RE: FERC Form 714 – Annual Electric Control and Planning Area Report

Greetings:

Southwest Power Pool, Inc. (SPP) is herewith resubmitting our hourly demand and forecast summer and winter peak demand and net energy for load data to the Federal energy Regulatory Commission on behalf of our members in response to Part III, Schedule 2 of FERC Form 714. Attached you will find our current membership roster. We followed instructions contained in Appendix B of FERC Docket No. RM93-10-000 in the preparation of this submittal. Also attached is information which describes our submittal of electronic data and the process for public access to this data. We are submitting this original and two copies in hard copy of the above mentioned information. The hourly load data is provided only in electronic form as described below.

Enclosed is a CD with an Excel spreadsheet of the hourly load data. An Excel spreadsheet file is also included with the forecast summer and winter peak demand and net energy for load for each member as contained in our April 1, 2004 EIA-411 Report. This information is also attached in hard copy.

Respectfully Submitted,

Jay Caspary
Manager, Planning
