shall be published, filed, and posted in such form and manner as the Commission by regulation shall prescribe. The Commission shall, beginning 2 years after February 5, 1976, require (a) that all rates shall be incorporated into the individual tariffs of each common carrier by railroad subject to this chapter or rail rate-making association within 2 years after the initial publication of the rates, or within 2 years after a change in any rate is approved by the Commission, whichever is later, and (b) that any rate shall be null and void with respect to any such carrier or association which does not incorporate such rate into its individual tariff in 1976. The Commission may, upon good cause shown, extend such period of time. Notice of any such extension and a statement of the reasons therefor shall be promptly transmitted to the Congress. The Commission is authorized to reject any schedule filed with it which is not in accordance with this section and with such regulations. Any schedule so rejected by the Commission shall be void and its use shall be unlawful.

(7) Transportation without filing and publishing rates forbidden; rebates; privileges

No carrier, unless otherwise provided by this chapter, shall engage or participate in the transportation of passengers or property, as defined in this chapter.
unless the rates, fares, and charges upon which the
same are transported by said carrier have been filed
and published in accordance with the provisions of
this chapter; nor shall any carrier charge or demand
or collect or receive a greater or less or different
compensation for such transportation of passengers
or property, or for any service in connection therewith,
between the points named in such tariffs than the
rates, fares, and charges which are specified in the
tariff filed and in effect at the time; nor shall any car­
rrier refund or remit in any manner or by any device
any portion of the rates, fares, and charges or
legates or facilities
rates, fares, and

or for any service in connection therewith, between the points named in such tariffs than the
rates, fares, and charges which are specified in the
tariff filed and in effect at the time; nor shall any car­
rrier refund or remit in any manner or by any device
any portion of the rates, fares, and charges so speci­
"fied, nor extend to any shipper or person any privi­
leges or facilities in the transportation of passengers
or property, except such as are specified in such tar­
iffs.

(8) Preference to shipments for United States

In time of war or threatened war, preference and
precedence shall, upon demand of the President of the
United States, be given, over all other traffic, for the
transportation of troops and material of war, and car­
rriers shall adopt every means within their control to
facilitate and expedite the military traffic. And in
the event of transportation of or by the military
forces of the United States for its use shall be delivered by the
carriers as promptly as possible and without regard to
any embargo that may have been declared, and no
such embargo shall apply to shipments so consigned.

(9) Schedule lacking notice of effective date

The Commission may reject and refuse to file any
schedule that is tendered for filing which does not
provide and give lawful notice of its effective date, and
any schedule so rejected by the Commission shall be
void and its use shall be unlawful.

(19) Penalty for failure to comply with regulations

In case of failure or refusal on the part of any car­
rrier, receiver, or trustee to comply with the terms of any
regulation adopted and promulgated or any order
made by the Commission under the provisions of this
section, such carrier, receiver, or trustee shall be liable to
a penalty of $500 for each such offense, and $25 for
each and every day of the continuance of such
offense, which shall accrue to the United States and
may be recovered in a civil action brought by the

(11) Jurisdiction of Commission over transportation by rail
and water

When property may be or is transported from point
to point in the United States by rail and water
through the Panama Canal or otherwise, the transpor­
tation being by a common carrier or carriers, and not
entirely within the limits of a single State, the Inter­
state Commerce Commission shall have jurisdiction of
such transportation and of the carriers, both by rail
and by water, which may or do engage in the same, in
the following particulars, in addition to the jurisdic­
tion otherwise given by this chapter:

(a) To establish physical connection between the
lines of the rail carrier and the dock at which inter­
change of passengers or property is to be made by di­
recting the rail carrier to make suitable connection be­
tween its line and a track or tracks which have been
constructed from the dock to the line of the railroad,
right-of-way, or by direct connection or both the rail
and water carrier, individually or in connection with
one another to construct and connect with the lines of
the rail carrier a track or tracks to the dock. The
Commission shall have full authority to determine and
prescribe the times and conditions upon which such
connecting tracks shall be operated, and it may, either
in the construction or the operation of such tracks, de­
termine what sum shall be paid to or by either carrier:
Provided, That construction required by the Com­
mssion under the provisions of this paragraph shall be
subject to the same restrictions as to findings of public
convenience and necessity and other matters as is con­
struction required under section 1 of this Appendix.

(b) To establish proportional rates or maximum, or
minimum, or maximum and minimum proportional
rates, by rail to and from the points to which the traf­
cic is brought, or from which it is taken by the water
carrier, and to determine to what traffic and in
connection with what vessels and up what terms and
conditions such rates shall apply. By proportional
rates are meant those which differ from the corre­
sponding local rates to and from the port and which
apply only to traffic which has been brought to the
port or is carried from the port by a common carrier
by water.

(12) Jurisdiction of Commission over carriers contracting
with water carriers operating to foreign ports

If any common carrier subject to this Act enters into
arrangements with any water carrier operating from a
port in the United States to a foreign country,

or collect or receive a greater or less or different
compensation for such transportation of passengers
or property, or for any service in connection therewith,

through the Panama Canal or otherwise, for the han­
dling of through business between interior points of
the United States and such foreign country, the Com­
mmission may by order require such common carrier to
enter into similar arrangements with any or all other
lines of steamships operating from said port to the
same foreign country.

in different cars, or by other means or devices, the
freightage from being continuous from the place of
shipment to the place of destination; and no break of

In any such action brought for the recovery of damages the court before which the same shall be pending may compel any director, officer, receiver, trustee, or agent of the corporation or company defendant in such suit to attend, appear, and testify in such case, and may compel the production of the books and papers of such corporation or company party to any such suit.

Section repealed subject to an exception related to transportation of oil by pipeline. For disposition of this section in revised Title 49, Transportation, see Table A' at beginning of Title 49. See also, notes following Table.

Prior to repeal, section read as follows:

§ 11. Interstate Commerce Commission: appointment, term, and qualifications of Commissioners

A commission is created and established to be known as the Interstate Commerce Commission, which shall be composed of seven Commissioners, who shall be appointed by the President, by and with the advice and consent of the Senate. The Commissioners appointed under this chapter and their successors, shall continue in office for terms of seven years, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the Commissioner whom he shall succeed. Of the Commissioners in office on January 1, 1926, the term of one shall expire December 31 in each of the years 1926, 1927, and 1928 and the terms of two shall expire December 31 in each of the years 1928, 1929, 1930, and 1931. Any Commissioner may be removed by the President for inefficiency, neglect of duty, or malfeasance in office. Not more than six of the Commissioners shall be appointed from the same political party. No person in the employ of or holding any official relation to any common carrier subject to the provisions of this chapter, or owning stock or bonds thereof, or who is in any manner pecuniarily interested therein, shall enter upon the duties of or hold such office. Said Commissioners shall have power to hold and sue in their own names, for the collection of every lien or charge for the transportation of property, and may exercise the power of mandamus and any other equitable relief. No vacancy in the Commission shall impair the right of the remaining Commissioners to exercise all the powers of the Commission. Upon the expiration of his term of office a Commissioner shall continue to serve until his successor is appointed and shall have qualified.

Section repealed subject to an exception related to transportation of oil by pipeline. For disposition of this section in revised Title 49, Transportation, see Table A' at beginning of Title 49. See also, notes following Table.

Prior to repeal, section read as follows:

§ 12. Authority and duties of Commission: witnesses; depositions

(1) Authority, duties, and proceedings of Commission; witnesses; exemption from applicability of chapter for persons, class of persons, etc.; procedures for establishment and revocation

(a) The Commission shall have authority, in order to perform the duties and carry out the objects for which it is created, to inquire into, and to regulate, manage, and control the business of all common carriers subject to the provisions of this chapter, and to inquire into and report on the management of the business of persons controlling, controlling by, or under a common control with, such carriers, to the extent that the business of such persons is related to the management of the business of one or more such carriers, and the Commission shall keep itself informed as to the manner and method in which the same are conducted. The Commission may obtain from such carriers and persons such information as the Commission deems necessary to carry out the provisions of this chapter, and may transmit to Congress from time to time such recommendations (including recommendations as to additional legislation) as the Commission may deem necessary.

The Commission is authorized and required to execute and enforce the provisions of this chapter, and, upon the request of the Commission, it shall be the duty of any United States attorney to whom the Commission may apply to institute in the proper court and to prosecute under the direction of the Attorney General of the United States a civil action for the enforcement of the provisions of this chapter and for the punishment of all violations thereof, and the costs and expenses of such prosecution shall be paid out of the appropriation for the expenses of the execution of the laws of the United States; but nothing in this chapter the Commission shall have power to require, by subpoena, the attendance and testimony of witnesses and the production of all books, papers, tariffs, contracts, agreements, and documents relating to any matter under investigation.

(b) Whenever the Commission determines, upon petition by the Secretary or an interested party or upon his own initiative, in matters relating to a common carrier by railroad subject to this chapter, after notice and reasonable opportunity for a hearing, that the application of the provisions of this chapter (i) to any person or class of persons, or (ii) to any services or transactions by reason of the limited scope of such services or transactions, is not necessary to effectuate the national transportation policy declared in this Act, would be an undue burden on such person or class of persons or on interstate and foreign commerce, and would serve little or no useful public purpose, it shall, by order, exempt such persons, class of persons, services, or transactions from the extent and for such period of time as may be specified in such order. The Commission may, by order, revoke any such exemption whenever it finds, after notice and reasonable opportunity for a hearing, that the application of the provisions of this chapter (i) to any exempted person, class of persons, services, or transactions, to the extent specified in such order, is necessary to effectuate the national transportation policy declared in this Act and to achieve effective regulation
by the Commission, and would serve a useful public purpose.

(2) Attendance of witnesses and production of documents

Such attendance of witnesses, and the production of any documentary evidence, may be required from any place in the United States, at any designated place of hearing. And in case of disobedience to a subpoena the Commission, or any party to a proceeding before the commission, may invoke the aid of any court of the United States in requiring the attendance and testimony of witnesses and the production of books, papers, and documents under the provisions of this section.

(3) Compelling attendance and testimony of witnesses, etc.

And any of the district courts of the United States within the jurisdiction of which such inquiry is carried on may, in case of contumacy or refusal to obey a subpoena issued to any common carrier subject to the provisions of this chapter, or other person, issue an order requiring such common carrier or other person to appear before said Commission (and produce books and papers if so ordered) and give evidence touching the matter in question; and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(4) Depositions

The testimony of any witness may be taken, at the instance of a party, in any proceeding or investigation depending before the Commission, by deposition, at any time after a cause or proceeding is in issue on petition and answer. The Commission may also order testimony to be taken by deposition in any proceeding or investigation pending before it, at any state or common carrier, or any clerk of a district court, or any chancellor, justice, or judge of a supreme or superior court, mayor or chief magistrate of a city, judge of a county court, or court of common pleas of any of the United States, or any notary public, not being of counsel or attorney to either of the parties, nor interested in the event of the proceeding or investigation. Reasonable notice must first be given in writing by the party or his attorney proposing to take such deposition to the opposite party or his attorney of record, as either may be nearest, which notice shall state the name of the witness and the time and place of the taking of his deposition. Any person may be compelled to appear and depose, and to produce documentary evidence, in the manner as witnesses may be compelled to appear and testify and produce documentary evidence before the Commission as hereinbefore provided.

(5) Oath: subscription of testimony on deposition

Every person depositing as herein provided shall be cautioned and sworn (or affirmed, if he so request) to testify the whole truth, and shall be carefully examined. His testimony shall be reduced to writing by the magistrate taking the deposition, or under his direction, and shall, after it has been reduced to writing, be subscribed by the deponent.

