Chairman Christie Provides Details on Major FERC Actions

The Chairman, in his bi-weekly letter, highlights the important actions of the Commission from April 7, 2025, through April 18, 2025.

Major FERC Actions

FERC.gov Updated to Feature Consumer Power Costs and Grid Reliability Data

FERC has announced new updates and features to its website that focus on the cost consumers pay for power as well as how reliable that power is. Visitors to FERC.gov will be able to see the retail cost of electricity by state and the amount of time and the number of times they are without power during a year.

“My priority at FERC is to work to ensure reliable power at the least cost. That is exactly why I want to highlight this critical information right on our website – because FERC’s work, impacts all Americans.”

– FERC Chairman Mark Christie

FERC, NERC Issue Report on System Performance During Winter Storms

The joint [report](#) concluded that the country’s Bulk-Power System performed well during successive cold weather events in January 2025, without major issues in either the natural gas or electric systems.
