

FERC *Insight*

FERC Takes Historic Action Launching First LNG Authorization Program

In a historic, unanimous vote, the Federal Energy Regulatory Commission (FERC) proposed accelerating liquefied natural gas (LNG) infrastructure development through a landmark blanket authorization program. The proposal would streamline permitting, accelerate energy infrastructure development, and deliver unprecedented regulatory certainty for project developers.

FERC Launches NEPA Overhaul to Accelerate Natural Gas Projects

FERC unveiled a proposal to overhaul and accelerate its review of air quality effects for proposed natural gas projects under the National Environmental Policy Act (NEPA). The draft policy statement cuts unnecessary delays and duplicative analysis, while delivering greater regulatory certainty and a more streamlined path forward for project applicants.