(6) Deposition in foreign country; filing of deposition

If a witness whose testimony may be desired to be taken by deposition be in a foreign country, the deposition shall be taken by a public officer, or a person designated by the Commission, or agreed upon by the parties by stipulation in writing to be filed with the Commission. All depositions must be promptly filed with the Commission.

(7) Fees for depositions

Witneses whose depositions are taken pursuant to this section or the production of any book or other document taking the same, shall severally be entitled to the same fees as are paid for like services in the courts of the United States.

Section repealed subject to an exception related to transportation of oil by pipeline. For disposition of this section in revised Title 49, Transportation, see Table at beginning of Title 49. See, also, notes following Table.

Prior to repeal, section read as follows:

§ 13. Complaints to and investigations by Commission

(1) Complaint to Commission of violation of law by carrier; reparation investigation

Any person, firm, corporation, company, or association, or any mercantile, agricultural, or manufacturing society or other organization, or any body politic or municipal organization, or any common carrier complaining of anything done or omitted to be done by any common carrier subject to the provisions of this chapter in contravenance of any provisions thereof, may apply to said Commission by petition, which shall briefly state the facts; whereupon a statement of the complaint thus made shall be forwarded by the Commission to such common carrier, who shall be called upon to satisfy the complaint, or to answer the same in writing, within a reasonable time, to be specified by the Commission. If such common carrier shall within the time specified shall make reparation for the injury alleged to have been done, the common carrier shall be relieved of liability to the complainant only for the particular provision of law thus complained of. If such carrier or carriers shall not comply with the complaint within the time specified or, if there shall appear to be any reasonable ground for investigating said complaint, it shall be the duty of the Commission to investigate the matters complained of in such manner and by such means as it shall deem proper.

(2) Complaints by State commissions; inquiry or Commission's own motion; expenses of State commissions

Said Commission shall, in like manner and with the same authority and powers, investigate any complaint forwarded by the railroad commissioner of railroad commissioners or any State or Territory at the request of such commissioner or commission, and the Interstate Commerce Commission shall have full authority and power at any time to institute an inquiry, on its own motion, in any case and as to any matter or thing concerning which a complaint is authorized to be made, to or before said Commission by any provision of this chapter, or concerning which any question may arise under any of the provisions of the chapter, or relating to the enforcement of any of the provisions of this chapter. And the said Commission shall have the same powers and authority to proceed with any inquiry instituted on its motion as though it had been appealed to by complaint or petition under any of the provisions of this chapter, including the power to make and enforce any order or orders in the case, or relating to the matter or thing concerning which the inquiry is had excepting orders for the payment of money. No complaint shall at any time be dismissed because of the absence of direct or indirect parties to the proceeding or to the hearing or the complaint or proceedings, nor shall the Representatives of State commissions sitting with the Commission, under the provisions of this section, in cases pending before the Commission, shall receive such allowances for travel and subsistence expense as the Commission shall provide.
(3) Investigation involving State regulations; conference of State and interstate commissions

Whenever in any investigation under the provisions of this chapter, or in any investigation instituted upon petition of the carrier concerned, which petition is authorized to be brought in this chapter, or in any investigation instituted upon petition of the carrier concerned, which petition is authorized to be brought in this chapter, any rate, fare, charge, classification, regulation, or practice, made or imposed by authority of any State, the Commission, before proceeding to hear and dispose of such issue, shall cause the State or States interested to be notified of the proceeding. The Commission may confer with the authorities of any State having jurisdictional over the cases of persons and corporations subject to this chapter or chapter 12 of this title with respect to the relationship between rate structures and practices of carriers subject to the jurisdiction of such State bodies and the Commission; and to that end is authorized and empowered, under rules to be prescribed by it, and which may be modified from time to time, to hold joint hearings with any such State regulating bodies on any matters wherein the Commission is empowered to act and with which its authority of a State is or may be affected by the action taken by the Commission. The Commission is also authorized to avail itself of the cooperation, services, records, and facilities of such State authorities in the enforcement of any provision of this chapter or chapter 12 of this Appendix.

(4) Duty of Commission where State regulations result in discrimination

Whenever in any such investigation the Commission, after full hearing, finds that any such rate, fare, charge, classification, regulation, or practice causes any undue or unreasonable disadvantage, preferential or prejudicial to persons or localities in intrastate commerce and interstate or foreign commerce on the other hand, or any undue, unreasonable, or unjust discrimination against, or undue burden on, interstate or foreign commerce (which the Commission may find will not separate a petition of intrastate and intrastate property, revenues, and expenses and without considering in totality the operations or results thereof of any carrier, or group or groups of carriers wholly within any State), which is hereby forbidden and declared to be unlawful, it shall prescribe the rate, fare, or charge, or the maximum or minimum, and the conditions, or the classification, regulation, or practice thereafter to be observed, in such manner as, in its judgment, will remove such advantage, preference, prejudice, discrimination, or burden. Such rates, fares, charges, classifications, regulations, and practices shall be observed while in effect by the carriers parties to such proceeding affected thereby, the law of any State or the decision or order of any State authority to the contrary notwithstanding.

(5) Exclusive authority to determine and prescribe intrastate rates; prerequisites; procedures

The Commission shall have exclusive authority, upon application to it, to determine and prescribe intrastate rates if—

(a) a carrier by railroad has filed with an appropriate administrative or regulatory body of a State, a change in an intrastate rate, or charge, or in the classification, regulation, or practice that has the effect of changing such a rate, fare, or charge, for the purpose of adjusting such rate, fare, or charge to the rate charged on similar traffic moving in interstate or foreign commerce; and

(b) no State administrative or regulatory body has, within 120 days after the date of filing of such application, acted finally on such change.

Notice of the application to the Commission shall be served on the appropriate State administrative or regulatory body. Upon the filing of such an application, the Commission shall determine and prescribe, according to the standards set forth in paragraph (4) of this section, the rate thereafter to be charged. The provisions of this paragraph shall apply notwithstanding the laws or constitution of any State, or the pendency of any proceeding before any State court or other State authority. Nothing in this paragraph shall affect the authority of the Commission to institute (instituted) an investigation or to act in such investigation as provided in paragraphs (3) and (4) of this section.

(6) Petition for commencement of proceeding for issuance, amendment, or repeal of order, etc., relating to common carriers by railroads; grant or denial; judicial review; limitations; definition

(a) Whenever, pursuant to section 553(e) of title 5, an interested person (including a government entity) petitions the Commission for the commencement of a proceeding for the issuance, amendment, or repeal of an order, rule, or regulation relating to common carriers by railroads under this Act, the Commission shall grant or deny such petition within 120 days after the date of receipt of such petition. If the Commission grants such a petition, it shall commence an appropriate proceeding as soon thereafter as practicable. If the Commission denies such a petition, it shall set forth, and publish in the Federal Register, its reasons for such denial.

(b) If the Commission denies a petition under subparagraph (a) or if it fails to act thereon within the 120-day period established by such subparagraph, the interested persons may commence a civil action in an appropriate court of appeals of the United States for an order directing the Commission to initiate a proceeding to take the action requested in such petition. Such an action shall be commenced within 60 days after the date of such denial or, where appropriate, within 60 days after the date of expiration of such 120-day period.

(c) If the petitioner, in an action commenced under subparagraph (b), demonstrates to the satisfaction of the court, by a preponderance of the evidence in the record before the Commission or, in an action based on a petition on which the Commission failed to act, in a new proceeding before such court, that the action requested in such petition to the Commission is necessary and that the failure of the Commission to take such action will result in the continuation of practices which are not consistent with the public interest or in accordance with this Act, such court shall order the Commission to initiate such action.

(d) If any action under this paragraph, a court shall have no authority to compel the Commission to take any action other than the issuance of a proceeding for the issuance, amendment, or repeal of an order, rule, or regulation under this Act.

(e) As used in this paragraph, the term "Commission" includes any division, individual Commissioner, administrative law judge, employee board, or any other person authorized to act on behalf of the Commission in any part of the proceeding for the issuance, amendment, or repeal of any order, rule, or regulation under this Act.

Prior to repeal, section read as follows:
§ 13a. Discontinuance or change of the operation or service of trains or ferries; notice; investigation; hearing; determination

(1) A carrier or carriers subject to this chapter, if the carrier or carriers, in whole or in part, change the operation or service of any train or ferry operating from a point in one State to a point in any other State or in the District of Columbia, or from a point in the District of Columbia to a point in any State, are subject to any provision of the Constitution or statutes of any State or any regulation or order of (or are the subject of any proceeding pending before) any court or an administrative or regulatory agency of any State, may, but shall not be required to, file with the Commission, and upon such filing, the Governor of each State in which such train or ferry is operated, any station, depot or other facility served thereby, notice at least thirty days in advance of any such proposed discontinuance or change. The carrier or carriers filing such notice may discontinue or change any such operation or service pursuant to such notice except as otherwise ordered by the Commission pursuant to this paragraph, the laws or constitution of any State, or the decision or order of, or the pendence of any proceeding before, any court or State agency to the contrary notwithstanding. Upon the filing of such notice, the Governor of each State shall have authority during the thirty days' notice period, either upon complaint or upon its own initiative without complaint, to enter upon an investigation of the proposed discontinuance or change. Upon the institution of such investigation, the Commission, by order served upon the carrier or carriers affected thereby at least ten days prior to the day on which such discontinuance or change would otherwise become effective, may require such train or ferry to be continued in operation or service, in whole or in part, for a period not to exceed one year from the date of such order. The provisions of this paragraph shall not supersede the laws of any State or the orders or regulations of any administrative or regulatory agency of any State applicable to such discontinuance or change unless notice as in this paragraph provided is filed with the Commission. On the expiration of any order by the Commission after such investigation requiring the continuance or restoration of operation or service, the jurisdiction of any State as to such discontinuance or change shall no longer be superseded unless the procedure provided by this paragraph shall again be invoked by the carrier or carriers.

(2) In the discontinuance or change, in whole or in part, by a carrier or carriers subject to this chapter, of the operation or service of any train or ferry operated wholly within the boundaries of a single State is prohibited by the Constitution or statutes of any State or where the State authority having jurisdiction thereof shall have denied an application or petition duly filed with it by said carrier or carriers for authority to discontinue or change, in whole or in part, the operation or service of such train or ferry, the carrier or carriers subject to this chapter, if the carrier or carriers, in whole or in part, change the operation or service of any such train or ferry and shall not have acted finally on such an application or petition within a hundred and twenty days from the presentation thereof, such carrier or carriers may petition the Commission for authority to effect such discontinuance or change. The Commission may grant such authority only after full hearing and upon findings by it (a) the present or future public convenience and necessity permit of such discontinuance or change, in whole or in part, of the operation or service of such train or ferry, and (b) the continued operation or service of such train or ferry without discontinuance or change, in whole or in part, will constitute an unjust and undue burden upon the interstate operations of such carrier or carriers or upon interstate commerce.

§ 14. Reports and decisions of Commission

(1) Reports of Investigations by Commission

Whenever an investigation shall be made by said Commission, it shall be its duty to make a report in writing in respect thereto, which shall state the conclusions of the Commission, together with its decision, order, or requirement in the premises; and in case damages are awarded, such report shall include the findings of fact on which the award is made.

(2) Record of reports; copies

All reports of investigations made by the Commission shall be entered of record, and a copy thereof shall be furnished to the party who may have complained, and to any common carrier that may have been complained of.

(3) Publication of reports and decisions; printing and distribution of annual reports

The Commission may provide for the publication of its reports and decisions in such form and manner as may be best adapted for public information and use, and such authorized publications shall be competent evidence of the reports and decisions of the Commission therein contained in all courts of the United States and of the several States without any further proof or authentication thereof. The Commission may also cause to be printed for early distribution its annual reports.

