

Federal Energy Regulatory Commission Procedures to find pre-Order No. 714 FPA tariffs

FPA public utility tariffs used to be filed with the Commission and maintained in paper only format. However, after transition to electronic tariff filings and tariffs, the paper tariffs are no longer maintained. These paper tariffs have been posted into eLibrary along with the indices necessary to determine their status. The tariff and rate schedules maintained in this file represent the tariffs and rate schedules as maintained by the Commission in its paper records as of the date they were superseded or cancelled. The tariffs and rate schedules may not represent the rates or terms of conditions of service in effect as of a particular point in time. Reference should be made to Commission orders to establish the filed rates or terms and conditions of service.

Some of the FPA paper tariffs remain effective, as public utilities were not required to convert their complete set of tariff documents into electronic tariff format until that tariff section is to be changed.

The process to find the paper FPA tariffs is as follows:

Open [eLibrary Search](#) and change the drop-down pick list to *Accession*.

The parent Accession Number is composed only of the Tariff Numbering Sheets. Tariff Numbering sheets are composed of the following elements:

| Field | Comment |
|-------------------------------|--|
| Company Name and Company Code | Public Utility's name |
| Designation FERC No. | FERC approved designation or pagination. Additional information may be included, such as superseded tariff document (noted by SS xxx) or the old designation. |
| Other Party | Counter party if an agreement |
| Docket No. | Docket Number |
| Dates: | |
| Instrument | Date on the Transmittal Letter |
| Filing | Date accepted by the Secretary (not the date accepted by the Commission) |
| Effective | Effective date of the tariff document. To find the date the tariff document was superseded, each Tariff Numbering Sheet must be searched for the Designation appearing after SS, and the replacement's effective date will be the superseded tariff document's supersession date. |
| Remarks | Usually an indication of the type of document |

Example FPA Tariff Numbering Sheet:

20090110-0078 FERC PDF (Unofficial) 01/10/2009

| COMPANY NAME: <i>Pacific Gas & Elect Company</i> | | COMPANY CODE: <i>P-120</i> | |
|--|---|----------------------------|--|
