

121 FERC ¶ 61,156  
UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

Midwest Hydraulics, Inc.

Project No. 12734-003

NOTICE OF INTENT NOT TO ACT ON REQUEST FOR RECONSIDERATION

(November 15, 2007)

On September 20, 2007,<sup>1</sup> the Commission issued an order denying Energie Group LLC's (Energie) request for rehearing of a June 4, 2007 Commission's Secretary Notice. The Notice denied Energie's late motion to intervene and rejected its requests for rehearing and stay of Commission staff's March 8, 2007 Order granting Midwest Hydraulics, Inc. (Midwest), a preliminary permit to study the feasibility of its proposed Williams Dam Project No. 12734 in Lawrence County, Indiana.<sup>2</sup>

On October 22, 2007, Energie filed a request for reconsideration of the Commission's September 20, 2007 Order.

Notice is hereby given that the request for reconsideration raises no new relevant issues of law, policy, or fact and therefore the Commission has decided to take no action on Energie's request for reconsideration of the September 20, 2007 Order.

By direction of the Commission.

( S E A L )

Kimberly D. Bose,  
Secretary.