Section repealed subject to an exception related to transportation of oil by pipeline. Section 4(c) of Pub. L. 95-473, which amended this section subsequent to the repeal of this section by Pub. L. 95-473, was repealed by Pub. L. 96-258, effective July 1, 1980, as provided by section 3(c) of Pub. L. 96-258. Prior to repeal, section read as follows:
§ 13. Determination of rates, routes, etc.; routing of traffic; disclosures, etc.

(1) Commission empowered to determine and prescribe rates, classifications, etc.

Whenever, after full hearing, upon a complaint made as provided in section 13 of this Appendix, or after full hearing under an order for investigation and hearing made by the Commission on its own initiative, either in extension of any pending complaint or without any complaint whatever, the Commission shall be of opinion that any individual or joint rate, fare, or charge whatsoever demanded, charged, or collected by any common carrier or carriers subject to this chapter, or for the transportation of persons or property, as defined in section 1 of this Appendix, or that any individual or joint classification, regulation, or practice whatsoever of such carrier or carriers subject to the provisions of this chapter, is or will be unjust or unreasonable or unjustly discriminatory or unduly preferential or prejudicial, or otherwise in violation of any of the provisions of this chapter, the Commission is authorized and empowered to determine and prescribe what will be just and reasonable individual or joint rate, fare, or charge, or rates, fares, or charges, to be thereafter observed in such case, or the maximum or minimum, or maximum and minimum, to be charged, and what individual or joint classification, regulation, or practice is or will be just, fair, and reasonable, and to establish and set aside by its order, or to make such order as the carrier or carriers shall cease and desist from such violation to the extent to which the Commission finds that the same does or will exist, and shall not thereafter publish, demand, or collect any rate, fare, or charge for such transportation other than the rate, fare, or charge so prescribed, or in excess of the maximum or less than the minimum so prescribed, as the case may be, and shall adopt the classification and shall conform to and observe the regulation or practice so prescribed.

(2) Orders of Commission

Except as otherwise provided in this chapter, all orders of the Commission, other than orders for the payment of money, shall take effect within such reasonable time as the Commission may prescribe. Such orders shall continue in force until its further order, or for a specified period of time, according as shall be prescribed or determined, unless the same shall be suspended or modified or set aside by the Commission, or be suspended or set aside by a court of competent jurisdiction.

(3) Establishment of through routes, joint classifications, joint rates, fares, etc.

The Commission may, and it shall whenever deemed by it to be necessary or desirable in the public interest, after full hearing upon complaint or upon its own initiative without complaint, establish through routes, joint classifications, and joint rates, fares, or charges, applicable to the transportation of passengers or property by carriers subject to this chapter, or by carriers by railroad subject to this chapter and common carriers by water subject to chapter 12 of this Appendix, or the maximum or minimum, or maximum and minimum, to be charged, and the divisions of such rates, fares, or charges, respectively, to be thereafter observed, and the terms and conditions under which such through routes shall be operated. The Commission shall not, however, establish any through route, classification, or practice, or any rate, fare, or charge, between street electric passenger or general business or transporting freight in addition to their passenger and express business, and railroads of a different character. If any tariff or schedule canceling any through route or joint rate, fare, charge, or classification, without the consent of the carriers parties thereto or authorized by the Commission is suspended by the Commission for investigation, the burden of proof shall be upon the carrier or carriers proposing such cancellation to show that it is consistent with the public interest, without regard to the provisions of paragraph (4) of this section. With respect to carriers by railroad, in determining whether any such cancellation or proposed cancellation involving any common carrier by railroad is consistent with the public interest, the Commission shall, to the extent applicable, compare the distance traversed and the average transportation time and expense required using the through route, and the distance traversed and the average transportation time and expense required using alternative routes, between the points served by such through route, (b) consider any reduction in energy consumption which may result from such cancellation, and (c) take into account the overall impact of such cancellation on the shippers and carriers who are affected thereby.

(4) Through routes to embrace entire length of railroad; temporary through routes

In establishing any such through route the Commission shall not (except as provided in section 3 of this Appendix, and except where one of the carriers is a water line) require any carrier by railroad, without its consent, to embrace in such route substantially less than the entire length of its railroad and of any intermediate railroad operated in conjunction and under a common management or control therewith, which lies between the terminal of such railroad and the point where such railroad could, unless such inclusion of lines would make the through route unreasonably long as compared with another practicable through route which could otherwise be established, or (b) unless the Commission finds that the through route proposed to be established is necessary in order to provide adequate, and more efficient, or more economic, transportation. However, that in prescribing through routes the Commission shall, so far as is consistent with the public interest, and subject to the foregoing limitations in clauses (a) and (b) of this paragraph, give reasonable preference to the carrier by railroad which originates the traffic. No through route and joint rates applicable thereto shall be established by the Commission for the purpose of assisting any carrier that would participate therein to meet its financial needs. In time of shortage of equipment, congestion of traffic, or other emergency declared by the Commission, it may (e) upon complaint or upon its own initiative without complaint, at once, if it so orders, without answer to other formal pleadings by the interested carrier or carriers, and with or without notice, hearing, or the making or filing of a report, according as the Commission may determine) establish temporarily such through routes as in its opinion are necessary or desirable in the public interest.

(5) Transportation of livestock in carload lots; services included

Transportation wholly by railroad of ordinary livestock in carload lots destined to or received at public stockyards shall include all necessary service of unloading and reloading on route, delivery at public stockyards of inbound shipments into suitable pens, and receipt and loading at such yards of outbound shipments, without extra charge therefor to the shipper, consignee, or owner, except in cases where the unloading or reloading on route is at the request of the shipper, consignee, or owner, or to try an intermediate market, or to comply with quarantine regulations. The Commission may prescribe or approve just and reasonable rules governing each of such excepted services. Provision in this paragraph shall be without prejudice to the duties and liabilities of the carriers existing on February 28, 1920, by virtue of law respecting the transportation of other than ordinary livestock, or the duty of performing service as to shipments other than those to or from public stockyards.
§ 15 TITLE 49, APPENDIX—TRANSPORTATION Page 546

(6) Commission to establish just divisions of joint rates, fares, or charges; adjustments; procedures applicable
(a) Whenever, after full hearing upon complaint or upon its own initiative, the Commission is of opinion that the provisions of joint rates, fares, or charges applicable to the transportation of passengers or property, are or will be unjust, unreasonable, inequitable, or unduly preferential or prejudicial as between the carriers parties thereto (whether agreed upon by such carriers, or any of them, or otherwise established), the Commission shall by order prescribe the just, reasonable, and equitable divisions thereof to be received by the several carriers, and in cases where the joint rate, fare, or charge was established pursuant to a finding or order of the Commission and the divisions thereof are found by it to have been unjust, unreasonable, or inequitable, or unduly preferential or prejudicial, the Commission may also by order determine what (for the period subsequent to the filing of the complaint or petition or the making of the order of investigation) would have been the just, reasonable and equitable divisions thereof to be received by the several carriers, and require adjustment to be made in accordance therewith. In so prescribing and determining the divisions of joint rates, fares, and charges, the Commission shall have due consideration, among other things, to the efficiency with which the carriers concerned are operated, the amount of revenue required to pay their respective operating expenses, taxes, and a fair return on their railway property held for and used in the service of transportation, the importance to the public of the transportation services of such carriers; and also whether any particular participating carrier is an originating, intermediate, or delivering line, and any other fact or circumstance which would ordinarily, without regard to the mileage haul, entitle one carrier to a greater or less proportion than another carrier of the joint rate, fare, or charge.

(b) Notwithstanding any other provision of law, the Commission shall, within 180 days after February 8, 1956, establish standards and procedures for the conduct of proceedings for the adjustment of divisions of joint rates or fares (whether prescribed by the Commission or otherwise) in accordance with the provisions of this paragraph. The Commission shall issue a final order in all such proceedings within 360 days after the submission to the Commission of a case. If the Commission is unable to issue such a final order within such time, it shall issue a report to the Congress setting forth the reasons for such inability.

(7) Commission to determine lawfulness of new rates; applicability to common carrier by railroad; suspensions; account; hearing and decision
(a) Whenever a schedule is filed with the Commission by a common carrier by railroad stating a new individual or joint rate, fare, or charge, or a new individual or joint classification, regulation, or practice affecting any rate, fare, or charge, the Commission shall have, and it is given, authority, either upon complaint or upon its own initiative, to suspend the execution of such complaint, at once, and if it so orders without answer or other formal pleading by the interested carrier or carriers, but upon reasonable notice, to enter upon a hearing concerning the lawfulness of such rate, fare, charge, classification, regulation, or practice and pending such hearing and the decision thereon the Commission, upon filing with such schedule and delivering to the carrier or carriers affected thereby a statement in writing of its reasons for such suspension, may from time to time suspend the operation of such schedule and define the use of such rate, fare, charge, classification, regulation, or practice, but not for a longer period than seven months beyond the time when it would otherwise go into effect; and if the proceeding has not been concluded and an order made within the period of suspension, the proposed change of rate, fare, charge, classification, regulation, or practice shall go into effect at the end of such period in case of a proposed increased rate or charge for or in respect to the transportation of property, the Commission may by order require the interested carrier or carriers to keep accurate account in detail of all amounts received by reason of such increased specification. In whom and in whose behalf such amounts are paid, and upon completion of the hearing and decision may by further order require the interested carrier or carriers to refund, with interest, to the persons in whose behalf such amounts were paid, such portion of such increased rates or charges by its decision found not justified. At any hearing involving a change in a rate, fare, charge, or classification, or in a rule, regulation, or practice, after September 18, 1940, the burden of proof shall be upon the carrier to show that the proposed changed rate, fare, classification, rule, regulation, or practice is just and reasonable, and the Commission shall give to the hearing and decision of such questions preference over all other questions pending before it and decide the same as speedily as possible. This paragraph shall not apply to common carriers by railroad subject to this chapter.
immediately at the expiration of such time period, or shall remain in effect if it has already become effective. Such rate, fare, charge, classification, regulation, or practice may be set aside thereafter by the Commission if, upon complaint of an interested party, the Commission finds it to be unlawful.

(b) Pending a hearing pursuant to subdivision (a), the schedule may be suspended, pursuant to subdivision (d), for more than 180 days beyond the time when it would otherwise go into effect, or for 10 months if the Commission makes a report to the Congress pursuant to subdivision (a), except under the following conditions:

(1) in the case of a rate increase, a rate may not be suspended on the ground that it exceeds a just and reasonable rate which is within a limit specified in subdivision (c), except that such a rate change may be suspended under any provision of section 2, 3, or 4 of this Appendix or, following promulgation of standards and procedures under section 1(5)(d) of this Appendix, if the carrier is found to have market dominance, within the meaning of section 1(5)(e)(k) of this Appendix, over the service to which such rate increase applies; or

(ii) in the case of a rate decrease, a rate may not be suspended on the ground that it is below a just and reasonable rate which is within a limit specified in subdivision (c), except that such a rate change may be suspended under any provision of section 2, 3, or 4 of this Appendix, or for the purposes of investigating such rate change upon a complaint that such rate change constitutes a competitive practice which is unfair, destructive, predatory or otherwise undermines competition which is necessary in the public interest.

(c) The limitations upon the Commission's power to suspend rate changes set forth in subdivisions (a) and (ii) apply only to rate changes which are not of general applicability to all or substantially all classes of traffic and only if-

(i) the rate increase or decrease is filed prior to July 1, 1980; and

(ii) the common carrier by railroad notifies the Commission that it wishes to have the rate considered pursuant to this subdivision; and

(iii) the aggregate of increases or decreases in any rate filing under this subdivision during any calendar year is not greater than 7 per centum of the rate in effect on January 1 of that year.

