

**UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION**

**18 CFR Part 141.51  
FERC Form No. 714  
Annual Electric Control and Planning Area Report**

**Part III, Schedule 2:  
Planning Area Hourly Demand and Forecast Summer and  
Winter Peak Demand and Forecast Summer and Winter Peak  
Demand and Annual Net Energy For Load**

The respondent participates in a regional process for consolidating and ensuring the consistency and accuracy of this information, and as such, has authorized the region to release, without conditions, to FERC and to the public, the most current data available.

Regional organization name, mailing address, contact person and title, telephone and facsimile numbers:

Southwest Power Pool, Inc.  
415 North McKinley Street  
Plaza West Building - #950  
Little Rock, Arkansas 72205-3020  
Jason Smith  
Engineer  
TEL: 501/614-3293  
FAX: 501/664-9553

Process for public access to regional power flow information:

Data will be sent via first class U.S. Mail no later than 10 working days following receipt by the regional organization contact person of a written request and pre-paid fee.

Data format, media and fees:

Information will be made available electronically on an as is, non-supported basis. Information will be provided for each system requested in Hourly Load Data Format. Also provided will be forecast summer and winter peak demand and net energy for load for the next ten years for each system requested. Electronic data will be provided in MS DOS ASCII format on 3.5 inch, 1.44 MB diskettes. A \$100 fee will be charged for the first system requested and \$25 for each system thereafter, for copying, handling and mailing (within U.S.) the information.