(d) The Commission may not suspend a rate under this paragraph unless it appears from specific facts shown by the verified complaint of any person affected, (i) without suspension the proposed rate change will cause substantial injury to the complainant or the party represented by such complainant; and

(ii) it is likely that such complainant will prevail on the merits.

The burden of proof shall be upon the complainant to establish the matters set forth in clauses (i) and (ii) of this subdivision. Nothing in this paragraph shall be construed as establishing a presumption that any rate increase or decrease in excess of the limits set forth in clause (iii) of subdivision (c) is unlawful or should be suspended.

(e) If any hearing is initiated under this paragraph with respect to a proposed increased rate, fare, or charge, and if the schedule is not suspended pending such hearing and the decision thereon, the Commission shall require the railroads involved to keep an account of all amounts received because of such increase over the period of the hearing or 7 months after the date, whichever first occurs, or, if the hearings are extended pursuant to subdivision (a), until an order is issued or until 10 months elapse, whichever first occurs, and on whose behalf the amounts are paid. In its final order, the Commission shall require the common carrier by railroad to refund to the person on whose behalf the amounts were paid that portion of such increased rate, fare, or charge found to be not justified, plus interest at a rate which is equal to the average yield (on the date such schedule is filed) of marketable securities of the United States, or 7 percentum, whichever is higher, and in either case plus 12 percentum. With respect to any proposed decreased rate, fare, or charge which is suspended, if the decrease or any part thereof is ultimately found to be unlawful, the common carrier by railroad may refund any part of the portion of such decreased rate, fare, or charge found not justified if such carrier requests, in good faith, that a refund be made available on an equal basis to all shippers who participated in such rate, fare, or charge according to the relative amounts of traffic shipped at such rate, fare, or charge.

In any hearing under this section, the burden of proof is on the common carrier by railroad to show that the proposed changed rate, fare, charge, classification, rule, regulation, or practice is just and reasonable. The Commission shall specifically consider, in any such hearing, proof that such proposed changed rate, fare, charge, classification, rule, regulation, or practice will have a significantly adverse effect (in violation of section 2 or 3 of this Appendix) on the competitive posture of shippers or consignees affected thereby. The Commission shall give such hearing and decision preference over all other matters relating to railroads proceeding before the Commission and shall make its decision at the earliest practicable time.

(8) Commission to investigate lawfulness of rates with respect to market dominance of common carrier by railroad; conclusiveness of findings; suspensions.

Following promulgation of standards under section 1(5)(d) of this Appendix, whenever a rate of a common carrier by railroad subject to this chapter is challenged as being unreasonable in the market context, the Commission shall, upon complaint or upon its own initiative and within 90 days after the commencement of a proceeding to investigate the lawfulness of such rate, determine whether the carrier proposing such rate has market dominance, within the meaning of section 1(5)(e)(k) of this Appendix, over the service to which such rate applies. If the Commission finds that such a carrier does not have such market dominance, such finding shall be determinative in all additional or other proceedings under this Act concerning such rate or service, unless (a) such finding is modified or set aside by the Commission, or (b) such finding is set aside by a court of competent jurisdiction. Nothing in this paragraph shall limit the Commission's power to suspend a rate pursuant to this section, except that if the Commission has found that such carrier does have such market dominance over the service to which a rate applies, the Commission may not suspend any increase in such rate on the ground that such rate as increased exceeds a just or reasonable maximum for such service, unless the Commission specifically modifies or sets aside its prior determination concerning market dominance over the service to which such rate applies.

(10) Shipper’s choice of route to be observed.

In all cases where at the time of delivery of property to any railroad corporation being a common carrier for transportation subject to the provisions of this chapter to any point of destination between which and the point of such delivery for shipment two or more through routes and through rates shall have been established as in this chapter provided to which through routes and through rates such carrier is a party, the person, firm, or corporation, subject to such reasonable exceptions and regulations as the Interstate Commerce Commission shall from time to time prescribe, shall have the right to designate in writing by which of such through routes and through rates such property shall be transported, and shall then thereupon be the duty of the initial carrier to route said property and issue a through bill of lading thereon so directed, and to transport said property over its own line or lines and deliver the
same to a connecting line or lines according to such through route, and it shall be the duty of each of said connecting carriers to receive said property and transport it over the said line or lines and deliver the same to the next succeeding carrier or consignee according to the instructions in said bill of lading. Provided, however, that the shipper shall in all instances have the right to determine, where competing lines of railroad constitute portions of a through line or route, over which of said competing lines so constituting a portion of said through line or route his freight shall be transported.  

(11) Liability of carriers where property is delivered contrary to routing instructions

Whenever property is diverted or delivered by one carrier to another carrier contrary to routing instructions in the bill of lading, unless such diversion or delivery is in compliance with a lawful order, rule, or regulation of the Commission, such carriers shall, in a suit or action in any court of competent jurisdiction, be jointly and severally liable to the carrier thus deprived of its right to participate in the haul of the property, for the total amount of the rate or charge it would have received had it participated in the haul of the property. The carrier to which the property is thus diverted shall not be liable in such suit or action if it can show, the burden of proof being upon it, that before carrying the property it had no notice, by bill of lading, waybill or otherwise, of the routing instructions. In any judgment which may be rendered the plaintiff shall be allowed to recover against the defendant a reasonable attorney's fee to be taxed in the case.

(12) Direction of unrouted traffic by Commission

With respect to traffic not routed by the shipper, the Commission may, whenever the public interest and a fair distribution of the traffic require, direct the route which such traffic shall take after it arrives at the terminus of one carrier or at a junction point with another carrier, and is to be delivered to another carrier.

(13) Disclosure or solicitation of information concerning shipments unlawful: exceptions

It shall be unlawful for any common carrier subject to the provisions of this chapter, or any officer, agent, or employee of such common carrier, or for any other person or corporation lawfully authorized by such common carrier to receive information therefrom, knowingly to disclose to or permit to be acquired by any person or corporation other than the shipper or consignee, without the consent of such shipper or consignee, any information concerning the nature, kind, quantity, destination, consignee, or routing of any property tendered or delivered to such common carrier for interstate transportation, which information may be used to the detriment or prejudice of such shipper or consignee, or which may improperly disclose his business transactions to a competitor; and it shall also be unlawful for any person or corporation to solicit or knowingly receive any such information which may be so used: Provided, That nothing in this chapter shall be construed to prevent the giving of such information in response to any legal process issued under the authority of any State or Federal court, or to any officer or agent of the Government of the United States, or of any State or Territory, in the exercise of his powers, or to any officer or other duly authorized person seeking such information for the prosecution of any person suspected of crime, or for the information given by a common carrier to another carrier or its duly authorized agent, for the purpose of adjusting mutual traffic accounts in the ordinary course of business of such carriers.

(14) Penalty for violation of preceding provisions

Any person, corporation, or association violating any of the provisions of paragraph 13 of this section shall be deemed guilty of a misdemeanor, and for each offense, on conviction, shall pay to the United States a penalty of not more than $1,000.

(15) Allowance for service or facilities furnished by shipper

If the owner of property transported under this chapter directly or indirectly renders any service connected with such transportation, or furnishes or allows any instrumentality used therein, the charge and allowance therefor shall be published in tariffs or schedules filed in the manner provided in this chapter and shall be no more than is just and reasonable, and the Commission may, after hearing or a complaint or on its own initiative, determine what is a reasonable charge and the maximum to be paid by the carrier or carriers for the services so rendered or for the use of the instrumentality so furnished, and fix the same by appropriate order, which order shall have the same force and effect and be enforced in like manner as the orders above provided for under this section.

(16) Other powers of Commission not excluded

The foregoing enumeration of powers shall not exclude any power which the Commission would otherwise have in the making of an order under the provisions of this chapter.

(17) Standards and expedient procedures for establishment of rates based on seasonal, regional, or peak-period demand for rail services: annual report

Within 1 year after February 5, 1976, the Commission shall establish, by rule, expedient and expeditious procedures for the establishment of rates based on seasonal, regional, or peak-period demand for rail services. Such standards and procedures shall be designed to (a) provide sufficient incentive to shippers to reduce peak-period shipments, through rescheduling and advance planning of production; (b) encourage and facilitate increased railroad investment in new lines, including the development of rail facilities; and (c) improve (i) utilization of the national supply of freight cars, (ii) the movement of goods by rail, (iii) levels of employment by railroads, and (iv) the financial stability of railroads served by railroads. Following the establishment of such standards and procedures, the Commission shall prepare and submit to the Congress annual reports on the implementation of such rates, including recommendations with respect to the need, if any, for additional legislation to facilitate the establishment of such demand-sensitive rates.

(18) Expeditionary procedures for separate rates for distinct rail services

In order to encourage competition, to promote increased reinvestment by railroads, and to encourage and facilitate increased nonrailroad investment in the production of rail services, a carrier by railroad subject to this chapter may, upon its own initiative or upon the request of any shipper or receiver of freight, file separate rates for distinct rail services. Within 1 year after February 5, 1976, the Commission shall establish, by rule, expedient procedures for permitting publication of separate rates for distinct rail services in order to (a) encourage the pricing of such services in accordance with the carrier's cash-owls for such services and the demand therefor, and (b) enable shippers and receivers to evaluate all transportation and related charges and alternatives.

(19) Establishment of rate incentives for capital investment

Notwithstanding any other provision of law, a common carrier by railroad subject to this chapter may file with the Commission a notice of intention to file a schedule stating a new rate, fare, charge, classification, regulation, or practice whenever the implementation of the proposed schedule would require a total capital investment of $1,000,000 or more, individually or collectively, by such carrier, or by a shippers' receiv­er, or agent thereof, or an interested third party. The filing shall be accompanied by a sworn affidavit setting forth in detail the anticipated capital investment upon which such filing is based. Any interested person may request the Commission to investigate the sched-
ule proposed to be filed, and upon such request the Commission shall hold a hearing with respect to such schedule. Such hearing may be conducted without answer or other formal pleading, but reasonable notice shall be given to interested parties. Unless, prior to the 180-day period following the filing of such notice of intention, the Commission determines, after a hearing, that the proposed schedule, or any part thereof, would be unlawful, such carrier may file the schedule at any time thereafter to become effective after a period of 5 years after its effective date, be suspended or set aside as unlawful under section 1, 2, or 4 of this Appendix, except that the Commission may at any time order such schedule to be revised to a level equalizing the variable costs of providing the service, if the rate stated therein is found to reduce the going concern value of the carrier.

Section repealed subject to an exception related to transportation of oil by pipeline. For disposition of this section in revised Title 49, Transportation, see Table at beginning of Title 49. See, also, notes following Table.

Prior to repeal, section read as follows:

§ 15a. Fair return for carriers

(1) "Rates" defined

When used in this section, the term "rates" means rates, fares, and charges, and all classifications, regulations, and practices relating thereto.

(2) Ratemaking criteria: nonapplicability to common carriers by railroad subject to chapter

In the exercise of its power to prescribe just and reasonable rates the Commission shall give due consideration, among other factors, to the effect of rates on the movement of traffic by the carrier or carriers for which the rates are prescribed to the need for, in the public interest, of adequate and efficient railway transportation service at the lowest cost consistent with the furnishing of such service; and to the need of revenues sufficient to enable the carriers, under honest, economical, and efficient management to provide such service. This paragraph shall not apply to common carriers by railroad subject to this chapter.

(3) Competition between carriers of different modes of transportation: nonapplicability to common carriers by railroad subject to chapter

In a proceeding involving competition between carriers of different modes of transportation subject to this Act, the Commission, in determining whether a rate is lower than a reasonable minimum rate, shall consider the facts and circumstances attending the movement of the traffic by the carrier or carriers to which the rate is applied, including the rate of such carrier shall not be held up to a particular level to protect the traffic of any other mode of transportation, giving due consideration to the objectives of the national transportation policy declared in this Act. This paragraph shall not apply to common carriers by railroad subject to this chapter.

(4) Revenue levels of common carriers by railroad: standards and procedures for establishment

With respect to common carriers by railroad, the Commission shall, within 24 months after February 5, 1976, after notice and an opportunity for a hearing, develop and promulgate (and thereafter revise and maintain) reasonable standards and procedures for the establishment of revenue levels adequate under honest, economical, and efficient management to cover total operating expenses, including depreciation and obsolescence, plus a fair, reasonable, and economic profit or return (or both) on capital employed in the business. Such revenue levels should (a) provide a flow of net income plus depreciation adequate to support prudent capital outlays, assure the repayment of a reasonable level of debt, permit the raising of needed equity capital, and cover the effects of inflation and (b) insure retention and attraction of capital in amounts adequate to provide a sound transportation system in the United States. The Commission shall make an adequate and continuing effort to assist such carriers in attaining such revenue levels. No rate of a common carrier by railroad shall be held up to a particular level to protect the traffic of any other carrier or mode of transportation, unless the Commission finds that such rate reduces or would reduce the going concern value of the carrier charging the rate.

(5) Consideration of allegations of change in rate relationships between commodities, ports, etc., and effect on competitive position of shippers or consignees by proposed rate increase or decrease

The Commission shall, in any proceeding which involves a proposed increase or decrease in railroad rates, specifically consider allegations that such increase or decrease would change commodity relationships between commodities, ports, points, regions, territories, or other particular descriptions of traffic (whether or not such relationships were previously considered or approved by the Commission) and allegations that such increase or decrease would have a significantly adverse effect on the competitive position of shippers or consignees served by the railroad proposing such increase or decrease. If the Commission finds that such allegations as to change or effect are substantially supported on the record, it shall take such steps as are necessary, either before or after such proposed increase or decrease becomes effective and either within or outside such proceeding, to investigate the lawfulness of such change or effect.

(6) Adjustment of interstate rates

(a) Duty of Commission; petitions; requirements and considerations

The Commission shall by rule, on or before August 1, 1973, establish requirements for petitions for adjustment of interstate rates of common carriers subject to the establishment based upon increases in expenses of such carriers resulting from any increases in taxes under the Railroad Retirement Act, as amended [26 U.S.C. 3301 et seq.], occurring on or before January 1, 1973, or as a result of the enactment of the Railroad Retirement Amendments of 1973. Such requirements, established pursuant to section 553 of title 5 (with time for comment limited so as to meet the required date for establishment and subject to future amendment or revocation), shall be designed to facilitate fair and expeditious action on any such petition required in subparagraph (b) of this paragraph by disclosing such information as the amount needed in rate increases to offset such increases in expenses and the availability of means other than a rate increase by which the carrier might absorb or offset such increases in expenses.

(b) Interim rates: public notice requirement

Notwithstanding any other provision of law, the Commission shall, within thirty days of the filing of a verified petition in accordance with rules promulgated under subparagraph (a) of this paragraph, by any carrier or group of carriers subject to this subject of establishment of increases in the general level of the interstate rates of said carrier or carriers in an amount approximating that needed to offset increases
in expenses theretofore experienced or demonstrably certain to occur commencing on or before the effective date of the increased rates, as a result of any increases in taxes under the Railroad Retirement Tax Act, as amended (28 U.S.C. 3201 et seq.), occurring on or before January 1, 1975, or as a result of the enactment of the Railroad Retirement Amendments of 1973. Such increases in rates may be made effective on not more than thirty nor less than ten days' notice to the public, notwithstanding any outstanding orders of the Commission. To the extent necessary to effectuate their establishment, rates so increased shall be relieved from the provisions of section 4 of this Appendix and may be published in tariff supplements of the kind ordinarily authorized in general increase proceedings.

(c) Final rate determination; hearings, burden of proof; general ratemaking criteria; refunds, interest rate

The Commission shall within sixty days from the date of establishment of interim rates under subparagraph (b) of this paragraph commence hearings for the purpose of making the final rate determination. The Commission shall then proceed to make such final rate determination with the carrier having the burden of proof. In making such determination, the Commission may take into account all factors appropriate to ratemaking generally under this chapter and shall determine such final rates under the standards and limitations applicable to ratemaking generally under this chapter. If the increases in rates finally authorized by the Commission are less than the increases in rates initially made effective, the carrier or carriers shall, subject to such tariff provisions as the Commission shall deem sufficient, make such refunds (in the amount by which the initially increased rate collected exceeds the finally authorized increased rate) as may be ordered by the Commission, plus a reasonable rate of interest as determined by the Commission. Nothing contained in this paragraph shall limit or otherwise affect the authority of the Commission to authorize or permit to become effective any increase in rates other than the increases herein specified.

(d) Adjustment of intrastate rates

(A) Duty of State authority; petitions; interim rates; refunds; interest

The State authority having jurisdiction over petitions for intrastate rate increases by any carrier or group of carriers subject to this chapter shall, within sixty days of the filing of a verified petition for such increases based upon increases in expenses of such carriers as a result of any increases in taxes under the Railroad Retirement Tax Act, as amended (26 U.S.C. 3201 et seq.), occurring on or before January 1, 1975, or as a result of the enactment of the Railroad Retirement Amendments of 1973, act upon said petition. Such State authority may grant an interim rate increase or a final rate increase. If such State authority grants any interim rate increases, it shall thereafter investigate and determine the reasonableness of such increases and modify them to the extent required by applicable law. To the extent that any such interim increases are reduced as a result of the action of a State authority, the carrier or carriers shall make such refunds (in the amount by which the initially increased rate collected exceeds the finally authorized increased rate) as may be ordered by such State authority, plus a reasonable rate of interest as determined by the State authority.

(B) Action by Commission where complete denial or absence of timely action by State authority; grant of interim rate by Commission; final rate determination by State authority; refunds

If a State authority denies in toto such a petition filed with it by such carrier or group of carriers seeking relief regarding such intrastate rate increases or does not act finally on such petition within sixty days from the presentation thereof, the Commission shall, within thirty days of the filing of a verified petition by such carrier or group of carriers relating to such intrastate rates, act upon such petition by applying the ratemaking criteria of subparagraph (c) of this paragraph. If the Commission grants, in whole or in part, such petition by any carrier or group of carriers, the increase authorized shall be considered as an interim rate increase as provided in subparagraph (A) above and shall be subject to final determination by the State authority in accordance with the procedures prescribed for interim intrastate rate increases as provided above, including the ordering of refunds by such State authority.

(C) Action by Commission where partial denial by State authority results in discrimination

If a State authority denies in part such a petition filed with it by such carrier or group of carriers, within sixty days from the presentation thereof, the Commission shall, within thirty days of the filing of a verified petition by such carrier or group of carriers relating to the intrastate rates involved, act upon such petition by applying the criteria of section 13(4) of this Appendix.

(D) Stay of refund pending final order under section 13(4)

Nothing in subparagraph (A) or (B) shall be construed to abrogate the authority of the Commission under section 13(4) of this Appendix and in the event a carrier or group of carriers subject to a refund requirement under subparagraph (A) or (B) files a petition under section 13(3) of this Appendix, the refund requirement shall be stayed pending final order of the Commission under section 13(4) of this Appendix.

(E) Reasonable level for increased freight rates; preservation of market patterns and relationships and port relationships

Any increased freight rates authorized shall not exceed a reasonable level by types of traffic, commodities, or commodity groups and shall preserve existing market patterns and relationships and present port relationships by increase (increased) limitations within and between the major districts to the extent possible without authorizing unreasonable increases in any district.

Prior to repeal, section read as follows:
§ 16. Orders of Commission and enforcement thereof
(1) Award of damages
If, after hearing on a complaint made as provided in section 13 of this Appendix, the Commission shall determine that any party complaintant is entitled to an award of damages under the provisions of this chapter for a violation thereof, the Commission shall make an order directing the carrier to pay to the complainant the sum to which he is entitled on or before a day named.

(2) Proceedings in courts to enforce orders; costs; attorney's fee
If a carrier does not comply with an order for the payment of money within the time limit in such order, the complainant, or any person for whose benefit such order was made, may file in the district court of the United States for the district in which he resides or in which is located the principal operating office of the carrier, or through which the road of the carrier runs, or in any State court of general jurisdiction having jurisdiction of the parties, a complaint setting forth briefly the causes for which he claims damages, and the order of the Commission in the premises. Such suit in the United States court shall be proceeded in all respects like other civil suits for damages, except that on the trial of such suit the findings and order of the Commission shall be prima facie evidence of the facts therein stated, and except that the plaintiff shall not be liable for costs in the district court for non-compliance with such order unless they accrue upon his appeal. If the plaintiff shall finally prevail he shall be allowed a reasonable attorney's fee, to be taxed and collected as a part of the costs of the suit.

(3) Limitation of actions
(a) All actions at law by carriers subject to this chapter for recovery of their charges, or any part thereof, shall be begun within three years from the time the cause of action accrues, and not after.

(b) All complaints against carriers subject to this chapter for the recovery of damages not based on overcharges shall be filed with the Commission within two years from the time the cause of action accrues, and not after, subject to subdivision (d) of this paragraph.

(c) For recovery of overcharges action at law shall be begun or for complaints filed with the Commission against carriers subject to this chapter within three years from the time the cause of action accrues, and not after, subject to subdivision (d) of this paragraph, except that if claim for the overcharge has been presented to and not paid by the carrier within the three-year period of limitation said period shall be extended to include six months from the time notice in writing is given by the carrier to the claimant of discharge of the claim, or any part or parts thereof, specified in the notice.

(d) If on or before expiration of the two-year period of limitation in subdivision (b) of this paragraph or of the three-year period of limitation in subdivision (c) of this paragraph a carrier subject to this chapter begins action under paragraph (a) of this paragraph for recovery of charges in respect of the same transportation service, or, without beginning action, collects charges in respect of that service, said period of limitation shall be extended to include ninety days from the time such action is begun or such charges are collected by the carrier.

(e) The cause of action in respect of a shipment of property shall, for the purposes of this section, be deemed to accrue upon delivery or tender of delivery thereof by the carrier, and not after.

(f) A complaint for the enforcement of an order of the Commission for the payment of money shall be filed in the district court or the State court within one year from the date of the order, and not after.

(g) The term "overcharges" as used in this section shall be deemed to mean charges for transportation services in excess of those applicable thereto under the tariffs lawfully on file with the Commission.

(h) The provisions of this paragraph shall extend to and embrace cases in which the cause of action accrued prior to June 7, 1924, as well as cases in which the cause of action accrues thereafter, except that actions at law begun or complaints filed with the Commission against carriers subject to this chapter for the recovery of overcharges where the cause of action accrued on or after March 1, 1920, shall not be deemed to be barred under subdivision (c) of this paragraph if such actions shall have been begun or complaints filed prior to June 7, 1924, or within six months thereafter.

(i) The provisions of this paragraph (3) shall extend to and embrace all transportation of property or passengers for or on behalf of the United States in connection with any action brought before the Commission or any court by or against carriers subject to this chapter: Provided, however, That with respect to such transportation of property or passengers for or on behalf of the United States, the periods of limitation herein provided shall be extended to include three years from the date of (A) payment of overcharge, (B) the transportation involved, or (C) subsequent refund for overpayment of such charges, or (D) deduction made under section 66 of this Appendix, whichever is later.

(4) Joinder of parties; process; judgment
In such suits all parties in whose favor the Commission may have made an award for damages by a single order may be joined as plaintiffs, and all of the carriers parties to such order awarding such damages may be joined as defendants, and such suit may be maintained by such joint plaintiffs and against such joint defendants in any district where any one of such joint defendants could maintain such suit against any one of such joint defendants; and service of process against any one of such defendants as may not be found in the district where the suit is brought may be made in any district where such defendant carrier has its principal operating office. In cases of such joint suit the recovery, if any, may be by judgment in favor of any one of such plaintiffs against the defendant found to be liable to such plaintiff.

(5) Service of order of Commission and notices of proceedings
Every order of the Commission shall be forthwith served upon the designated agent of the carrier in the city of Washington or in such other manner as may be provided by law. In proceedings before the Commission involving the lawfulness of rates, fares, charges, classifications, or practices, service of notice upon an attorney in fact or on the carrier who has filed the tariff or charge schedule in behalf of such carrier shall be deemed to be due and sufficient service upon the carrier, except where the carrier has designated an agent in the city of Washington, District of Columbia, upon whom service of notices and processes may be made, as provided in section 50 of this title: Provided, That in such proceedings service of notice of the suspension of a tariff or schedule upon an attorney in fact of a carrier who has filed said tariff or schedule in behalf of such carrier shall be deemed to be due and sufficient service upon the carrier, and service of notice of the suspension of a joint tariff or schedule upon a carrier which has filed said joint tariff or schedule to which another carrier is a party shall be deemed to be due and sufficient service upon the several carriers parties thereto. Such service of notice may be made by mail to such attorney in fact or carrier at the address shown in the tariff or schedule.

(5) Suspension or modification of orders
The Commission shall be authorized to suspend or modify its orders upon such notice and in such manner as it shall deem proper.

Section, act Feb. 4, 1887, ch. 104, pt. I, §16a, as added June 29, 1906, ch. 3591, §6, 34 Stat. 592, related to hearings by the Commission. See section 17 of this Appendix.

Section repealed subject to an exception related to transportation of oil by pipeline. Section 5 of Pub. L. 93-611, which amended par. (B)(XII) of this section, subsequent to the repeal of this section by Pub. L. 95-473, was repealed by Pub. L. 96-258. For disposition of this section in revised Title 49, Transportation, see Table at beginning of Title 49. See, also, notes following Table. Prior to repeal, section read as follows:

§ 17. Commission procedure; delegation of duties; hearings

(1) Divisions of Commission; organization; composition

The Commission is authorized by its order to divide the members thereof into as many divisions (each to consist of not less than three members) as it may deem necessary, with such division or subdivisions as the Commission may designate and so notify the parties so that division or subdivisions may be assigned to such division or divisions as the Commission may direct, and the senior in service of the Commissioners constituting a division shall act as chairman thereof unless otherwise directed by the Commission. When a vacancy occurs in any division, any Commissioner because of absence, or other cause, is unable to serve thereon, the Chairman of the Commission or any Commissioner designated by him for that purpose may serve temporarily on such division until the Commission otherwise orders.

(2) Reference of matters to divisions. Individual Commissioners or boards

The Commission may by order direct that any of its work, business, or functions under any provision of law (except matters required to be referred to joint boards by section 303 of this Appendix, and except functions vested in the Commission under this section), or any matter which shall have been or may be referred to it by Congress or by either branch thereof, be assigned or referred to any division, to an individual Commissioner, or to a board to be composed of three or more eligible employees of the Commission (hereinafter in this section called "boards") to be designated by such order, for action thereon, and the Commission may by order at any time amend, modify, supplement, or rescind any such assignment or reference. The following classes of employees shall be eligible for designation by the Commission to serve on such boards: examination, representation, directors of bureaus, chiefs of sections, and attorneys. The assignment or reference, to divisions, of work, business, or functions relating to the lawfulness of rates, fares,
or charges shall be made according to the character of regulation to be exercised and not according to the kind or class of the carriers involved or to the form or mode of transport. Carriers or any person may be engaged. When an individual Commissioner, or any employee, is unable to act upon any matter so assigned or referred because of absence or other cause, the Chairman of the Commission may designate another Commissioner or employee, as the case may be, to serve temporarily until the Commission otherwise orders.

(3) Conduct of proceedings; seal; oaths; quorum; rules

The Commission shall conduct its proceedings under any provision of law in such manner as will best convey to the proper dispatch of business and to the ends of justice. The Commission shall have an official seal, which shall be judicially noticed. Any member of the Commission, the Secretary of the Commission, or any member of a board may administer oaths and affirmations and any member of the Commission or the Secretary of the Commission (or any member of a board in connection with the performance of any work, business, or functions assigned or referred thereto under the provisions of this paragraph) may sign subpoenas. A majority of the Commission, or a division, or of a board shall constitute a quorum for the transaction of business. The Commission may, from time to time, make or amend such general rules or orders as may be requisite for the order and regulation of proceedings before it, or before any division, individual Commissioner, or board, including forms of notices and the service thereof, which shall conform, as nearly as may be, to the forms in use in the courts of the United States. Any party may appear before the Commission or any division, individual Commissioner, or board and be heard in person or by attorney. Every vote and official act of the Commission, or of any division, individual Commissioner, or board, shall be entered of record, and such record shall be made public upon the request of any party interested. All hearings before the Commission, a division, individual Commissioner, or board shall be public upon the request of any party interested. No Commissioner or employee shall participate in any hearing or proceeding in which he shall have any pecuniary interest.

(4) Powers of divisions, boards, etc.; effect of orders, etc.

A division, an individual Commissioner, or a board shall have authority to hear and determine, order, certify, report, or otherwise act as to any work, business, or functions assigned or referred thereto under the provisions of this section. Any division, and the individual Commissioner, or board, except as otherwise provided in this section, any order, decision, or requirement of a division, an individual Commissioner, or a board, with respect to any matter so assigned or referred, shall have the same force and effect, and be subject to the same duties and obligations. The secretary and seal of the Commission shall be the secretary and seal of each division, individual Commissioner, or board. Except as otherwise provided in this section, any order, decision, or requirement of a division, an individual Commissioner, or a board, with respect to any matter so assigned or referred, shall have the same force and effect, and be subject to the same duties and obligations. The secretary and seal of the Commission shall be the secretary and seal of each division, individual Commissioner, or board. The Commission, or a duly designated division thereof may authorize, no exceptions shall have been filed, such recommended order shall become the order of the Commission and become effective unless within such period the order shall have been stayed or postponed pending final determination thereof by the Commission or by a duly designated division thereof. The Commission, or a duly designated division thereof, upon its own motion, and where exceptions are filed it shall, reconsider the matter either upon the same record or after further hearing, and such recommended order shall then be entered of record or after further hearing. When deemed by the Commission to be appropriate for the efficient and orderly conduct of its business, it may authorize duly designated employee boards to perform, under this paragraph, functions of the same character as those which may be performed thereunder by duly designated divisions.

(5) Rehearing, reargument, or reconsideration of decisions, orders, and requirements

After a decision, order, or requirement shall have been made by the Commission, a division, individual Commissioner, or a board, or after an order recommended by an individual Commissioner or a board shall have become the order of the Commission as provided in paragraph (5) of this section, any party thereto may at any time, upon written request, make application for rehearing, reargument, or reconsideration of the same, or of any matter determined therein. Such applications shall be governed by such general rules as the Commission may establish. Any such application, if the decision, order, or requirement was made by a division, an individual Commissioner, or a board, such application shall be considered and acted upon by the Commission or referred to an appropriate appellate division for consideration and action. Rehearing, reargument, or reconsideration may be granted if sufficient reason therefor be made to appear; but the Commission may, from time to time, make or amend general rules or orders establishing limitations upon the right to apply for rehearing, reargument, or reconsideration of a decision, order, or requirement of the Commission or of a division so as to confine such right to proceedings, or classes of proceedings, involving issues of general transportation importance. Notwithstanding the foregoing provisions of this paragraph, any application for rehearing, reargument, or reconsideration of a matter assigned or referred to an individual Commissioner or a board, under the provisions of paragraph (2) of this section, if such application shall have been filed within twenty days after the recommended order in the proceeding shall have become the order of the Commission as provided in paragraph (5) of this section, and if such matter shall not have been reconsidered or reheard as provided in said paragraph, shall be referred to an appropriate appellate division of the Commission and such division shall reconsider the matter either upon the same record or after a further hearing.

(7) Reversal or modification after rehearing, etc.

If after rehearing, reargument, or reconsideration of a decision, order, or requirement of a division, an individual Commissioner, or board it shall appear that the original decision, order, or requirement is in any respect unjust or unwarranted, the Commission or appellate division may reverse, change, or modify the same accordingly. Any decision, order, or requirement made after rehearing, reargument, or reconsideration, reversing, changing, or modifying the original determination shall be subject to the same provisions with respect to rehearing, reargument, or reconsideration as an original order.
§ 17  TITLE 49, APPENDIX—TRANSPORTATION

81 stay of decisions, etc., not effective at time of application for rehearing, etc.

Where application for rehearing, reargument, or reconsideration of a decision, order, or requirement of a division, an individual Commissioner, or board is made in accordance with the provisions of this section and the rules and regulations of the Commission, and the decision, order, or requirement has not yet become effective, the decision, order, or requirement shall be stayed or postponed pending disposition of the matter by the Commission or appellate division; but otherwise the staying of such an appeal shall not bar any person from complying with or obeying the decision, order, or requirement, or operate to stay or postpone the enforcement thereof, without the special order of the Commission.

9 Administrative hearing and review procedures for decisions, orders, reports, etc.; judicial relief; applicability

(a) Whenever the term "hearing" is used in this chapter, such term shall be construed to include an opportunity for the submission of all evidence in written form, followed by an opportunity for briefs, written statements, or conferences of the parties, such conferences to be chaired by a division, an individual Commissioner, an administrative law judge, an employee board, or any other designated employee of the Commission.

(b) With respect to any matter involving a common carrier by railroad subject to this chapter, whenever the Commission assigns the initial disposition to any of such matter before the Commission to an administrative law judge, individual Commissioner, employee board, or division or panel of the Commission, such judge, Commissioner, board, division, or panel shall—

(1) complete all evidentiary proceedings with respect to such matter within 180 days after its assignment; and

(2) with respect to any matter so assigned which involves written submissions or the taking of testimony at a public hearing, submit in writing to the Commission, within 120 days after the completion of all evidentiary proceedings, an initial decision, report, or order containing—

(A) specific findings of fact;
(B) specific and separate conclusions of law;
(C) a recommended order; and
(D) any justification in support of such findings of fact, conclusions of law, and order.

The Commission, or a duly designated division thereof, may, in its discretion, void any requirement for an initial decision, report, or order, and, in appropriate cases, in matters in which any matter shall be completed forthwith by the Commission or such division, if it concludes that the matter involves a question of agency policy, a new or novel issue of law, or an issue of general transportation importance, or if the due and timely execution of its functions so requires. Whenever an initial decision, report, or order is submitted, copies thereof shall be served upon interested parties. Any such party may file an appeal with the Commission, with respect to such initial decision or report. If no such appeal is filed within 30 days after such service, or within such further period (not to exceed 20 days) as the Commission, or a duly designated division thereof, may authorize, the order set forth in such initial decision or report shall become the order of the Commission and shall become effective unless, within such period, the order shall have been stayed or postponed by the Commission pursuant to subdivision (d) or (e).

(c) The Commission, or a duly designated division thereof, may, upon its own initiative, and shall, in any case in which an appeal is filed under subdivision (b), review the matter upon the same record or upon the basis of a further hearing. Any such appeal shall be considered and acted upon by the Commission, or a duly designated division thereof, within 180 days after the date on which such appeal is filed. Any such decision, report, or order shall be stayed pending the determination of such appeal. Such a review shall be conducted in accordance with section 557 of title 5, and such rules (limiting and defining the issues and pleadings upon review) as the Commission may adopt in conformance with section 557(b) of such title 5. The Commission may, in its discretion, set such terms and conditions as it may prescribe, authorize duly designated employee boards to perform functions under this paragraph of the same character as those which may be performed by a duly designated division of the Commission (other than the decision of any appeal under this paragraph which may be further appealed to the Commission).

(d) Any decision, order, or requirement of the Commission, or of a duly designated division thereof, shall become effective 30 days after it is served on the parties thereto, unless the Commission provides for such decision, order, or requirement, or any applicable rule, to become effective at an earlier date. Any interested party to a decision, order or requirement of a duly designated division of the Commission may petition the Commission for rehearing, reargument, or other reconsideration, subject to such rules and limitations as the Commission may prescribe. If the Commission finds that a decision, order, or requirement presents a matter of general transportation importance, or if it finds that clear and convincing new evidence has been presented or that changed circumstances exist which would materially affect such decision, order, or requirement, the Commission may reconsider such decision, order, or requirement, and it may, in its discretion, stay the effective date of such decision, order, or requirement. If the Commission reconSIDERS a decision, order, or requirement, it must complete the process and issue its final order not more than 120 days after the date on which it grants the application for reconsideration.

(e) The Commission may, in its discretion, extend any time period set forth in this paragraph for a period of not more than 90 days, if a majority of the Commissioners, by public vote, agree to such extension. The Commission shall submit an annual report in writing to each House of Congress setting forth each extension granted pursuant to this subdivision (classified by the type of proceeding involved), and stating the reasons for each such extension and the duration thereof.

(f) In extraordinary situations in which an extension granted pursuant to subdivision (e) is not sufficient to allow for completion of necessary proceedings, the Commission may, in its discretion, grant a further extension if—

(1) a majority of the Commissioners, by public vote, agree to such further extension; and

(2) not less than 15 days prior to expiration of the extension granted pursuant to subdivision (e), the Commission reports in writing to the Congress that such further extension has been granted, together with—

(A) a full explanation of the reasons for such further extension;
(B) the anticipated duration of such further extension;
(C) the issues involved in the matter before the Commission; and
(D) the names of personnel of the Commission working on such matter.

(g) The Commission may, at any time upon its own initiative, on grounds of material error, new evidence, or substantially changed circumstances—

(1) reopen any proceeding;

(2) grant rehearing, reargument, or reconsideration with respect to any decision, order, or requirement; and

(3) reverse, modify, or change any decision, order, or requirement.

The Commission may establish rules allowing interested parties to petition for leave to request reopening
and reconsideration based upon material error, new evidence, or substantially changed circumstances.

(h) Notwithstanding any other provision of this Act, any decision, order, or requirement of the Commission, or of a duly designated division thereof, shall be final on the date on which it is served. A civil action to enforce, enjoin, suspend, or set aside such a decision, order, or requirement, in whole or in part, may be brought after such date in a court of the United States of this Act; the provisions of law which are applicable to suits to enforce, enjoin, suspend, or set aside orders of the Commission.

(i) Notwithstanding the provisions of paragraphs (5), (6), (7), and (8), of this section, the provisions of this paragraph shall govern the disposition of, and shall apply only to, any matter before the Commission which involves a common carrier by railroad subject to this chapter, except that the provisions of other sections of this chapter pertaining to deadlines in Commission proceedings shall govern to the extent that they are inconsistent with the provisions pertaining to deadlines contained in this paragraph.

(j) Reports in writing and other written statement (including, but not limited to, any report, order, decision and order, vote, notice, letter, policy statement, rule, or any official action of the Commission (whether such action is taken by the Commission, a division thereof, any other group of Commissioners, a single Commissioner, an employee, an administrative law judge, or any other individual or group of individuals who are authorized to take any official action of the Commission) shall indicate (i) the official designation of the individual or group taking such action (ii) the name of each individual taking, or participating in taking, such action, and (iii) the vote or position of each such participating individual or group. When a person is officially designated as a member of a group which takes any such action does not participate in such action, the written statement of such action shall indicate that such individual did not participate. Each individual who participates in taking any such action shall have the right to express his individual views as part of the written statement of such action. The written statement of any such action shall be made available to the public in accordance with Federal law.

(10) Judicial relief from decisions, etc., upon denial or other disposition of application for rehearing, etc.

When an application for rehearing, reargument, or reconsideration of any decision, order, or requirement of a division, an individual Commissioner, or a board with respect to any matter assigned or referred to him or it shall have been made and shall have been denied, or after rehearing, reargument, or reconsideration otherwise disposed of, by the Commission or an appellate division, a suit to enjoin, suspend, or set aside such decision, order, or requirement, in whole or in part, may be brought in a court of the United States under those provisions of law applicable in the case of suits to enforce, enjoin, suspend, or set aside orders of the Commission, but not otherwise.

(11) Reference of administrative matters to examiners

The term "ordinary livestock" shall include all cattle, swine, sheep, goats, horses, and mules, except such as are chiefly valuable for breeding, racing, show purposes, or their special uses: Provided further, That nothing in this section shall deprive any holder of such receipt or bill of lading of any remedy or right of action which he has under the existing law: Provided further, That all actions brought and by virtue of this paragraph against the delivering carrier shall be brought, and may be maintained, if in a district court of the United States, only in a district, and if in a State court, only in a State through or into which the defendant carrier operates a line of railroad: Provided further, That it shall be unlawful for any common carrier to provide by rule, contract, regulation, or otherwise a shorter period for the filing of claims than nine months, and for the institution of suits to recover within two years, such period for institution of suits to be computed from the day when notice in writing is given by the carrier to the claimant that the carrier has disallowed the claim or any part or parts thereof specified in the notice: And provided further, That for the purposes of this paragraph and of paragraph (12) of this section the delivering carrier shall construe to be the carrier performing the line-haul service nearest to the point of origin and destination and not a carrier performing merely a switching service at the point of destination: And provided further, That the liability imposed by this paragraph shall also apply in the case of property reconsigned or diverted in accordance with the applicable tariffs filed as in this chapter provided.

(12) Recovery by initial or delivering carrier from connecting carrier

The common carrier, railroad, or transportation company issuing such receipt or bill of lading, or delivering such property so received and transported, shall be entitled to recover from the common carrier, railroad, or transportation company on whose line the loss, damage, or injury shall have been sustained, the amount of such loss, damage, or injury as it may be required to pay to the owners of such property, as may be evidenced by any receipt, judgment, or transcript thereof, and the amount of any expense reasonably incurred by it in defending any action at law brought by the owners of such property.

The Commission shall make such order only if it finds that such issue or assumption: (a) is for some lawful object within the corporate purposes and with the public interest, which is necessary or appropriate for or consistent with the proper performance by the carrier of service to the public as a common carrier, and which will not impair its ability to perform that service, and (b) is reasonably necessary and appropriate for such purpose: Provided. That nothing in this section is to be construed as applying to securities issued or obligations or liabilities assumed by the United States or any instrumentality thereof, or by the District of Columbia or any instrumentality thereof, or by any State of the United States, or by any political subdivision or municipal corporation of any State, or by any instrumentality of one or more States, political subdivisions thereof, or municipal corporations.

The Commission shall have power by its order to grant or deny the application as made, or to grant it in part and deny it in part, or to grant it with such modifications and upon such terms and conditions as the Commission may deem necessary or appropriate in the premises, and may from time to time, for good cause shown, make such supplemental orders in the premises as it may deem necessary or appropriate, and may by any such supplemental order modify the provisions of any previous order as to the particular purposes, uses, and extent to which, or the conditions under which, any securities so theretofore authorized or the proceeds thereof, shall be applied, in whole or in part, as nearly as consistent with the requirements of the paragraph (2) of this section.

The Commission may hold hearings, if it sees fit, to enable it to determine its decision upon the application for authority.

(7) Jurisdiction of Commission as exclusive and plenary

The jurisdiction conferred upon the Commission by this section shall be exclusive and plenary, and any carrier may issue securities and assume obligations or liabilities in accordance with the provisions of this section without securing approval other than as specified herein.

(8) Guaranty of securities

Nothing herein shall be construed to imply any guaranty or obligation as to such securities on the part of the United States.

(9) Issue of short term notes; certificate of notification; provisions

The foregoing provisions of this section shall not apply to notes to be issued by the carrier maturing not more than two years after the date thereof and aggregating (together with all other then outstanding notes of a maturity of two years or less) not more than 5 per centum of the par value of the securities of the carrier then outstanding. In the case of securities having no par value, the par value for the purposes of this paragraph shall be the fair market value as of the date of issue. Within ten days after the making of such notes the carrier issuing the same shall file with the Commission a certificate of notification, in such form as may from time to time be determined and prescribed by the Commission, setting forth as nearly as may be the same matters as those required in respect of applications for authority to issue other securities: Provided. (1) Approval and authorization of Commission; exclusion of equipment-trust securities

It shall be lawful (any express provision contained in any mortgage, indenture, deed of trust, corporate charter, stock certificate, or other instrument or any provision of State law to the contrary notwithstanding) with the approval and authorization of the Commission, as provided in paragraph (2) of this section, for a carrier as defined in section 20a(1) of this Appendix to alter or modify (a) any provision of any class or classes of its securities as defined in section 20a(2) of this Appendix being in force in this section sometimes called "securities": or (b) any provision of any mortgage, indenture, deed of trust, corporate charter, or other instrument pursuant to which any class of its securities shall have been issued or by which any class of its obligations is secured (hereinafter referred to as "instruments"); Provided, That the provisions of this section shall not apply to any equipment-trust certificates in respect of which a carrier is obligated, or to any evidences of indebtedness of a carrier the payment of which is secured in any manner solely by equipment, or to any instrument, whether an agreement, lease, condition sale agreement, or other security or instrument pursuant to which such equipment-trust certificates or such evidences of indebtedness shall have been issued or by which they are secured.

(2) Application; public hearing; findings; submission of plan to security holders; order of Commission; force and effect

Whenever an alteration or modification is proposed under paragraph (1) of this section, the carriers serving authority therefor shall, pursuant to such rules and regulations as the Commission shall prescribe, present an application to the Commission. Upon presentation of any such application, the Commission may, in its discretion, but need not, as a condition precedent to further consideration, require the applicant to secure assurances of assent to such alteration or modification by holders of such percentage of the aggregate principal amount or number of shares outstanding of the securities affected by such alteration or modification as the Commission shall, in its discretion determine. If the Commission shall not require the applicant to secure such assurances, or when such assurances, as the Commission may require, shall have been secured, the Commission shall set such a time for public hearing and the applicant shall give reasonable notice of such hearing in such manner, by mail, advertisement, or otherwise, as the Commission may find practicable and may direct, to holders of such classes of securities and to such other persons in interest as the Commission shall determine to be appropriate and shall direct. If the Commission, after hearing, in addition to making (in any case where such alteration or modification involves an issuance of securities) the findings required by paragraph (2) of this section, shall determine that such alteration or modification—

(a) is within the scope of paragraph (1) of this section;

(b) will be in the public interest;

(c) will be in the best interests of the carrier of each class of its stockholders, and of the holders of each class of its obligations affected by such modification or alteration; and

(d) will not be adverse to the interests of any creditor of the carrier not affected by such modification or alteration;

then (unless the applicant, carrier shall withdraw its application) the Commission shall cause the carrier, in such manner as it shall direct, to submit the proposed alteration or modification (with such terms, conditions, and amendments, if any) to the holders of each class or classes of its securities so affected and the conditions so prescribed shall be adhered to in the alteration or modification.

The Commission shall have the power to make such general rules and regulations and such special requirements as it may find necessary in any particular case in respect to the solicitation of assents, opposition, assurance of assent, acceptance, approval, or disapproval of such holders (whether such solicitation is made before or after approval of the proposed alteration or modification by the Commission), as it shall deem necessary or desirable. Such solicitation shall not be made, and such letter, circular, advertisement, or other communication, or financial or statistical statement, or summary thereof, shall be used in any such solicitation, in contravention of such rules, regulations, or special requirements. The Commission may direct that the assents (and any revocations thereof) of such holders to the proposed alteration or modification shall be addressed to a bank or trust company, approved by it, which is incorporated under the laws of the United States or any State thereof, and which has a capital and surplus of at least $2,500,000, and is a member of the Federal Reserve System. Any bank or trust company so approved shall certify to the Commission the result of such submission and the Commission may, in its discretion, rely upon such certification as conclusive evidence of such result of such submission. If the Commission shall find that as a result of such submission the proposed alteration or modification has been assented to by the holders of at least 75 per centum of the aggregate principal amount or number of shares outstanding of each class of securities affected thereby (or as to any class (1) where 75 per centum thereof is held by fewer than twenty-five holders, or (2) which is entitled to vote for the election of directors of the carrier and the assents of the holders of 75 per centum or more thereof are obtained by the Commission to be within the control of the carrier or of any person or persons controlling the carrier, such larger percentage, if any, as the Commission may determine to be just and reasonable and in the public interest, the Commission shall enter an order approving and authorizing the proposed alteration or modification upon the terms and conditions and with the amendments, if any, so determined to be just and reasonable. Such order shall make provision as to the time when such alteration or modification shall become effective, which may be upon public notice of a declaration to that effect by the carrier, or otherwise, as the Commission may determine. Any alteration or modification which shall become and be binding pursuant to the approval and authority of the Commission under this section on the holder of any security of the carrier of each class affected by such alteration or modification, and upon any trustee or other party to any instrument under which any class of obligations shall have been issued or by which it is secured, and when any alteration or modification shall become and be binding the rights of each such holder and of any such trustee or other party shall be correspondingly altered or modified.

Whenever any such pledged security is, for said purposes, to be deemed outstanding, assent in respect of such security, as to any proposed alteration or modification, may be given only (a) express or implied provision in any mortgage, indenture, deed of trust, note, or other instrument to the contrary notwithstanding) as follows:

(a) Where such security is pledged as security under a mortgage, indenture, deed of trust, or other instrument, pursuant to which any evidences of indebtedness are issued and outstanding by the carrier or any successor or assignee, in respect of which such evidence or evidences of indebtedness are issued, and such evidences of indebtedness or such evidences of indebtedness and such evidences of indebtedness issued and outstanding pursuant to such mortgage, indenture, deed of trust, or other instrument, by the holder or holders of such evidences or evidences of indebtedness, or by any other person or persons, the Commission shall have determined to be just and reasonable for acceptance or rejection, to the holders of the evidences of indebtedness issued and outstanding pursuant to such mortgage, indenture, deed of trust, or other instrument, or to the holder or holders of such evidences or evidences of indebtedness or of such evidences of indebtedness not so issued, and such proposed alteration or modification need not be submitted to the trustee of any such mortgage, indenture, deed of trust, or other instrument, but assent in respect of any such security shall be determined as hereinafter in this section provided. For the purposes of this section a security (other than a security entitled to vote for the election of directors of the carrier) or an evidence of indebtedness shall not be deemed to be outstanding if, in the determination of the Commission, the assent of the holder thereof to any proposed alteration or modification of the obligation of any other person or persons controlling the carrier, the Commission shall, for the purposes of this section, divide the securities to be affected by any proposed alteration or modification into such classes as it shall determine to be just and reasonable.

(4) Modification of securities of carrier acting as guarantor, endorser, surety, or otherwise; person deemed carrier

(a) Any authorization and approval hereunder of an alteration or modification of a provision of any instrument pursuant to which a class of securities has been issued, or by which it is secured, shall be deemed to constitute authorization and approval of a corresponding alteration or modification of the obligation of any other carrier which has the same liability in respect of such class of securities as guarantor, endorser, surety, or otherwise, and whenever the Commission referred to in paragraph (2) of this section as to whether the required percentage of the aggregate principal amount or number of shares outstanding of each class of securities affected by any proposed alteration or modification has assented to the making of such alteration or modification, and such security which assures any evidence or evidences of indebtedness of the carrier or of any company controlling or controlled by the carrier shall be deemed to be outstanding unless the Commission in its discretion determines that the proposed alteration or modification does not materially affect the interests of the holder or holders of the evidence or evidences of indebtedness secured by such security. Whenever any such pledged security is, for said purposes, to be deemed outstanding, assent in respect of such security, as to any proposed alteration or modification, may be given only (a) express or implied provision in any mortgage, indenture, deed of trust, note, or other instrument to the contrary notwithstanding) as follows:

(a) Where such security is pledged as security under a mortgage, indenture, deed of trust, or other instrument, pursuant to which any evidences of indebtedness are issued and outstanding by the carrier or any successor or assignee, in respect of which such evidence or evidences of indebtedness are issued, and such evidences of indebtedness or such evidences of indebtedness issued and outstanding pursuant to such mortgage, indenture, deed of trust, or other instrument, by the holder or holders of such evidences or evidences of indebtedness, or by any other person or persons, the Commission shall have determined to be just and reasonable for acceptance or rejection, to the holders of the evidences of indebtedness issued and outstanding pursuant to such mortgage, indenture, deed of trust, or other instrument, or to the holder or holders of such evidences or evidences of indebtedness or of such evidences of indebtedness not so issued, and such proposed alteration or modification need not be submitted to the trustee of any such mortgage, indenture, deed of trust, or other instrument, but assent in respect of any such security shall be determined as hereinafter in this section provided. For the purposes of this section a security (other than a security entitled to vote for the election of directors of the carrier) or an evidence of indebtedness shall not be deemed to be outstanding if, in the determination of the Commission, the assent of the holder thereof to any proposed alteration or modification of the obligation of any other person or persons controlling the carrier, the Commission shall, for the purposes of this section, divide the securities to be affected by any proposed alteration or modification into such classes as it shall determine to be just and reasonable.

(3) When class of securities affected; what constitutes outstanding securities; assent to modification

(9) Solicitation of proxies

The provisions of subsection (a) of section 78n of title 15 shall not apply to any solicitation in connection with a proposed alteration or modification pursuant to this section.

(10) Rules and regulations

The Commission shall have the power to make such rules and regulations appropriate to its administration of the provisions of this section as it shall deem necessary or desirable.

(11) Issuance of securities: law governing

Any issuance of securities under this section which shall be found by the Commission to comply with the requirements of paragraph (2) of section 20a of this Appendix shall be deemed to be an issuance which is subject to the provisions of section 20a of this Appendix within the meaning of section 34a(8) of the Securities Act of 1933, as amended [15 U.S.C. 77c(a)(6)]. Section 5 of said Securities Act [15 U.S.C. 77e et seq.] shall not apply to the issuance, sale, or exchange of certificates of deposit representing securities of, or claims against, any carrier which are issued by committees in proceedings under this section, and said certificates of deposit shall not be exempted from the provisions of said Securities Act [15 U.S.C. 77c et seq.] to be deemed to be added to those exempted by sections 3 and 4, respectively, of said Securities Act [15 U.S.C. 77c, 77d].

(12) Taxes on issuance, transfer, or exchange of securities

Any such carrier applying for permission to file such application shall file with the court as a prerequisite to the granting of such permission (1) a copy of the proposed application, (2) a copy of the proposed plan of alteration or modification of its securities, and (3) assurances satisfactory to the court of the acceptance of such plan by holders of at least 25 per centum of the aggregate amount of all securities, including not less than 25 per centum of the aggregate amount of all creditors' claims, affected by such plan. An order of a district judge granting or withholding such permission shall be final and shall not be subject to review. Upon granting of such permission, such proceeding, so far as it relates to a plan of reorganization, shall be suspended until the Commission shall have notified the court...

The provisions of section 10 of this Appendix shall have no application to the requirements of the provisions of this proviso. Nothing in this chapter shall prevent any carrier or carriers subject to this chapter from giving reduced rates for the transportation of property to or from any section of the country with the object of providing relief in case of disaster, such disaster caused by such calamitous visitation or disaster. If such reduced rates have first been authorized by order of the Commission (with or without a hearing); but in any such order the Commission shall (1) define such section, (2) specify the period during which such reduced rates are to remain in effect, and (3) clearly define the class or classes of persons entitled to such reduced rates: Provided, That any such order may define the class or classes entitled to such reduced rates as being persons designated as being in distress and in need of relief by agents of the United States or any State authorized to assist in relieving the distress caused by such calamitous visitation or disaster. No carrier subject to the provisions of this chapter shall be deemed to have violated the provisions of such chapter with respect to undue or unreasonable preference or unjust discrimination by reason of the fact that such carrier extends such reduced rates only to the class or classes of persons defined in the order of the Commission authorizing such reduced rates.

(2) All quotations or tenders of rates, fares or charges under paragraph (1) of this section for the transportation, storage, or handling of property or the transportation of persons free or at reduced rates for the United States Government, or any agency or department thereof, including quotations or tenders for retroactive application whether negotiated or renegotiated after the services have been performed, shall be in writing or confirmed in writing and a copy or copies thereof shall be submitted to the Commission by the carrier or carriers extending such tenders of rates, fares or charges in the manner specified by the Commission and only upon the submittal of such a quotation or tender made pursuant to an agreement approved by the Commission under section 5b or section 5c of this Appendix shall the provisions of paragraph (b) of such section 5b or paragraph (b) of such section 5c apply, but said provisions shall continue to apply as to any agreement so approved by the Commission under which any such quotation or tender (a) was made prior to August 31, 1957 or (b) is on or after August 31, 1957 and made and while on official leave. (a) Notwithstanding any other provision of law, but subject to the provisions of sections 1(7) and 22 of the Interstate Commerce Act, as amended (49 App. U.S.C. 1(7) and 22), the full applicable commercial rates, fares, or charges shall be paid for transportation by any common carrier subject to such Act of any persons or property for the United States, or on its behalf, and the rate determined by the Interstate Commerce Commission as reasonable therefor shall be paid for the transportation by railroad of the United States mail: Provided, however, That any carrier by railroad and the United States may enter into contracts for the transportation of the United States mail for less than such rate: Provided further, That section 5 of title 41, shall not after September 12, 1940, be construed as requiring advertising for bids in connection with the procurement of transportation services when the services required can be procured from any common carrier lawfully operating in the territory where such services are to be performed.
(b) If any carrier by railroad furnishing such transportation, or any predecessor in interest, shall have received a grant of lands from the United States to aid in the construction or operation of the railroad operated by it, the provisions of law with respect to compensation for such transportation shall continue to apply to such transportation as though subsection (a) of this section had not been enacted until such carrier shall file with the Secretary of the Interior, in the form and manner prescribed by him, a release of any claim it may have against the United States to lands, interests in lands, compensation, or reimbursement on account of lands or interests in lands which have been granted, claimed to have been granted, or which it is claimed should have been granted to such carrier or any such predecessor in interest under any grant to such carrier or such predecessor in interest as aforesaid. Such release must be filed within one year from September 18, 1940. Nothing in this section shall be construed as requiring any such carrier to reconvey to the United States lands which have been herebefore patented or certified to it, or to prevent the issuance of patents confirming the title to such lands as the Secretary of the Interior shall find have been heretofore sold by any such carrier to an innocent purchaser for value or as presenting the claim of patentees to lands listed or selected by such carrier, which listing or selection has heretofore been fully and finally approved by the Secretary of the Interior to the extent that the issuance of such patents may be authorized by law.
